A renowned architect and artist on how public architecture in our cities has lost contact with the lives of the common people. Behind the seemingly ordinary life of a practising architect lies a whole host of non-professional impulses that give shape to buildings. *Stories of Storeys: Art, Architecture and the City* is about these impulses and conditions—social, literate, personal and political—which are expressed, but often ignored in architecture. Bhatia looks at the ordinary, physical, visible and tactile involvement of our urban environment and the way it affects, communicates with, or influences us. An all-inclusive sociology of architecture, the book draws on the social life of some of architecture's role players, people whose peculiar demands on design have come to characterize the building environment of our times, and times that are characterized by this progressive isolation of architecture from the society of common people.

In lively, mordantly witty prose, Negroponte decodes the mysteries--and debunks the hype--surrounding bandwidth, multimedia, virtual reality, and the Internet, and explains why such touted innovations as the fax and the CD-ROM are likely to go the way of the BetaMax. "Succinct and readable. . . . If you suffer from digital anxiety . . . here is a book that lays it all out for you."--Newsday.

Harley-Davidson® 2022 offers 16 months of freedom machines from the world's most legendary motorcycle manufacturer. Produced in cooperation with Harley-Davidson®, this new Motorbooks wall calendar features Harley-Davidson's latest machines. Darkus's dad has disappeared - but his new friend, a giant beetle called Baxter, is some consolation. Together, boy and beetle set out to solve the mystery of his father's disappearance. But Lucretia Cutter - a fashion designer with a penchant for beetle jewellery - is dead set against their success ...

The Climate Change 2007 volumes of the Fourth Assessment Report of the Intergovernmental Panel on Climate Change (IPCC) provide the most comprehensive and balanced assessment of climate change available. This IPCC Working Group II volume provides a completely up-to-

date scientific assessment of the impacts of climate change, the vulnerability of natural and human environments, and the potential for response through adaptation. Written by the world's leading experts, the IPCC volumes will again prove to be invaluable for researchers, students, and policymakers, and will form the standard reference works for policy decisions for government and industry worldwide.

With millions of followers on Instagram, Juniper the fox is the internet's cutest pet! Juniper's adorable snaggletooth smile and fun-loving personality are vibrantly captured in this heartwarming book. With gorgeous photos, a charming narrative about Juniper's life, and a behind-the-scenes look at what it's like to live with a fox, this book will capture the heart of any animal lover. Juniper's story chronicles her adoption and real-life Fox and the Hound relationship with a dog named Moose as well as the hilarious shenanigans she regularly gets herself into—including adapting to her new companion Fig, a younger fox who was rescued from a fur farm. Readers will also get a look at the thing Juniper is best known for: she paints with her paws! Juniper's paw paintings sell out instantly on her website, and readers will delight in learning more about her artistic adventures. With her signature grin, Juniper reminds us that there is always something to be happy about; you just have to know where to look.

Fully illustrated throughout, The Supercar Book is a sumptuously designed guide full of everything you could ever want to know about the best supercars on the planet.

This report presents international investment trends and prospects at global, regional and national levels, as well as the evolution of international production and global value chains. It analyses the latest developments in new policy measures for investment promotion, facilitation and regulation around the world, as well as updates on investment treaties, their reform and investment dispute settlement cases. It provides an overview of industrial policy models for countries at different development levels and the role of investment policies within each model. It analyses the investment policy implications of the new industrial revolution for high-, middle- and low-income countries and offers a toolkit for investment policymakers on how to use investment policies for new industrial development strategies.

Art of the Formula 1 Race Car brings a selection of these spectacular machines into the studio to expose not just the engineering brilliance of these cars, but also their inherent beauty.

Includes legislation, U.S. Tax Court and other court decisions, and U.S. Treasury decisions.

"One of the most profound and illuminating studies of this century to have been published in recent decades."--John Gray, New York Times Book Review Hailed as "a magisterial critique of top-down social planning" by the New York Times, this essential work analyzes disasters from Russia to Tanzania to uncover why states so often fail--sometimes catastrophically--in grand efforts to engineer their society or their environment, and uncovers the conditions common to all such planning disasters. "Beautifully written, this book calls into sharp relief the nature of the world we now inhabit."--New Yorker "A tour de force."-- Charles Tilly, Columbia University

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Fill your upcoming 2019, with 16 months of Exotic Cars all year round. This beautiful calendar contains 16 months and 3 mini 2018, 2019, and 2020 year calendars.

From bestselling author, racer and stunt driver Ben Collins - the man who was The Stig - comes a story of spies, speed and hard-driving genius: a driver's love letter to one of the world's best-loved machines. Aston Martin's first, wickedly fast models were forged at a time when Ferrari's premises at Maranello was nothing but a ploughed field. This book celebrates a century of innovators who kept the fire burning brightly for over a century, from the visionary pioneers Martin

and Bamford to modern-day design guru Adrian Newey; from a glamorous web of pre- and post-war spies and racing drivers, to David Brown and the achingly beautiful DB models beloved of Bonds past and present. Ben Collins explores the car with the double-o prefix from a unique perspective behind the wheel, carving through country lanes in his father's V8 Vantage, driving Aston Martins in four James Bond movies and competing against them in the legendary Le Mans 24-hour race. Ultimately, this is a very British success story: of a triumph of engineering that has burned brightly from the Roaring 20s to the 2020s, and an iconic car that never says die.

The second generation Range Rover was arguably Land Rover's first model designed as a luxury vehicle. It was a major leap for the company, but a very successful one as well. Despite controversy over its looks, and some initial teething problems, it became a worthy successor to the much-loved original. Range Rover Second Generation The Complete Story draws on the memories of designers and engineers as well as on a wide variety of factory sources to provide the most authoritative history of the mode yet. The book covers the full development history; the changes during eight years of production; Range Rovers for the North American market; full technical specifications and finally Range Rovers and the emergency services. A companion volume to the author's Range Rover First Generation - The Complete Story (Crowood 2018).

Behold some of America's most brutish performance machines in this stunning 16-month wall calendar. American Muscle Cars 2022 features more than a year's worth of stunning photography depicting beautiful, brawny muscle cars spanning the 1960s to today. Since 1957, Chase's Calendar of Events lists everything worth knowing and celebrating for each day of the year: 12,500 holidays, historical milestones, famous birthdays, festivals, sporting events and much more. "The Oxford English Dictionary of holidays."--NPR's Planet Money.

This book is a literary fiction whose setting began on the Caribbean island of Tobago, but was expanded to Europe and other parts of the world, to mimic the movements of the Caribbean peoples during the Colonial era and after the islands had gained their independence. The book contains elements of some real events, which might have been exaggerated, and were stitched together like the various pieces of fabrics in a quilted sheet in order to link together the discourse of the book. Where a portion of the book is similar to a real episode, the names of the characters have been changed, and the spellings of some of the characters and places in some conversations were intentionally misspelled in order to imitate the broken English that is commonly spoken in Trinidad and Tobago. The reader is advised not to try to associate any of the names of those characters and places to any real person or location they know, seeing that some of the real stories might not have been connected to each other, or might have been fictitious altogether and were used just to suit the narratives of this book. The work attempted to capture what life was like during the period which the book covers, and to promote national unity and racial harmony.

The Complete Book of Classic MG Cars covers all the marque's collectible production saloons and sports cars, from the 14/28 and 14/40 sports cars to the iconic postwar convertibles like the MGA and MGB, as well as latter-day takes on the classic MG formula, such as the RV8. First produced in Oxford, England, in 1924, MG cars proved instantly appealing, with a cheeky spirit that would win the hearts of millions around the globe, not least of all in the United States. This was due in no small part to the fact that the price was as attractive as the styling and the performance. Inexpensive and fun became quintessential MG traits. In this installment of Motorbooks' Complete Book series, author Ross Alkureishi offers a chronological model-by-model marque history. Narratives discuss design, production, and technology, while specification tables highlight key technical and performance data. Hundreds of photos illustrate the vehicles and even include detail shots of engine bays and interiors. Originally formed as a side business, MG became one of the world's most recognized car brands. From prewar saloons to fast and affordable two-seat sports cars in the pre- and postwar periods, MG has exuded fun, thanks to models like the Midgets and Magnettes, the traditionally styled T-Types, and the vehicles that would become the marque's most recognizable: the MGA, MGB, and MGC. MG would undergo several ownership changes throughout the years, and Alkureishi expertly shows how different ownership groups affected MG cars,

good or bad. Along the way, the company competed on racetracks around the world, and Alkureishi describes the most successful of these exploits in complementary sidebars. The Complete Book of Classic MG Cars is the essential guide to this important chapter in the history of motoring.
