From the New York Times bestselling author of *Escape From Camp 14*, Blaine Harden tells the riveting story of Kim Il Sung's rise to power, and the brave North Korean fighter pilot who escaped the prison state and delivered the first MiG-15 into American hands. In *The Great Leader and the Fighter Pilot*, New York Times bestselling author Blaine Harden tells the riveting story of how Kim Il Sung grabbed power and plunged his country into war against the United States while the youngest fighter pilot in his air force was playing a high-risk game of deception—and escape. As Kim ascended from Soviet puppet to godlike ruler, No Kum Sok noisily pretended to love his Great Leader. That is, until he swiped a Soviet MiG-15 and delivered it to the Americans, not knowing they were offering a \$100,000 bounty for the warplane (the equivalent of nearly one million dollars today). The theft—just weeks after the Korean War ended in July 1953—electrified the world and incited Kim's bloody vengeance. During the Korean War the United States brutally carpet bombed the North, killing hundreds of thousands of civilians and giving the Kim dynasty, as Harden reveals, the fact-based narrative it would use to this day to sell paranoia and hatred of Americans. Drawing on documents from Chinese and Russian archives about the role of Mao and Stalin in Kim's

shadowy rise, as well as from never-before-released U.S. intelligence and interrogation files, Harden gives us a heart-pounding escape adventure and an entirely new way to understand the world's longest-lasting totalitarian state.

Policing Literary Theory is an exploration of the complex relationship between literature/literary theory and police/policing.

Donald Nichols was "a one man war", according to his US Air Force commanding general. He won the Distinguished Service Cross, along with a chest full of medals for valor and initiative in the Korean War. His commanders described Nichols as the bravest, most resourceful and effective spymaster of that forgotten war. But there is far more to Donald Nichols' story than first meets the eye...Donald Nichols was America's Kurtz. A seventh-grade dropout, he created his own black-ops empire, commanding a small army of hand-selected spies, deploying his own makeshift navy, and ruling over it as a clandestine king, with absolute power over life and death. He claimed a "legal license to murder" - and inhabited a world of mass executions and beheadings, as previously unpublished photographs in the book document. Finally, after 11 years, the U.S. military decided to end Nichols's reign. He was secretly sacked and forced to endure months of electroshock in a military hospital in Florida. Nichols told relatives the American government was trying to destroy his memory. King of Spies looks to answer the question of how an uneducated, non-trained, non-experienced man could end up as the number-one US spymaster in South Korea

## Online Library Escape From Camp 14

and why his US commanders let him get away with it for so long.

With a New Foreword The heartwrenching New York Times bestseller about the only known person born inside a North Korean prison camp to have escaped. North Korea's political prison camps have existed twice as long as Stalin's Soviet gulags and twelve times as long as the Nazi concentration camps. No one born and raised in these camps is known to have escaped. No one, that is, except Shin Dong-hyuk. In *Escape From Camp 14*, Blaine Harden unlocks the secrets of the world's most repressive totalitarian state through the story of Shin's shocking imprisonment and his astounding getaway. Shin knew nothing of civilized existence—he saw his mother as a competitor for food, guards raised him to be a snitch, and he witnessed the execution of his mother and brother. The late “Dear Leader” Kim Jong Il was recognized throughout the world, but his country remains sealed as his third son and chosen heir, Kim Jong Eun, consolidates power. Few foreigners are allowed in, and few North Koreans are able to leave. North Korea is hungry, bankrupt, and armed with nuclear weapons. It is also a human rights catastrophe. Between 150,000 and 200,000 people work as slaves in its political prison camps. These camps are clearly visible in satellite photographs, yet North Korea's government denies they exist. Harden's harrowing narrative exposes this hidden dystopia, focusing on an extraordinary young man who came of age inside the highest security prison in the highest security state. *Escape from Camp 14* offers an unequalled inside

account of one of the world's darkest nations. It is a tale of endurance and courage, survival and hope. In this book, experts from the fields of law and philosophy explore the works of Aristotle to illuminate the much-debated and fascinating relationship between emotions and justice. Emotions matter in connection with democracy and equity – they are relevant to the judicial enforcement of rights, legal argumentation, and decision-making processes in legislative bodies and courts. The decisive role that emotions, feelings and passions play in these processes cannot be ignored – not even by those who believe that emotions have no legitimate place in the public sphere. A growing body of literature on these topics recognizes the seminal insights contributed by Aristotle. This book offers a comprehensive analysis of his thinking in this context, as well as proposals for inspiring dialogues between his works and those written by a selection of modern and contemporary thinkers. As such, the book offers a valuable resource for students of law, philosophy, rhetoric, politics, ethics and history, but also for readers interested in the ongoing debate about legal positivism and the relevance of emotions for legal and political life in today's world.

### Children's Fiction

Rights advocacy has become a prominent facet of South Korea's increasingly transnational motion picture output, especially following the 1998 presidential inauguration of Kim Dae-jung, a former political prisoner and victim of human rights abuses who received the Nobel Peace Prize in 2000. Today

## Online Library Escape From Camp 14

Located about 55 miles north of Pyongyang, the labor camp is a complete control district, a no-exit prison where the only sentence is life. Inmates work 12 to 15-hour days in the camp - mining coal, building dams, sewing military uniforms - until they are executed, killed in work-related accidents or die of illness that is usually triggered by hunger. No one born in Camp 14 or in any North Korean political prison camp has escaped. No one except Shin. This is his story.

In popular, legal, and academic discourses, the term "human rights" is now almost always discussed in relation to its opposite: human rights abuses. Syllabi, textbooks, and articles focus largely on victimization and trauma, with scarcely a mention of a positive dimension. Joy, especially, is often discounted and disregarded. William Paul Simmons asserts that there is a time and

place—and necessity—in human rights work for being joyful. Joyful Human Rights leads us to challenge human rights' foundations afresh. Focusing on joy shifts the way we view victims, perpetrators, activists, and martyrs; and mitigates our propensity to express paternalistic or heroic attitudes toward human rights victims. Victims experience joy—indeed, it is often what sustains them and, in many cases, what best facilitates their recovery from trauma. Instead of reducing individuals merely to victim status or the tragedies they have experienced, human rights workers can help harmed individuals reclaim their full humanity, which includes positive emotions such as joy. A joy-centered approach provides new insights into foundational human rights issues such as motivations of perpetrators, trauma and survivorship, the work of social movements and activists, philosophical and historical origins of human rights, and the politicization of human rights. Many concepts rarely discussed in the field play important roles here, including social erotics, clowning, dancing, expressive arts therapy, posttraumatic growth, and the Buddhist terms metta (loving kindness) and mudita (sympathetic joy). Joyful Human Rights provides a new framework—one based upon a more comprehensive understanding of human experiences—for theorizing and practicing a more affirmative and robust notion of human rights.

Early in World War II, thousands of refugees traveled from France to Vichy-controlled Martinique, en route to safer shores in North, Central, and South America. While awaiting transfer, the exiles formed influential ties—with one another and with local black dissidents. As Eric T.

The aim of this project is to research the necessity of international cooperation on Korean unification in legal terms as South Korea's Unification Policy and how issues of the Korean Peninsula have been dealt with in the international framework. Since this is the second year of a five-year project, the conceptual aspect requires clarification in the overall aspect and this requires a multidisciplinary approach. But the main focus remains the legal aspect, international law, in particular. This study assumes that unification will be a gradual process, generally in three stages: (1) inter-Korean cooperation, (2) negotiation for inter-Korean unification (be it North Korea's collapse, or actual inter-Korean negotiation for unification, this stage includes any inter-Korean negotiation for unification and international negotiation formula, such as Six Party Talks, etc.), and (3) post-unification integration. The study begins with the understanding that South Korea needs to be prepared for legal matters potentially arising in these processes. The project this year, in particular, deals with the legal

issues that should be dealt with in the first and second stages. The scope of the papers in this project covers four main areas. The first is time span. The research for this project covers the 19th century to the present and draws future-oriented implications, but the main focus is on current issues. The second is in regard to approaches. The study deals with three main approaches: historical, political, and legal, but for purposes of this project, the main focus is on the legal aspect. The third concerns the issues addressed. These are the nuclear issue, the military issue, inter-Korean cooperation issues, and the human rights issue. Finally, the scope of actors considered includes South and North Korea, neighboring countries (the U.S., China, Japan, and Russia), and international organizations (e.g., UN, WFP, WHO, etc.). The papers included here are organized into three main sections. The first concerns the meaning of Korean unification and the context of international cooperation. Park Jong-Chul provides a general overview of the Park Geun-Hye administration's North Korea and unification policy, referred to as "Trustpolitik," and the trust-building process on the Korean Peninsula, as well as the need for international cooperation. Sue Mi Terry examines the U.S. and China's perspective on the issues laid out above. She explores areas where U.S.-China interests converge and diverge and whether strategic cooperation and coordination between the two nations are possible in the case of Korean unification. The second section presents historical and legal perspectives related to the situation on the Korean peninsula. Charles K. Armstrong's work

on the historical perspective is divided into three sections chronologically: (1) the struggle of 19th Century Korea to become a modern sovereign state and its failure with the advent of colonial rule, (2) war leading to the division of the Korean Peninsula, and (3) the inter-Korean situation based on de facto recognition (as opposed to de jure) as a political entity arising out of the 1972 Joint Communiqué and the “special relationship” from then on. Next, Roh Jeong-Ho provides a legal approach to the question of inter-Korean relations and the debate on unification by dividing the period from 1876 to the present day into five distinct periods and examining the limitations to the legal order and the evolution of world order as they pertain to Korea. Finally, Leon V. Sigal discusses how international law and institutions might improve South Korean security and facilitate inter-Korean reconciliation with special attention to confidence-building in the West Sea. The third section examines in greater detail the legal aspects of Inter-Korean Cooperation and human rights. Regarding human rights, it is important to consider the link between inter-Korean cooperation and human rights. The improvement of human rights and people’s livelihood in North Korea, which is part of the ultimate goal of unification, can be achieved by inter-Korean cooperation. Inter-Korean cooperation leads to inducing change in North Korea, which then logically leads to the improvement of human rights in North Korea. Lee Hyo-Won focuses on the legal matters regarding the establishment of a DMZ World Peace Park. Soung Jea-Hyen looks at the legal matters regarding the internationalization of the Gaeseong

Industrial Complex. Cho Jung-Hyun provides an analysis of the contents and legal implications of the recent outcome of the UN Commission of Inquiry (COI) on Human Rights in the DPRK, such as the meaning of stating “crimes against humanity,” the notion of Responsibility to Protect (R2P) in respect to North Korea, and transitional justice in the possible post-unification stage. Finally, David Hawk tracks North Korean human rights developments in the post-COI period.
