This book explores heterogeneity in the Indian academic setting. Presenting a study on the performance of Bachelor of Engineering students from various parts of the county, it analyzes the subjects' language skills on the basis of selected sociolinguistic variables and examines the possible role/impact of using multiple languages in the communicative setting described. In turn, the book investigates the differences between the way language is viewed in the Orient and in the Western world, and how, despite their differences, these views lead to similar language teaching methods in both worlds. It also highlights the limitations of current theories and frameworks in terms of accommodating modern methods of assessing language skills. Addressing socio-pragmatic issues in terms of English proficiency and language assessment, it is the first book to offer such a focused and detailed discussion of these varied but related issues, making it a valuable resource for all scholars and researchers working in the areas of socio-pragmatics, language assessment, and intercultural communication.

Basic principles of effective writing. Paragraph development. Essay development. A quick guide to research.

advantage of documenting U.S. national data on the gains and losses in the efforts to advance gender equality through policies such as Title IX, the landmark federal law prohibiting sex discrimination in education, equity programs and research. Key features include: Expertise – Like its predecessor, over 200 expert authors and reviewers provide accurate, consensus, research-based information on the nature of gender equity challenges and what is needed to meet them at all levels of education. Content Area Focus – The analysis of gender equity within specific curriculum areas has been expanded from 6 to 10 chapters including mathematics, science, and engineering. Global/Diversity Focus – Global gender equity is addressed in a separate chapter as well as in numerous other chapters. The expanded section on gender equity strategies for diverse populations contains seven chapters on African Americans, Latina/os, Asian and Pacific Island Americans, American Indians, gifted students, students with disabilities, and lesbian, gay, bisexual, and transgender students. Action Oriented – All chapters contain practical recommendations for making education activities and outcomes more gender equitable. A final chapter consolidates individual chapter recommendations for educators, policymakers, and researchers to achieve gender equity in and through education. New Material – Expanded from 25 to 31 chapters, this new edition includes: *more emphasis on male gender equity and on sexuality issues; *special within population gender equity challenges (race, ability and disability, etc); *coeducation and single sex education; *increased use of rigorous research strategies such as meta-analysis showing more sex similarities and fewer sex differences and of evaluations of implementation programs; *technology and gender equity is now treated in three chapters; *women's and gender studies; *communication skills relating to English, bilingual, and foreign language learning; and *history and implementation of Title IX and other federal and state policies. Since there is so much misleading information about gender equity and education, this Handbook will be essential for anyone who wants accurate, research-based information on controversial gender equity issues—journalists, policy makers, teachers, Title IX coordinators, equity trainers, women's and gender study faculty, students, and parents.

SUNup! Engaging REAL-WORLD tasks for eighth graders is an integrated skills book which has been developed based on the Costa Rican English new program starting in 2017 for seventh graders. The book is ideal to study over an academic year. Students practice the four skills through communicative activities that follow the Task Based Approach in four stages. To achieve the language competence, this book is divided into six scenarios, each scenario is divided into four themes and an extension section called review and expand. Each theme organizes the tasks into two main components: oral and written comprehension, and oral and written production. The Action Oriented Approach states that students are social agents who use the target language to perform specific actions in real life contexts. To be coherent with this basic principle, the eighth grade English book includes the use of digital technology in the development of mini-projects and critical thinking by letting students make decisions through problem-solving situations. SUNup! Engaging REAL-WORLD tasks for eighth graders has been designed to consolidate the A2 band, based on the Common European Framework. In the extension activities, students are expected to

reinforce grammar and sentence frames as well as reading comprehension. At the end of each scenario, students are expected to check their progress which derive from the linguistic competences "Learner can ..." using a Can-do check list. A flexible classroom arrangement is recommended so that students can have opportunities to walk around and work in pairs or individually, which will provide them with the opportunity to develop learners' meta-cognitive, meta-affective, and meta-social strategies in an organized, purposeful and scaffolded learning experience. Besides the students' book, teachers have access to the audio- material and the teachers' guide. The F PRIMA Publishing house focuses on supporting English Teachers in the process of understanding and implementing the new English syllabus approved by the Consejo Superior de Educación in the year 2016. Thank you for your commitment to the goal of transforming English Classrooms across Costa Rica.

The adoption of English as the language of study and scholarship is becoming increasingly common among universities across Asia. But does this adoption of the English language not also mean the adoption of Western approaches to scholarship and knowledge? This most timely and important book critically examines how EAP practitioners can negotiate between Western and Asian academic practices and approaches to knowledge and scholarship and is essential reading for anyone involved in international education. [Andy Kirkpatrick, Professor in Linguistics, Griffith University]
