For more than fifty years, Elizabeth Alexandra Mary Windsor -- who became Elizabeth II, Queen of England on February 6, 1952 -- has been loved and loathed, revered and feared, applauded and criticized by her people. Still she endures as a captivating figure in the world's most durable symbol of political authority: the British monarchy. In Monarch, a meticulously detailed portrait of Elizabeth II as both a human being and an institution, bestselling author Robert Lacey brings the queen to life as never before: as baby "Lilibet" learning to wave to a crowd in the Royal Mews; as a child "ardently praying for a brother" so as to avoid her fate; as a young woman falling in love with and marrying her cousin Philip; and as the mother-in-law of the most complicated royal of all, Princess Diana. Updated with new material to reflect the 2002 Golden Jubilee and the passing of the Queen Mum -- and featuring dozens of photographs, a family tree of the Hanoverian-Windsor-Mountbatten families, and a map that charts the location of royal castles -- Monarch is an engaging, critical, and celebratory account of Elizabeth's half-century reign that no reader of popular history should be without.

When magical attacks and sabotage begin taking out more of Nagato's personnel, things between the two megacorporations really heat up. But behind the growing hostilities with Fuchi looms a more sinister threat, requiring far more of Machiko's talents than her flashing sword. What has been the function of monarchy in the political and social life of Britain?

Peter Davis was the youngest officer in the SAS during World War II. In his autobiographical account, he reveals the na•ve enthusiasm he felt when he joined the Unit, his fears and trepidation during training, and the horror at what he later experienced during his first operations in the liberation of Sicily and Italy. This is his story. It explores the difficulty of a young, inexperienced officer leading older and seasoned soldiers. It tells of mistakes a 'rookie' can make and of how listening, learning and ultimately earning respect made him the skilful leader he ultimately became. During later operations he was awarded the Military Cross. Through it all the enigmatic figure of Paddy Mayne looms large. At times irrational, aggressive, and often drunk, he was always a born leader able to instil obedience and respect. Where he led, men followed. This autobiographical account was written shortly after the end of the War, using diaries written at the time. It is possibly the last, untold, first-hand account of a time of chaos, of horror and of the camaraderie of the men of the SAS.

Escorting the Monarch is as close to an official history of the Metropolitan Police's 'Special Escort Group' (SEG) as one could hope for. You may have seen the team at work; as the combination of motorcycles and cars pass you by, they glide elegantly and seemingly effortlessly through busy traffic. Developing a dedicated and diligent team culture, they are masters of their trade. They hold a well-earned reputation for excellence amongst their peers; delivering their passengers (and cargo) on time, safely, in a great deal of style, and without fuss or mishap. Professional and precise in the execution of their operations, they are neither shaken nor stirred. Although the work of the SEG demands exquisitely high levels of presentation there is little room for gloss or glitter. The individuals and property they are charged to protect are assessed by government to need the highest possible levels of protection. From queens, kings, presidents and emperors, to priceless works of art, terrorists and high risk prisoners, the group escort them all. Written by the son of a retired SEG officer who himself served in the British Government's security and intelligence community, Escorting the Monarch is told, in part, through first hand stories and anecdotes gleaned from former officers of the group. The insights offered are unique, privileged and first of their kind. Chris Jagger unfolds a collection of fascinating and never before told stories built on high profile events, such as the funeral of Sir Winston Churchill, and the visit of Nelson Mandela. Now the SEG have honed their skills for over 6 decades. Through a carefully constructed description of a changing security and political environment across the decades, and an insightful analysis of the ingenuity of those who have severed with the SEG, _Escorting the Monarch_ explains the events that made the group who they are today.

Monarch By: Caleb A. Falke For Jabin, life within the safety of Sotaria's walls is all he can imagine—which is a shame because he won't be seeing the inside of Sotaria for much longer. Wrongly convicted of stealing his own front porch, he's banished, forced to survive in the harsh lands outside of the city. But, in order to do so, he has to rely on the help of a roguish Vastlander. Worse still, her methods of helping seem to be either based in superstition or attempts to drive him insane.

Traveling on the luxury liner France early in 1963, the Western world's most famous painting sailed across the Atlantic on its maiden voyage to the United States. President John F. Kennedy officially welcomed the Mona Lisa for her stay in the capital and New York. In two months almost two million Americans came to admire the French treasure. The goodwill generated by the loan eased U.S.French relations, which had soured over tensions stemming from the Cold War. The mastermind behind the Mona Lisa's triumphant tour was France's newly appointed minister of cultural affairs, Andr Malraux. In this engaging book, Herman Lebovics recounts how Malraux's brilliant foray into the realm of diplomacy was but one example of his efforts to employ France's cultural heritage in the service of a renewed national grandeur. Malraux's cabinet position was created in 1959 by Charles de Gaulle, who entered his presidency deeply concerned over unraveling social cohesion at home and the nation's weak standing abroad. To help him address these problems, he turned to a paragon of the engag French intellectual. Malraux was an acclaimed novelist, a daring adventurer, a flamboyant anti-colonialist and one-time leftist, a courageous resistance leader, and an inspired commentator on art. In his ten years as a cabinet minister, Malraux sought to "marry" the French people to their historic culture and to restore France to her place as artistic center of the West. Lebovics examines the successes and failures of Malraux's remarkable career and the reactions of artists, the political class, and the public to the French state's new engagement with the national culture.

The courageous, historic story of a great fighting ship of the Second World War. White Ensign Flying tells the story of

HMCS Trentonian, a Canadian corvette that fought U-Boats in the Second World War. Trentonian escorted convoys on the North Atlantic and through the deadly waters near England and France. The ship was attacked by the Americans in a friendly-fire incident during Operation Neptune and later earned the dubious distinction of being the last corvette sunk by the enemy. Litwiller has interviewed many of the men who served in Trentonian and collected their stories. Their unique personal perspectives are combined with the official record of the ship, giving an intimate insight into the life of a sailor — from the tedium of daily life in a ship at sea to the terror of fighting for your life in a sinking ship. Over one hundred photos from the private collections of the crew and military archives bring the story of Trentonian to life, illustrating this testament to the ship and the men who served in it.
