THE INTERNATIONAL BESTSELLER Our dreams are the diaries of our lives: as personal and unique as fingerprints, they are a record of our subconscious. More often than not, they are everything we never confess out loud, not even to ourselves. We all sleep every night. We don't always remember what we dreamed about and we almost never wonder why we have these dreams. But dreams can be a map of the things we want in the future, they can cure past neuroses and help us to understand the present. That's why they are so important. That's why they can be critical to our lives. The Book of My Dreams is a personal secret diary. It is a guide to drawing, outlining and identifying the motives and reasons behind the adventures that you experience each night. But mostly, it is like a writing manual that allows you to put down on paper the ultimate diary - one that comes from the fears, desires and joys that inspire your dreams. It also acts as a guide to understanding them and understanding yourself. The Book of My Dreams is unique. Like your dreams. Like you. On average a person can have 4-7 dreams a night. After 10 minutes of being awake, 90% of the dream is forgotten. If you are serious about understanding your subconscious mind, keep this journal next to your bed and record your dreams in order to better observe their potential meanings. "DREAMS ARE LIKE OVERNIGHT THERAPY." Book Features: 6"x9" sized pages with clear text and enough space to write.
