Commerce Control List - Removal of Certain Nuclear Nonproliferation Column 2 Controls (US Bureau of Industry and Security Regulation) (BIS) (2018 Edition) The Law Library presents the complete text of the Commerce Control List - Removal of Certain Nuclear Nonproliferation Column 2 Controls (US Bureau of Industry and Security Regulation) (BIS) (2018 Edition). Updated as of May 29, 2018 The Bureau of Industry and Security (BIS) publishes this final rule to amend the Export Administration Regulations (EAR) to remove nuclear nonproliferation (NP) Column 2 license requirements from certain pressure tubes, pipes, fittings, pipe valves, pumps, numerically controlled machine tools, oscilloscopes, and transient recorders on the Commerce Control List (CCL). These changes are intended to revise the EAR controls on these items by making them more consistent with the export controls of other countries that manufacture these items and that, together with the United States, are participating countries in the Nuclear Suppliers Group (NSG). As a result of the changes made by this rule, some of these items are no longer listed under an Export Control Classification Number (ECCN) on the CCL. However, such items remain subject to the EAR under the designation EAR99. This rule also creates four new ECCNs to maintain anti-terrorism (AT) controls on certain affected commodities and

related "software" and "technology." All items subject to the EAR, regardless of whether they are listed on the CCL, may require a license for reasons described elsewhere in the EAR (e.g., license requirements based on end-user/end-use controls, embargoes, or other special controls). This book contains: - The complete text of the Commerce Control List - Removal of Certain Nuclear Nonproliferation Column 2 Controls (US Bureau of Industry and Security Regulation) (BIS) (2018 Edition) - A table of contents with the page number of each section

Implementation of February 2017 Australia Group (AG) Intersessional Decisions and June 2017 AG Plenary Understandings (US Bureau of Industry and Security Regulation) (BIS) (2018 Edition) The Law Library presents the complete text of the Implementation of February 2017 Australia Group (AG) Intersessional Decisions and June 2017 AG Plenary Understandings (US Bureau of Industry and Security Regulation) (BIS) (2018 Edition). Updated as of May 29, 2018 The Bureau of Industry and Security (BIS) publishes this final rule to amend the Export Administration Regulations (EAR) to implement the recommendations presented at the February 2017 Australia Group (AG) Intersessional Implementation Meeting, and later adopted pursuant to the AG silent approval procedure, and the recommendations made at the June 2017 AG Plenary Implementation Meeting and adopted by the AG Plenary. This rule amends the following Export Control Classification Numbers (ECCNs) on the Commerce Control List (CCL) to reflect the February 2017 Intersessional

Implementation Meeting recommendations that were adopted by the AG: ECCN 2B350 (by adding certain prefabricated repair assemblies, and specially designed components therefor, that are designed for attachment to glass-lined reaction vessels, reactors, storage tanks, containers or receivers controlled by this entry); ECCN 2B351 (by clarifying that toxic gas monitoring equipment includes toxic gas monitors and monitoring systems, as well as their dedicated detecting components); and ECCN 2B352 (by adding certain nucleic acid assemblers and synthesizers to this entry and clarifying how the capacity of certain fermenters should be measured for purposes of determining whether they are controlled under this entry). This book contains: - The complete text of the Implementation of February 2017 Australia Group (AG) Intersessional Decisions and June 2017 AG Plenary Understandings (US Bureau of Industry and Security Regulation) (BIS) (2018 Edition) - A table of contents with the page number of each section
Wassenaar Arrangement 2013 Plenary Agreements Implementation - Commerce Control List, Definitions, and Reports (US Bureau of Industry and Security Regulation) (BIS) (2018 Edition) The Law Library presents the complete text of the Wassenaar Arrangement 2013 Plenary Agreements Implementation - Commerce Control List, Definitions, and Reports (US Bureau of Industry and Security Regulation) (BIS) (2018 Edition). Updated as of May 29, 2018 The Bureau of Industry and Security (BIS) maintains, as part of its Export Administration Regulations (EAR), the Commerce

Control List (CCL), which identifies certain of the items subject to Department of Commerce jurisdiction. This final rule revises the CCL to implement changes made to the Wassenaar Arrangement's List of Dual-Use Goods and Technologies (Wassenaar List) maintained and agreed to by governments participating in the Wassenaar Arrangement on Export Controls for Conventional Arms and Dual-Use Goods and Technologies (Wassenaar Arrangement, or WA) at the December 2013 WA Plenary Meeting (the Plenary). The Wassenaar Arrangement advocates implementation of effective export controls on strategic items with the objective of improving regional and international security and stability. This rule harmonizes the CCL with the changes made to the WA List at the Plenary by revising Export Control Classification Numbers (ECCNs) controlled for national security reasons in each category of the CCL, as well as amending the General Technology Note, WA reporting requirements, and definitions section in the EAR. However, BIS intends to publish a separate rule in September setting forth changes to the CCL resulting from the WA agreements for cybersecurity. These changes agreed to at the Plenary include raising the Adjusted Peak Performance (APP) for digital computers in ECCN 4A003. The President's report for High Performance Computers was sent to Congress on July 1, 2014 to set forth the new APP in accordance with the National Defense Authorization Act (NDAA) for FY1998. This rule also makes corresponding revisions to the de minimis rule, and post shipment verification reporting requirements in the Export Administration Regulations.

This rule also extends the controls on specified fly-by-wire source code software and technology until June 20, 2015, as BIS continues to negotiate for multilateral controls for this software and technology. This rule also revises the license requirements for Mexico on the Commerce Country Chart, because of its recent membership in multiple multilateral export control regimes. In addition, this rule makes changes to the EAR resulting from previous rules issued as part of BIS's export control reform initiative and makes minor editorial corrections to the CCL. This book contains: - The complete text of the Wassenaar Arrangement 2013 Plenary Agreements Implementation - Commerce Control List, Definitions, and Reports (US Bureau of Industry and Security Regulation) (BIS) (2018 Edition) - A table of contents with the page number of each section Provides practical easy-to-implement advice on how to comply with the latest rules and regulations. Shows how to recoup money spent on duty drawbacks. Shows how to get around trade barriers in foreign countries. Shows how to use the internet and other technologies to reduce the cost of exporting. Provides insights into reducing export risk exposures. Export Administration Regulations - Control of Fire Control, Laser, Imaging, and Guidance Equipment President Determines No Longer Warrant Control under United States Munitions List (US Bureau of Industry and Security Regulation) (BIS) (2018 Edition) The Law Library presents the complete text of the Export Administration Regulations - Control of Fire Control, Laser, Imaging, and Guidance Equipment President Determines No Longer Warrant Control under United States Munitions List (US Bureau of Industry and Security Regulation) (BIS) (2018 Edition). Updated as of May 29, 2018 This final rule describes how articles the President

determines no longer warrant control under Category XII (Fire Control, Laser, Imaging, and Guidance Equipment) of the United States Munitions List (USML) of the International Traffic in Arms Regulations (ITAR) will be controlled under the Commerce Control List (CCL) of the Export Administration Regulations (EAR) by amending Export Control Classification Number (ECCN) 7A611 and creating new "600 series" ECCNs 7B611, 7D611, and 7E611. In addition, for certain dual-use infrared detection items, this final rule expands controls for certain software and technology, eliminates the use of some license exceptions, revises licensing policy, and expands license requirements for certain transactions involving military end users or foreign military commodities. This final rule also harmonizes provisions within the EAR by revising controls related to certain quartz rate sensors. This book contains: - The complete text of the Export Administration Regulations - Control of Fire Control, Laser, Imaging, and Guidance Equipment President Determines No Longer Warrant Control under United States Munitions List (US Bureau of Industry and Security Regulation) (BIS) (2018 Edition) - A table of contents with the page number of each section

This innovative textbook introduces the legal concepts, regimes and actors that regulate international business transactions. The book guides readers through the major aspects of international business law using state-of-the-art teaching techniques and offers comprehensive coverage on key treaties, legal aspects of international commerce and the regulation of global trade and investment.

For companies in and around the telecommunications field, the past few years have been a time of extraordinary change-technologically and legally. The enacting of the Telecommunications Act of 1996 and the development of international trade agreements have fundamentally changed the environment in which your business operates, creating risks, responsibilities, and opportunities that were not there before. Until now, you'd have had a hard time finding a serious business book that offered any more than a cursory glance at this transformed world. But at last there's a resource you can depend on for in-depth analysis and sound advice. Written in easy-to-understand language, Telecommunications Law in the Internet Age systematically examines the complex interrelationships of new laws, new technologies, and new business practices, and equips you with the practical understanding you need to run your enterprise optimally within today's legal boundaries. * Offers authoritative coverage from a lawyer and telecommunications authority who has been working in the field for over three decades. * Examines telecommunications law in the U.S., at both the federal and state level. * Presents an unparalleled source of information on international trade regulations and their effects on the industry. * Covers the modern telecommunications issues with which most companies are grappling: wireless communication, e-commerce, satellite systems, privacy and encryption, Internet taxation, export controls, intellectual property, spamming, pornography, Internet telephony, extranets, and more. * Provides guidelines

for preventing inadvertent violations of telecommunications law. * Offers guidance on fending off legal and illegal attacks by hackers, competitors, and foreign governments. * Helps you do more than understand and obey the law: helps you thrive within it.

Revisions to Export Administration Regulations - Export Control Classification Number 0Y521 Series, Items Not Elsewhere Listed on Commerce Control List (US Bureau of Industry and Security Regulation) (BIS) (2018 Edition) The Law Library presents the complete text of the Revisions to Export Administration Regulations - Export Control Classification Number 0Y521 Series, Items Not Elsewhere Listed on Commerce Control List (US Bureau of Industry and Security Regulation) (BIS) (2018 Edition). Updated as of May 29, 2018 The Bureau of Industry and Security (BIS) publishes this final rule, which amends the Export Administration Regulations (EAR) by establishing a new Export Control Classification Number (ECCN) series, 0Y521, on the Commerce Control List (CCL) and makes corresponding changes to the EAR. The ECCN 0Y521 series will be used for items that warrant control on the CCL but are not yet identified in an existing ECCN. As BIS explained in the proposed rule issued on July 15, 2011 (76 FR 41958), this new temporary holding classification is equivalent to United States Munitions List (USML) Category XXI (Miscellaneous Articles), but with a limitation that while an item is temporarily classified under ECCN 0Y521, the U.S. Government works to adopt a control through the relevant multilateral regime(s); to determine an appropriate longer-term control over the item; or determines that the item does not

warrant control on the CCL. Items will be added to the 0Y521 ECCNs by the Department of Commerce, with the concurrence of the Departments of Defense and State, when it identifies an item that should be controlled because it provides a significant military or intelligence advantage to the United States or because foreign policy reasons justify such control. This book contains: - The complete text of the Revisions to Export Administration Regulations - Export Control Classification Number 0Y521 Series, Items Not Elsewhere Listed on Commerce Control List (US Bureau of Industry and Security Regulation) (BIS) (2018 Edition) - A table of contents with the page number of each section

SAP Global Trade Services (GTS) helps companies maximize supply chain performance and reduces the overall cost and risk of global trade by ensuring regulatory compliance, accelerating trade activity, and enabling trade compliance automation. The Practical Guide to SAP GTS helps the user navigate the system, while offering compliance insight to maximize their return on investment. Dive into difficult-to-navigate menus and review available functionality. Using screenshots and detailed instructions, readers will obtain best practices for meeting and exceeding compliance standards. Includes suggested audit plans to sustain long term compliance. The book is current to version 10.1 and explores version 11.0 and its new features. This book offers: - Tips and tricks for leveraging SAP GTS to automate trade compliance - Walk step by step through business processes - Overview of regulatory requirements and

compliance suggestions - Review of Version 11.0 with screenshots

The Export Control and Embargo Handbook, Third Edition is a comprehensive examination of export administration regulations. While most currently available titles covering export control and embargo law carry a broader international focus, U.S. regulations are the central topic of this book. The Export Control and Embargo Handbook provides the very latest information on the embargo, transaction, and currency controls administered by the Commerce, State, Energy, and Treasury Departments, as well as the Nuclear Regulatory Commission. This fully updated third edition is useful for individuals involved in issues surrounding both the exporting from the U.S. and re-exporting U.S.-origin goods and technology, as well as for transactions involving embargoed countries and their products. Offering a detailed analysis of licensing requirements and exceptions from a well-known expert in the field, the book also provides convenient access to the relevant excerpts from the Export Administration Regulations (EAR) and the International Traffic in Arms Regulations (ITAR). Blending information with practical application, Eric L. Hirschorn's in-depth analysis of the key U.S. export restrictions on 'dual use' goods, software and technology, defense articles, technology and services, and nuclear equipment and technology, along with the rules governing dealings with embargoed countries, make this an invaluable asset for legal practitioners in the export industry. Any lawyer or government official involved in embargo issues can easily access necessary information using the detailed Table of

Contents and thorough index. Law students preparing for a career in trade law will also benefit from the book's accessible style.

Your easy-to-follow primer on the exciting world of import/export With an increased focus on global trade, this new edition of *Import/Export Kit For Dummies* provides entrepreneurs and small- to mid-sized businesses with the critical, entry-point information they need to begin exporting their products around the world—as well as importing goods to sell. Inside, you'll find the most up-to-date information on trade regulations, where to turn for additional guidance on seamlessly navigating the dreaded red tape, and much more. With significant changes in technology, expanding economics, and international trade agreements, the global marketplace continues to grow and change rapidly. In fact, companies that do business internationally are proven to grow faster and fail less often than companies that don't. This authoritative reference is packed with everything you need to get started, so why not get in on the game while the going is good? Gets you up to speed on the lingo of international business Shows you how to follow guidelines for developing a successful business and marketing plan Helps you understand distributor and agent agreement outlines Offers unprecedented insight on pinpointing the right markets for your import/export business Importing and exporting goods is a valuable way to expand your business and take part in the global economy, and this hands-on, friendly guide shows you how.

Export Administration Regulations - Revisions to the Export Administration

Regulations Based on the 2016 Missile Technology Control Regime Plenary Agreements (US Bureau of Industry and Security Regulation) (BIS) (2018 Edition) The Law Library presents the complete text of the Export Administration Regulations - Revisions to the Export Administration Regulations Based on the 2016 Missile Technology Control Regime Plenary Agreements (US Bureau of Industry and Security Regulation) (BIS) (2018 Edition). Updated as of May 29, 2018 The Bureau of Industry and Security (BIS) is amending the Export Administration Regulations (EAR) to reflect changes to the Missile Technology Control Regime (MTCR) Annex that were agreed to by MTCR member countries at the October 2016 Plenary in Busan, South Korea, and the March 2016 Technical Experts Meeting (TEM) in Luxembourg City, Luxembourg. This final rule revises thirteen Export Control Classification Numbers (ECCNs), adds one ECCN, revises two EAR defined terms (including making other EAR conforming changes for the use of these two terms) and makes conforming EAR changes where needed to implement the changes that were agreed to at the meetings and to better align the missile technology (MT) controls on the Commerce Control List (CCL) with the MTCR Annex. This book contains: - The complete text of the Export Administration Regulations - Revisions to the Export Administration Regulations Based on the 2016 Missile Technology Control Regime Plenary

Agreements (US Bureau of Industry and Security Regulation) (BIS) (2018 Edition) - A table of contents with the page number of each section

Whether a company operates global facilities or just imports/exports goods to the United States, personnel and advisors must understand regulatory requirements. Most companies that ship or receive goods internationally have developed MCS that address regulatory requirements; however, these typically are labor intensive, independent of other company systems, adequately address only their primary location, and are not updated in a timely manner. Supply chain logistics is complicated, and this book details how to avoid security holds on shipments and gives sound advice on how to cope if another "9/11" occurs. The book provides easy to understand guidance to shipping/receiving personnel, safety inspectors, transportation and logistics managers on the movement of hazardous cargo from one location to another ensuring compliance to the maze of regulatory requirements.
