

Eight Pillars Of Prosperity

It is popularly supposed that a greater prosperity for individuals or nations can only come through a political and social reconstruction. This cannot be true apart from the practice of the moral virtues in the individuals that comprise a nation. Better laws and social conditions will always follow a higher realization of morality among the individuals of a community, but no legal enactment can give prosperity to, nay it cannot prevent the ruin of, a man or a nation that has become lax and decadent in the pursuit and practice of virtue. The moral virtues are the foundation and support of prosperity as they are the soul of greatness. They endure for ever, and all the works of man which endure are built upon them. Without them there is neither strength, stability, nor substantial reality, but only ephemeral dreams. To find moral principles is to have found prosperity, greatness, truth, and is therefore to be strong, valiant, joyful and free. -- James Allen

Inner Prosperity is a dynamic law that has immediate and astounding results. What you have in your life today, was inside you at one point in time. This may sound strange but it is true. You are pregnant today with what will be in your life tomorrow, your future. You will live up to what is on the inside of you. Here is an example: Your boss may think you are worth \$10 an hour. Or maybe your company says you are worth \$30k a year. So you mold your choices, thoughts, and feelings around, What Others Think you are worth. The dynamic law of inner prosperity means you decide what your value is. When you decide your value, everything and everyone around

you will change. Sounds funny, but people will say to you, you are different, what has happened? Your value begins to increase, at work at home... In this international best-selling book, Allen explains how success and prosperity, in order to last, must be built on a solid foundation. In laying the groundwork for a life of wealth and prosperity, Allen describes the eight key pillars that lift prosperous people to higher callings and greater successes. For true and lasting success, often on a larger-than-life scale, Allen teaches that we must build our lives and success on a platform of integrity. To that end, he counsels on how to "rise above the foolish who rise and fall on the flux of selfish desires," and shows how to construct your character, raise the house of your life, build your temple of prosperity.

Men speak of "building up a business," and, indeed, a business is as much a building as is a brick house or a stone church, albeit the process of building is a mental one. Prosperity, like a house, is a roof over a man's head, affording him protection and comfort. A roof presupposes a support, and a support necessitates a foundation. The roof of prosperity, then, is supported by the following eight pillars which are cemented in a foundation of moral consistency: -

1. Energy
2. Economy
3. Integrity
4. System
5. Sympathy
6. Sincerity
7. Impartiality
8. Self-reliance
