

Essentials Of Managerial Finance By Brigham And Besley 13th Edition Solution Manual Free

Essentials of Managerial Finance South-Western Pub

Topical coverage designed for the first financial management course. Introductory chapters discuss the basic concepts, including accounting statements, security markets, interest rates, taxes, risk analysis, time value of money, and the basics of security valuation. Subsequent chapters explain how financial managers can help maximize their firms' values by improving decisions in such areas as working capital management, capital budgeting, and choice of capital structure. This title includes topics such as multinational finance and small business issues. The new edition has also incorporated ethical dilemma discussions throughout the text.

The classic that started in the First in Finance franchise. Now in its twelfth edition, this best-selling text is renowned for its excellent blend of theoretical and applied material, comprehensive support package, and applicable real-world examples. In addition to its continued coverage of such hot topics as multinational finance and small-business issues, ethical dilemma discussions are incorporated throughout the text. The coverage of working capital early on is a distinguishing feature. Formerly known as "Weston/Besley/ Brigham," Scott Besley is now the primary author.
