The Yingzao fashi [Building standards] is a Chinese building manual written by Li Jie (d. 1110) and published in 1103. I present a shape grammar for teaching the architectural style - the language of designs - described in this manual. This grammar is distinguished by two objectives, and the technical means used to accomplish them. First, the grammar is for teaching. Usually, the author of a grammar of a style aims to generate all and only the designs in the language. To do this, he not only writes the grammar, but also judges whether the designs it generates are members of the language. In the Yingzao fashi grammar, on the other hand, I want to generate all and more than the designs in the language. It is then the student who evaluates the designs - does this design belong to the language? - and adjusts the grammar accordingly. Thus the student participates actively in defining the language of designs, and learns that style is a human construct. Second, the grammar is designerly. As already observed, most authors of style grammars focus on the language of designs; they do not consider how to structure the user's interaction with the grammar. By contrast, I consider explicitly what the user decides and when he decides it, and organize the grammar accordingly. In other words, I consider process as well as products. The grammar exploits several technical devices for the first time: the design as an n-

tuple of drawings, descriptions, and other elements; the generation of descriptions in the n-tuple; and techniques that are made possible by these devices.

In the summer of 2017, the newly arrived president of Marine Corps University, Brigadier General William J. Bowers, ordered a lecture series, "The Legacy of Belleau Wood: 100 Years of Making Marines and Winning Battles." The series would include four lectures, and it was to be supported by an anthology produced by History Division, providing readings to the students on the topics each lecture would cover. The intent was to produce an anthology of lasting worth to Marines, broadly depicting keystone moments in the history of the Corps during the century following the Battle of Belleau Wood. This volume presents a collection of 36 extracts, articles, letters, orders, interviews, and biographies. The work is intended to serve as a general overview and provisional reference to inform both Marines and the general public of the broad outlines of notable trends and controversies in Marine Corps history--Provided by publisher.

The primary goal of Translation Contract - A Standards-based Model Solution is to improve the communication between translation vendors and translation buyers.

Primarily a collection of customizable forms, this model solution will be useful for translators, project managers, and anyone else involved in planning, specifying, managing, and evaluating translation and localization projects. This book came about because the authors had noticed avoidable errors being made by educated citizens as they spoke over the radio and on the television, and wrote in newspapers and magazines. There is no portion of this book that did not find its origins in errors made by correspondents addressing the public in their own fashion. This book may persuade readers to give up on bloopers such as I got it for free, Between him and I, and I visited my relatives in the Sierras. There are sections on verbs, nouns, and how to handle the passage of time. There is advice on how to write with power. For guidance, there are examples of good writing taken from the works of excellent authors. You no doubt have been subjected to books on grammar throughout your education. Our hope is that none has been entertaining and helpful as this book. This volume presents the full proceedings of the

CO-PUBLISHED BY ROUTLEDGE AND THE NATIONAL COUNCIL OF TEACHERS OF ENGLISH Grammar to Get Things Done offers a fresh lens on grammar and grammar instruction, designed for middle and secondary pre-service and in-service English teachers. It shows how form, function, and use can help teachers move away from decontextualized grammar instruction (such as worksheets and exercises emphasizing rule-following and memorizing conventional definitions) and begin considering grammar in applied contexts of everyday use. Modules (organized by units) succinctly explain common grammatical concepts. These modules help English teachers gain confidence in their own understanding while positioning grammar instruction as an opportunity to discuss, analyze, and produce language for real purposes in the world. An important feature of the text is attention to both the history of and current attitudes about grammar through a sociocultural lens, with ideas for teachers to bring discussions of language-as-power into their own classrooms. This book is a standard reference for business and technical communication writing. Much more than a grammar and punctuation handbook, it helps you to: produce documents that reflect quality writing standards; access more than 110 topics, covering everything from document design, graphics, and

parts of speech to punctuation, sentence style, and word choice; create documents from start to finish and avoid writer's block; write effective letters, memos, and resumês with the help of more than 30 model documents; design effective, understandable graphics that enhance and convey your message; discover and prioritize information.

This volume includes the full proceedings from the 2016 Academy of Marketing Science (AMS) Annual Conference held in Orlando, Florida, entitled Creating Marketing Magic and Innovative Future Marketing Trends. The marketing environment continues to be dynamic. As a result, researchers need to adapt to the ever-changing scene. Several macro-level factors continue to play influential roles in changing consumer lifestyles and business practices. Key factors among these include the increasing use of technology and automation, while juxtaposed by nostalgia and “back to the roots” marketing trends. At the same time, though, as marketing scholars, we are able to access emerging technology with greater ease, to undertake more rigorous research practices. The papers presented in this volume aim to address these issues by providing the most current research from various areas of marketing research, such as consumer behavior, marketing strategy, marketing theory, services marketing, advertising, branding, and many more. Standardized tests demand Standard English, but

secondary students (grades 6-12) come to school speaking a variety of dialects and languages, thus creating a conflict between students' language of nurture and the expectations of school. The purpose of this text is twofold: to explain and illustrate how language varieties function in the classroom and in students' lives and to detail linguistically informed instructional strategies. Through anecdotes from the classroom, lesson plans, and accessible narrative, it introduces theory and clearly builds the bridge to daily classroom practices that respect students' language varieties and use those varieties as strengths upon which secondary English teachers can build. The book explains how to teach about language variations and ideologies in the classroom; uses typically taught texts as models for exploring how power, society, and identity interact with language, literature, and students' lives; connects the Common Core State Standards to the concepts presented; and offers strategies to teach the sense and structure of Standard English and other language variations, so that all students may add Standard English to their linguistic toolboxes.
