Separated by an almost unimaginable gulf in space, Princess Kelsey Bandar and Admiral Jared Mertz must fight to stop the diabolical artificial intelligences that destroyed the Old Terran Empire. Though unable to communicate with one another, they must overcome terrible odds and defeat foes determined to kill or enslave them. They cannot allow themselves to fail. Yet time is running out. Unless both quickly make their way to Terra, the computers win and humanity loses.

After a terrible war almost extinguished humanity, the New Terran Empire rises from its own ashes. Sent on an exploratory mission to the dead worlds of the Old Empire, Commander Jared Mertz sets off into the unknown. Only the Old Empire isn't quite dead after all. Evil lurks in the dark. With everything he holds dear at stake, Jared must fight like never before. Victory means life. Defeat means death. Or worse.

They thought they could force her to conform. They were wrong. Inside a dystopian school in the Singularity, the twelve-year-old girl known as One Twenty-Four struggles to survive. Failure to conform means death at the hands of her teacher. Assuming her clone sisters don't kill her first. The Terran Empire has tasked Imperial Marine Lieutenant Grace Tolliver to lead her platoon into the Singularity as a privateer. Her mission: to tear a great bloody strip off their enemies and to take anything that isn't nailed down. The collision of this unlikely pair will change the humanity in ways that no

and worse.

The only magic left comes from consuming the dead. Long ago, Ritakhou was a flourishing empire filled with light, life, and magic. Then came the Schism. Now the kingdom is called Rimbaku and is a pale shadow of its former self, a land stripped of its glory and its power. The only magic left comes from *aitachi*, the Relicant Touch, the ability to absorb skills and memories by consuming the bones of the dead. Throughout the land, status and success are based on one's *aitachi* and the *aishone* or relic bones one can attain, and the so-called Relicant Empire has grown stale and stagnant as a result. The young emperor, Hibikitsu, recognizes this but feels powerless to change centuries of habit and reliance. His finest warrior, Misataki Shizumi, also feels stifled despite her prowess; she is a commoner and can never rise above the rank of sergeant in the elite Honjofu, even though her commanding officer is a nobleborn fool.

Seikoku, a *koshitsu* or graverobber, wrestles with the horror of what she does and the need to survive, while Chimehara, a beggar turned killer, has no compunctions against using every weapon at her disposal to attain her goals. And all the while Rimbaku's enemies are circling, testing the nation's borders. They know the empire is weak, and are determined to push it over the edge and then strip its bones as it has done to its dead for so long. Meanwhile, the brothers Kagiri and Noniki set out from their small village with a handful of *aishone* and a great deal of hope. They soon find the world a bigger, darker place than they imagined, and are forced to accept a dangerous proposal, one that will put both of them at risk for not only their lives but their very souls, but that may change the Relicant Empire forever.

Dragons have been gone from the world for centuries, though their power remains. A war fought a thousand years ago removed the destructive threat of dragons, allowing fire mages to use the magic stored within their bones to protect the empire for a millennium. The empire has known a fragile peace, held together by that ancient magic. Fes has always longed for stability. Raised within the slums of the empire, taught to steal and hurt others to make his way, when he
