Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever. Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

BEFORE THE INCEPTION of charitable organizations for impoverished people globally, the Mennonite Central Committee was an early innovator for overseas development. Pax (Latin meaning peace) was one of its programs designed specifically for volunteer single men of draft age. This is a story of one man's journey as heavy equipment operator with training in Texas and Peru, then to Paraguay building roads. In a unit of five, he worked to connect Paraguay's most isolated Caucasian settlements to the outside world. Along the way, he experienced high-flying adventures, met curious Paraguayan locals and learned some life lessons lost to many young men. Part memoir and part history, this is an account about the power of faith, the virtue in productive work and the rewarding consequences of dedication to the ideal of serving humankind.
