Reaching back more than 150 years, this collection invites students, families, alumni, faculty, and staff of the University of Minnesota to experience their history firsthand through stories of the glorious moments and awe-inspiring missteps that have made the U of M. Photos. The epic of Son-Jara (also known as Sunjata or Sundiata) celebrates the exploits of the legendary founder of the Empire of Old Mali and is still widely recited among Mandekan-speaking peoples of West Africa today. As performed by griots, or professional bards, it embodies deeply rooted aspects of Mande cosmology and worldview. This edition of the epic presents the full, linear Mandekan text side by side with John William Johnson's important English translation. Fully annotated and explained, the text provides historical and contextual frameworks for understanding this African epic. A complete recitation of the epic by Jeli fa-Digi Sisòkò recorded in the town of Kita, Mali, is sold separately. This powerful text and inspiring performance show why the epic of Son-Jara has taken its place among the world's greatest epics.

This book focuses on a unique group of women who became an integral part of thousands of Chinese and expatriate homes in Singapore, Malaysia, and Hong Kong from the 1930s to the 1970s--the amahs who hailed from the Pearl River Delta of Guangdong Province in China.

Single, illiterate, and of peasant background, the amah served as nanny, cook, parlormaid, housemaid, and laundress, providing a standard of service and displaying a degree of loyalty unparalleled either before or since. Gaw discusses the traditional role and inferior status of women in China, the unique customs and work practices of the Pearl River Delta which allowed the women there to obtain a degree of independence unknown in other parts of China, and the reasons for the mass migration of Cantonese women in the 1930s.

In 1279, off China's southeast coast, Khubilai Khan routed the Song navy and completed the grand dream of his grandfather, Genghis Khan--the conquest of China. The Grand Khan now ruled the largest empire the world had ever seen, stretching from the China Sea to the plains of Hungary. Having also inadvertently inherited the world's largest navy--more than seven hundred ships--the Mongols began audacious attacks on Japan, Vietnam and Java. Yet within fifteen years, Khubilai had squandered his massive fleet, and the Mongols were a spent maritime force. Considered for centuries to be little more than legend, the story of the Mongols' fleet has finally been confirmed. Renowned archaeologist and historian James P. Delgado has dived with the Japanese team studying the remains of the Khan's lost fleet at Takashima. Using original sources as diverse as actual sunken ships, land excavations, temple inscriptions, hand-painted scrolls and historical and literary records from China, Japan and Vietnam, Delgado takes the reader on an exciting history of Khubilai Khan's great Mongol navy, whose rise and fall presaged the great fleets of the fifteenth-century Ming Dynasty, made famous in the best-seller 1421.

An epic detailing the Great War of the Ring, a struggle between good and evil in Middle-Earth, in which the tiny Hobbits play a key role.

Loyal to the Land is a sweeping history of one of the United States' largest working ranches, the Big Island of Hawaii's Parker Ranch. Dr. Bergin chronicles the ranch from its establishment on two acres purchased for ten dollars by John Palmer Parker to the years following World War II and the beginning of a new era of family ranch management under Parker's grandson, Richard Smart. In this wide-ranging and insightful book, illustrated with more than 250 historical photos, Dr. Bergin first discusses the important Hispanic vaquero roots of ranching in Hawaii. He then relates the histories of the five foundation families, providing rich and detailed information on key members who contributed to the Ranch's success. The balance of the book examines every aspect of Parker Ranch development: management, labor, improvements and diversification of livestock, veterinary and animal care programs, and the Ranch's role and influence on the Big Island and the state.

A nostalgic memoir offers a firsthand account of Cuba's first all-female band, their international success in the late 1930s, their continued performances following the revolution, and their unique blend of jazz, mambo, rumba, cha-cha, and other musical forms that made them so popular at home and abroad.

"Sidney Patrick Grauman (1879-1950) was the dominant movie palace impresario west of Chicago in the 1920s and one of the most flamboyantly successful theatrical talents ever associated with films. His story is the story of early motion pictures in Hollywood, a colorful and fascinating tale that needed to be told. Charles Beardsley has captured the narrative of Grauman's life using the words of the press, the accounts of friends, and analysis of his works. It is indeed a comprehensive and enlightening effort. Gentle and generous, soft-spoken and mild-mannered, possessing a wicked sense of humor and a brilliant imagination, Grauman had a genius for translating his personal visions into stage spectacles of awesome proportions. He was responsible for the design and construction of several famous and highly sophisticated Los Angeles theaters that bore his name over their marquees: Grauman's Million Dollar, Grauman's Egyptian, Grauman's Metropolitan, and Grauman's Chinese. He is credited with creation of the movie prologue, a type of stage show that he developed to precede the first-run silent films he exhibited. Many of the stage features that Grauman introduced have since become standard technical theater procedure and as such are in wide use today. In addition to being an industry giant, Sid Grauman was a friendly, generous, much-loved individual who adored practical jokes and enjoyed playing them upon such people as Charlie Chaplin. An affable man, Grauman was a

gregarious personality who numbered among his associates the Hollywood greats: Mary Pickford, Douglas Fairbanks, Rudolph Valentino, Gloria Swanson, Dorothy and Lillian Gish, William S. Hart, Mabel Normand, Marion Davies, Cecil B. DeMille, D.W. Griffith, and Fred Niblo. Within these pages are a wealth of anecdotes about these people and many others who were prominent in developing silent films into the most popular universal entertainment medium of its time. Grauman's sumptuous movie palaces, elaborate and innovative staging, and keen eye for talent and publicity made him a legend in his lifetime, a man who is still remembered with awe and respect by all who saw his work in its prime. While this book deals extensively with the details of Grauman's management of his various houses, it is no mere documentary. Nor is it a chronological biography, since it explains Grauman's career and major professional achievements. Instead, it is a collection of narrative flashes, accurately reproducing the spirit of Grauman's life and times, that pick out an event in one decade to describe and illuminate an event in another. Grauman obtained his first taste of show business working with his father at Dawson, Alaska, during the 1898 Yukon Gold Rush and went on to become "Mr. Show Business" of Hollywood. This affectionate memoir covers Grauman's early years, his San Francisco theaters and his many discoveries, including Fatty Arbuckle, Al

past decade. From the return of world-threatening dragons to an ongoing civil war, the province of Skyrim is rich with adventure, lore, magic, history, and stunning vistas. Beyond its visual spectacle alone, Skyrim is an exemplary gameworld that reproduces out-of-game realities, controversies, and histories for its players. Being Dragonborn, then, comes to signify a host of ethical and ideological choices for the player, both inside and outside the gameworld. These essays show how playing Skyrim, in many ways, is akin to "playing" 21st century America with its various crises, conflicts, divisions, and inequalities. Topics covered include racial inequality and white supremacy, gender construction and misogyny, the politics of modding, rhetorics of gameplay, and narrative features.

The rich legends spun between 1000 and 1250 and by the monks of southwestern France to explain the origins of their communities are the subject of this provocative study. Amy G. Remensnyder explores the monastic foundation legends in all their variety - including forged charters, hagiographic texts, chansons de geste, architecture, and sculpture - to show how such imaginative remembering of the past worked to affirm the liberty and identity of the abbeys in the present. At the center of the legends stand three kings whom the monks favored as founders: Clovis, Pippin the Short, and, above all, Charlemagne. Remensnyder reveals the many implications of this legendary affection for kings, a startling predilection on the part of monks living in a region where actual rulers hardly ventured during the period. A major contribution to the cultural history of images of French kingship, the book demonstrates how communities far from effective royal power could create and manipulate royal images, using them to serve their own interests. For Remensnyder also situates these legendary images in the web of local social relations from which they emerged. She shows that when threats to

their liberty and identity arose, the monasteries could shield themselves by invoking their legendary founders. The book illuminates the world of medieval southern France, and its relation to the French kings. It will interest all those who seek to understand the processes by which a community imaginatively remembers its past so that it becomes the basis for its identity in the present. It also demonstrates that texts often discounted as "fiction" can tell us as much as those classified as "fact".
