This quick-reference laminated guide is designed to help school bus drivers and bus monitors understand the unique transportation needs of students with disabilities. It provides bus drivers and monitors with quick access to on-the-spot support and strategies as they transport students safely and pleasantly on a daily basis. To help drivers and monitors fulfill their roles successfully, this guide: reviews the laws that ensure transportation and related services are provided to students with disabilities; explains the common types of disabilities likely to be encountered on the bus; offers strategies and techniques for promoting approachable and proactive communication with students, parents, school staff, and each other; improves understanding of students' special needs; provides resolution and problem-solving techniques; assists with fostering an atmosphere of service that creates a safe and supportive transportation experience. This guide is meant as a supplement to—not a replacement for—your school district's transportation policy. The recommendations in this guide should only be used if they do not conflict with those of your school district.

Millions of people, in the US and other parts of the world, face the grim prospect of losing their driving privileges, their mobility, and to a great extent their freedom, due to a deterioration in their eyesight or a disabling eye disease. Driving with Confidence is an empowering tool. Its message is simple: In many cases, people with low vision can and do receive, retain and safely exercise their driving privileges. The book presents a clear, no-nonsense discussion on the realities of low vision conditions, together with a practical program designed to help low vision individuals maximize their chances of retaining and/or extending their driving privileges. It also provides a detailed description of driving vision regulations in every state in the US. Site of interest:

NewsCenter 5's Heather Unruh Boston ABC affiliate WCVB Channel 5 "... we have found your book, 'Driving with Confidence: A Practical Guide to Driving with Low Vision', to be a wonderful resource." Joanne Schwartzberg, MD Director Aging and Community Health, American Medical Association's Older Drivers Project "This helpful book, printed in LARGE TYPE, contains facts, information, advice and reference materials that will enable those facing deterioration in their vision to make informed decisions about their ability to continue driving." Visionlink Newsletter of International Library, Archives & Museum of Optometry "Driving with Confidence fills a large gap in the low vision literature and provides a clearly written discussion of viable options and alternatives for driving with low vision ... because countries outside the US are also dealing with these same issues regarding drivers with low vision and the use of optical enhancement devices, I believe the material contained in Peli and Peli would be of strong interest internationally." Visual Impairment Research "The book is clearly written and well structured ... it will inform and empower its intended audience." CE Optometry "I will be enthusiastically recommending this book to my more astute patients (and their families) if they have a reasonable chance of being able to drive safely and legally and are trying to gain greater perspective than I can offer in a clinic visit. I will also recommend this book as a reference for any eye doctors, rehabilitation specialists, and driving instructors who work with a lot of partially sighted patients." Optometry and Vision Science "I strongly support the Peli's main advocacy theme, which is that visually impaired individuals should be afforded more opportunities to demonstrate their potential for safe driving ... I recommend this book to eye care practitioners as a useful source of information, and a resource to share with their visually-impaired patients." Ian L Bailey Professor of Optometry and Vision Science University of California, Berkeley, California, USA The Driver's Guide is a practical guide for repository managers and institutions who want to build their own repository.

Obtaining a driving licence is now more complex and demanding than ever before. With higher standards for each of the theory, hazard perception and practical tests, candidates will need as much information and guidance as possible. Furthermore, the demand for LGV instructors at all levels is increasing as the industry responds to a severe skills shortage. A forthcoming EU directive will also require the retraining of drivers and instructors who wish to be included on the driving standards agency (DSA) register. "The LGV Learner Driver's Guide" provides an overview of all the requirements for obtaining a LGV drivers licence for both drivers and instructors. It provides comprehensive guidance on the theory and practical tests, the main points of law for the LGV drivers and identifies areas of responsible driving. Dedicated chapters on the role of the LGV instructor and the LGV instructors exam is also included. Appendices include useful addresses, contact details for test centres and DSA accredited instructor training centres. The book is essential reading for aspiring drivers, drivers who will need to re-train under new EU legislation and instructors aiming to be included on the DSA register.

'Skewed Views Too' continues Roy Schlemme's cartoon exploration of our human faults and foibles. Using everything from wry wit to out-and-out broad slapstick, he intelligently takes the reader on a rambling, merry journey. Beginning, at times, with the most bizarre of premises, Schlemme quickly cajoles even the most somber of us into forgetting our personal problems and laughing out loud at the adventures of his eccentric cast of zanies. Unlike other more traditional cartoonists who, generally, of necessity work small and simple, Schlemme utilizes the larger page along with a more detailed drawing style to enhance the final effect upon readers. There's no single theme from one vignette to the next, but rather a lively bouncing around certain to capture even the most humor-resistant of us. 'Skewed Views Too', with over 150 humorous situations, is sure to find itself one of the more appealing gift-giving ideas and entertaining book options around.

Senior Drivers! Your future is in jeopardy. A disturbing situation is developing in the United States. Since people are living longer, the number of drivers over 65 is escalating three times as rapidly as the general driving population. Older people have difficulty concentration, shorter attention spans and failing vision among other ailments. Unfortunately this results in frequent driving mishaps, sometimes with catastrophic results. Taking away their driving privileges would deprive them of their self esteem and independence. This could happen if they continued to have accidents caused by their propensity to get distracted easily and lose concentration. Some states have already enacted laws requiring re-exams for seniors. No doubt many more will follow. Driving slower in traffic is not the answer. This could cause accidents. Driving too fast would be worse since a person's attention span and reaction time deteriorate with age. It does not matter how skillful he or she once were, aging diminishes skill in almost all areas including the operation of a motor vehicle. Driving today has become more complex as many more cars are on the road. When seniors started to drive, turnpikes and expressways were non-existent. After observing the avoidable accidents seniors were having, and realizing how their ranks were exploding, I decided to write "The Senior Driver's Survival Guide" – subtitled What You Must Know to Protect Your Driving Privileges. Its contents can enable older drivers to drive with a more acute awareness and help them to be better drivers in their "Golden" years. It is an important book which has the power to change and save lives.

Boat racing is fun, and here's a guide that describes ways to improve the driver's safety and increase the enjoyment. Aimed primarily at the novice driver, it may also be considered a refresher for the more experienced driver. A legacy of numerous driver's experiences have been boiled down to simple do's and don'ts. This guide draws attention to the "decision chain," which affects the probability of a racing incident occurring, and emphasizes that attention to these decisions early on tends to minimize the risks later. Fundamental information includes facts about personal equipment, the cockpit environment, defensive driving, the anti-doping policy, and other topics. A concerted, consistent practice of adhering to these suggestions not only lowers the risk of injury but also improves performance.

This publication is the 7th edition of the official guide to preparing for the passenger carrying vehicle (PCV) test, and contains detailed professional guidance for the safe driving of buses and coaches. It is compiled by the Driving Standards Agency and sets out guidance on the official PCV syllabus and practical test requirements, as well as on driving techniques for different vehicles and conditions. It provides a structured training approach to learning how to drive a bus or coach safely, including the professional attitude and skills required, information on EC and UK legal requirements, dealing with emergencies, eco-safe driving and dealing with traffic congestion, safety checks and minimum test vehicle requirements.
