course appealing and exciting. The series provides stimulating topics, international perspectives and relevant examples to encourage students to explore and improve their use of English. Answers to both the Student's Book and the Workbook are available in the Teacher's Book. Audio CD for listening activities included in Teacher's Book.

The only resources designed for the Cambridge IGCSE® Chinese as a Second Language syllabus (0523) for first examination from 2020. With topics ranging from festivals to travel and technology, each unit is based around one authentic Mandarin Chinese text and audio recording. This mix of content helps students engage with the subject and develop their ability to handle real language materials. Audio recordings (available online) help students practise the new listening aspect of the course, while 'Culture boxes' provide interesting insights into Chinese culture. Students will work collaboratively with others - sometimes in pairs and other times in groups - to develop language skills through communication. Answers to the coursebook questions are in the digital teacher's resource.

the Cambridge IGCSE® Mandarin as a Foreign Language course.

"The editors of the SAGE Handbook of Research in International Education have brought together an impressive array of scholars whose cutting edge research addresses the growing field of international education, from the experiences of K-12 schools around the world to the field of teacher education. This book raises important questions and should be read by a broad audience' - Kenneth Cushner, Executive Director of International Affairs and Professor of Education, Kent State University 'The editors of this admirable handbook have set out to produce a report on international education. Their consummate success in doing so gives those of us working in the field a new and invaluable resource. The editors may be academics but this is a book largely written by, about and for those whose job it is to teach "internationally". No-one working in international education will fail to be provoked, challenged or inspired by the compelling arguments advanced within this authoritative volume' - Peter MacKenzie, Principal, Hiroshima International School 'The book is well organized in carefully integrated sections and chapters and the references alone are a valuable bibliographical tool. An indispensable work highly recommended for education reference collections and the libraries of individual researchers' - J.B.Thomas, Emeritus Professor of Educational Studies, Loughborough University Interest in the field of international education has never been more intense than at present. There are a rapidly increasing number of schools worldwide set up specifically to meet the demands of those parents who, through their own professional activities, wish to have their sons and daughters educated in schools that offer programmes based on international values. Such schools have embraced the promotion of international education as one of their major goals and, consequently, an increasing number of

organisations currently offer curricula that claim to be international in nature. Such global movements have created a parallel increase in the incorporation of forms of international education within national school systems throughout the world. This has resulted in wider forms of collaboration between schools in the public and private sectors, nationally and internationally, generating a much more substantial base of professional experience in the implementation of schemes for international education than had previously existed. This book analyses the origins, contributions and interpretations of international education. The authors identify approaches to research that will progress our knowledge and understanding of the field, and extend and even redraw it, on the basis of the research evidence presented. Content includes: - A historical overview of the ways in which the term "international education" has been interpreted - The theoretical interpretation of international education in its current context - International education in practice: exploration of the issues in terms of students, curricula, pedagogies and organising formal institutions - Conceptual challenges for international education in the future This handbook is an essential resource for those who are involved in the practice and academic study of international education. It will be of particular interest to researchers and teachers in universities, governmental and private curriculum development agencies, examination authorities, administrators and teachers in schools. 'This volume is another valuable SAGE contribution to the expanding literature on international education. Not all handbooks are described as essential reading but this one will be, and will become an indispensable work of reference highly recommended for education libraries (both academic and governmental) and for the bookshelves of individual researchers and all involved in international education...the three editors and their fellow authors can take a collective pride in

customers, products, goods, services, employee turnover, loss of productivity, absenteeism, sabotage, injury and accidents, sick leave and so on. The main purpose of this study is to identify the effects of poor communication on organizational performance and to find out the strategies for improving on communication at the workplace so that employee motivation can be enhanced. The specific objectives of the study included finding out the factors, levels, types and effects of poor communication at the workplace. The study was guided by the writings of Elashmawi and Harris, (1993) who have argued that a fuller understanding of organizations is a vital ingredient at every forward step of the career process, and that communication is a primary element for understanding how organizations function and how members of the organization should, even must, behave in organizations if they are to advance their careers. The study was carried out at the Kenya Seed Company Limited. A sample of 300 respondents was involved in the research and they were picked through random stratified sampling save for seven heads of departments who were purposefully selected by virtue of their positions and possession of key information. This sample was deemed representative enough as the total number of workers is 3000. The research used both questionnaires and interviews schedules. Data was analyzed and presented using descriptive statistics methods. Excel was used to come up with this analysis. To analyze and determine the magnitude of poor communication a jian·Ao si ding wen ji shi you ao man yu pian jian nuo sang jue si quan dao li zhi yu qing gan ai ma man si fei er de zhuang yuan zu cheng.Zhei xie xiao shuo yi qi li xing de guang mang zhao chu le gan shang,Ge te xiao shuo de jiao rou zao zuo, shi zhi shi qu rong shen zhi di, cong er wei ying guo 19 shi ji 30 nian dai xian

The only resources designed for the Cambridge IGCSE® Chinese as a First Language syllabus (0509). Take an active approach to first language Chinese with activities that reinforce language learning and expand vocabulary and idioms. The coursebook focuses on building students' reading and writing skills through real Mandarin Chinese texts about different topics, such as Chinese philosophers and sport. It also provides opportunities to develop essential life skills including creative thinking, communication and problem solving. At the end of the course, students should be able to critically analyse literary work written in Chinese and demonstrate a strong writing ability. Suggested answers to the coursebook questions are in the teacher's book.

The only endorsed resources for the Cambridge IGCSE® Enterprise (0454) syllabus. Bringing the world of business into the classroom, this coursebook

helps students identify, plan, implement and evaluate their enterprise projects. The book has four sections based around the stages of the project with theory integrated throughout. This helps students relate their practical Enterprise project with the academic principles of business. With a foreword from the specialists at Cambridge Judge Business School, this coursebook helps students appreciate Enterprise skills in the world around them and talk to business people in their communities. Suggested answers to the exam-style questions are in the teacher's resource.

Invasive plants have an impact on global biodiversity and ecosystem function, and their management is a complex task. The aim of this book is to discuss fundamental questions of invasion ecology, such as why particular communities become more invasible than others, what the mechanisms of exclusion of native species by invaders are, and whether invasion can be predicted. In addition, agricultural practices influencing invasion, the environmental and economic costs of invasion as well as possible management strategies are discussed. Readers will get a unique perspective on invasion ecology through employing general principles of ecology to plant invasions.

A flexible suite of resources providing full coverage of the Cambridge IGCSE® Mandarin as a Foreign Language syllabus (0547) for first examination in 2015. With a
