For the first time ever, world-famous photographer and fashion lighting instructor Frank Doorhof takes you behind the scenes to reveal every step of his model-photography workflow—the same workflow that has made him a hero to photographers around the world thanks to his practical, budget conscious, no-nonsense approach. In this groundbreaking book, Frank starts right at the beginning with how to find models, find great locations, work with backgrounds (you'll be amazed at his tricks for creating stunning backgrounds for just a few bucks), and work by yourself or with a team (stylist, hair stylist, and makeup artist) to create an image that will get your photography noticed. Then, it's on to an in-depth look at the lighting setups and looks that made Frank famous (complete with diagrams and detailed explanations). You'll see how Frank lights his images (you'll be shocked at how simple most of his lighting setups are and you'll be able to create these same setups yourself), plus he covers the critical little stuff nobody else is talking about, including: how to calibrate your monitor (and why it's so important); how to use a color target to nail your color every single time; and why (and how) to use a light meter to get consistent, reproducible lighting each and every shoot. Frank also shares his own retouching techniques through step-by-step tutorials, and he takes you from start to finish through a number of different looks so you can see exactly how it's done, and recreate these same looks yourself. If you've ever wished there was one book that covers it all, the whole process of photographing models from start to finish, not leaving anything out, then this is the book for you.

How does a group of people, brought together because of their diverse skills and professional knowledge, set out to be 'creative'? How are ongoing tensions between beauty, fame, and money resolved? In *The Business of Creativity*, Brian Moeran, a leading scholar and writer on the creative industries, takes the sacred relic of creativity out of the crypt and airs it in the ethnographic alley. In contrast to the persistent image of creativity as the spontaneous inspiration of a gifted individual, Moeran shows how creativity emerges from collaborative engagements among people, genres, institutions, materials and technologies. He alternates thick description of work in fashion, advertising, and ceramic art with theoretical innovations that shed new light on the aesthetic, symbolic, and economic dimensions of creativity and the production of worth. In this sexy, bold book, Pulitzer-Prize winning photographer Brian Smith tells the stories behind the photos and lessons learned in 30 years of photographing celebrities and people from all walks of life. Smith's long list of famous and infamous subjects includes pro basketball players Dwayne Wade and Shaquille O'Neal; billionaires Bill Gates,

Richard Branson, and Donald Trump; tennis stars Serena and Venus Williams; actors Anne Hathaway, Antonio Banderas, Christopher Walken, Taye Diggs, Jane Krakowski, and William H. Macy; and many more. You'll get the inside scoop on what goes on at a celebrity photo shoot in this gorgeous guide to making professional portraits. Smith has mastered how to make a meaningful portrait on a magazine's budget and on a celebrity's schedule, which can sometimes be 15 minutes or less. Smith reveals his tips on connecting with people, finding the perfect location, telling a great story through portraiture, getting the ideal pose, capturing emotion and gestures, arranging unique group shots, and lighting the scene just right. You might not be photographing the rich and famous, but after reading Smith's tell-all guide, you'll know how to give everyone who makes their way in front of your camera the star treatment.

The aim of this thesis was to answer the question: How are vocational, gendered subjectivities produced in vocational education for the beauty industry? Drawing on Foucault and poststructural feminist theory, this question is answered in four papers, in which the material consists of beauty-school recruitment and marketing material, interviews with skin and spa therapy students and observations of practical skin and spa therapy training. These are educational arrangements that are closely bound to the economic sector of the beauty industry, and they have remained remarkably unexplored. Various aspects of subjectivity production are explored throughout these papers: Paper I shows how the potential beauty student is shaped through processes of responsabilising and individualising in recruitment; Paper II shows how a scientific and caring professional emerges; Paper III shows how students learn to adopt a critical gaze towards bodies; and Paper IV shows how students are produced as emotional workers and learners, taking Hochschild's term "emotional labour" as a point of departure. The results show how (medical) scientific knowledge becomes a resource in the production of the skin and spa therapy professional, mobilising gender relations of power, and neglecting other types of skills and knowledge. However, relational and caring aspects of work and learning emerge in the study through the way in which wider discourses of femininity inform the ways in which students are produced as professionals. Syftet med avhandlingen var att svara på frågan: Hur produceras yrkesmässiga och könade subjekt i skönhetsbranschens yrkesutbildningar? Foucault och poststrukturalistisk feministisk teori användes för att svara på denna fråga i fyra artiklar där materialet bestod av rekryterings- och marknadsföringsmaterial gällande skönhetsutbildningar, intervjuer med hud- och spaterapeutstudenter samt observationer av praktiska lektioner i hud- och spaterapeututbildning. Dessa utbildningsarrangemang är nära sammanbundna med branschens ekonomiska sektor, men är utforskade till hög grad. Olika aspekter av subjektivitetsskapande undersöks i artiklarna: Den första artikeln visar hur den potentiella skönhetsstudenten skapas genom ansvariggörande och individualiserande processer i rekrytering; Den andra artikeln visar hur en vetenskaplig och omvårdnande professionell framträder; Den tredje artikeln visar hur hud- och

spaterapeutstuderer lær sig lægge an en kritisk blick på kroppar; Den fjärde artikeln visar hur hud- och spaterapeutstuderer produceras som emotionella arbetare och lärande med utgångspunkt i Hochschilds begrepp "emotional labour". Resultaten i artiklarna visar hur (medicinsk) vetenskaplig kunskap blir en resurs när den professionella hud- och spaterapeuten produceras, vilket mobiliserar makt- och genusrelationer och osynliggör samtidigt andra typer av kunskaper. Relationella och omvårdnande aspekter av detta arbete och lärande framträder emellertid genom de sätt som bredare femininitetsdiskurser tas upp och mobiliserar när studenterna produceras som professionella.
