"Have Fun And Learn - Letters" is a fun and helpful book created for small children who either are super eager to learn or... don't feel like learning at all. As parents we want our children to enjoy each activity in the best way, no matter if it's "just fun" or "serious" learning. Luckily, with this book, it is possible to make learning a fun and enjoyable process for your little one. Inside of "Have Fun And Learn - Letters", your child will have a lot of space to color happy animals and draw own drawings, as well as plenty of tracing exercises for all the lower and upper case letters, without the feeling of overwhelming. What makes this book stand out is the single-side printing with black pages behind every exercise. Their function is to protect the pages from bleed-through issues (as most children want to write and color with markers), but also to help the small people to focus on one page at a time. It is a very valuable experience from the author. Julia Johansson: "As a mom of three and a bonus mom of five more, I know that children learn in a different way, at a different pace, and have different attitudes towards acquiring new skills, yet most of them need basic solutions, which we as parents often tend to complicate. I wish I had a book like this one when my kids were small. Simple, very graphic, with plenty of space to draw and color and with the possibility of bringing their focus to one task at a time. This is one of the reasons why this book has black pages on the opposite side of each and every exercise. Not only do they prevent bleed-through issues, but also help a child to stay focused. Last but not least, children usually prefer writing and drawing on the right pages. A simple trick that can change so much! In addition, I have decided to make 2 versions of cover - Happy Green and Happy Red, as I am sure that most children have their preferences. The more they like their book, the more fun it will be to use it." Features of this special letters tracing coloring book: Happy (and easy to spot!) cover in a matte finish Simple graphic design, with fun and easy to remember animal drawings and extra space to draw around them (more fun = better learning) Tracing exercises for all letters, lower and upper case Black pages preventing from bleed-through issues as well as allowing the child to focus on the current task, without distractions Acid-free white paper, printed in the USA If you would like to benefit from Julia's great experience and help your child learn through fun, get this great book now and start your happy education journey right away! Note: This is an exercise book dedicated to LETTERS. There is also a matching NUMBERS book available, as well as a combined LETTERS and NUMBERS book. Each book title comes in two different cover editions - to make exercises more enjoyable based on the child's preferences, but also allowing siblings to learn along from their OWN books.
