THE INSTANT #1 NATIONAL BESTSELLER From the #1 New York Times bestselling authors of Extreme Ownership comes a new and revolutionary approach to help leaders recognize and attain the leadership balance crucial to victory. With their first book, Extreme Ownership (published in October 2015), Jocko Willink and Leif Babin set a new standard for leadership, challenging readers to become better leaders, better followers, and better people, in both their professional and personal lives. Now, in THE DICHOTOMY OF LEADERSHIP, Jocko and Leif dive even deeper into the uncharted and complex waters of a concept first introduced in Extreme Ownership: finding balance between the opposing forces that pull every leader in different directions. Here, Willink and Babin get granular into the nuances that every successful leader must navigate. Mastering the Dichotomy of Leadership requires understanding when to lead and when to follow; when to aggressively maneuver and when to pause and let things develop; when to detach and let the team run and when to dive into the details and micromanage. In addition, every leader must:

- Take Extreme Ownership of everything that impacts their mission, yet utilize Decentralize Command by giving ownership to their team.
- Care deeply about their people and their individual success and livelihoods, yet look out for the good of the overall team and above all accomplish the strategic mission.
- Exhibit the most important quality in a leader—humility, but also be willing to speak up and push back against questionable decisions that could hurt the team and the mission.

With examples from the authors' combat and training experiences in the SEAL teams, and then a demonstration of how each lesson applies to the business world, Willink and Babin clearly explain THE DICHOTOMY OF LEADERSHIP—skills that are mission-

ABOUT THE ORIGINAL BOOK The authors have translated their experiences on the battlefield into actionable steps towards successful leadership in the business world. In the book, the authors tell us that leaders are responsible for everything under their care. In war, that is a pressing issue. This means that if there is a defective production in the warehouse, dissenting employees, a culture of mistrust or any failure in the supply chain, ultimately it is the leader's fault. The title reveals the general message of the book: Exceptional commitment. Using anecdotes of his time at the head of the SEAL Three team Task Force Bruiser, Jocko and Leif, highlight the responsibility of leadership and the development of the character necessary to lead a well-equipped team. Each chapter begins with a personal military example from his time in Iraq. From these personal stories, his principles of leadership, and their application to business is presented. Again, and again success and failure are placed on the shoulders of the leader, not in the others. There is no space or space for scapegoats. A leader is called to take responsibility. Both Jocko and Leif emphasize the importance of a leader taking the blame for mistakes, not blaming subordinates, but allowing subordinates to receive praise for positive results. The authors focus on simplification to avoid confusion, make decisions and prioritize fluidly to execute effectively. It's important to be disciplined in all areas of life, although adaptable to changes on the fly. The lessons learned in the battle, when implemented in the business world, improve leadership, and create urgency and success in businesses. They translate scenarios of life and death in combat to tactics of success and failure in the boardroom. Exceptional commitment is the ability of a leader to take ultimate responsibility, knowing that there is no one else to blame. Belief in mission and perseverance will bring victory. That belief and passion must be clearly communicated with action plans, and the vision must be contagious, in order for leaders to succeed.

THE BIG IDEAS OVERVIEW The exceptional commitment is divided into 3 parts and 12 chapters, each chapter highlights a new principal and provides an application to the business world.

Summary of Extreme Ownership: How U.S. Navy Seals Lead and Win by Jocko Willink and Leif Babin - Book Summary - Stella Penn In the book, "Extreme Ownership", Jocko Willink states that a group is only as good as their leader. A true leader cannot lead alone, rather, they require a group behind them that is focused on the goal. Also, a leader can only be considered a good leader when their team reaches their goals on a regular basis. Willink describes that the leader needs to be modest and realize once they had been incorrect. Possessing mistakes and developing a method to right any errors is fundamental to be a successful leader. Leaders must keep the ego at the door, and their agenda is entirely specialized in their group, they need to ignore their agenda. Willink's perception of a leader that is beneficial to their group as someone who can concentrate purely on the goal and bring the team together to reach that goal.
