This teacher's guide accompanies a textbook written for the co-ordinated science syllabuses under the National Curriculum, and for Science: Physics. There are companion volumes on biology and chemistry. Topics are differentiated into core material for Double/Single Science and extension material for Science: Physics. These topics are linked to related ones in the companion volumes, but the links are optional, allowing the physics book to stand alone. The teacher's guide includes a link to the Programme of Study for Sc4 (and part of Sc3) and an analysis of the separate science syllabuses of all the main boards.
