What was one of the first things you wanted to sell when you were a kid? Did you have a lemonade stand that went bust after two weeks, or did you sell baseball bats at little league games? Whatever kickstarted your selling career shows the true determination of a natural-born seller that was meant to take advantage of one of the world's greatest merchandise companies: Amazon. Amazon has been around for over 25 years, and it only continues to build momentum. Once marketed as only an online bookstore, it was unclear if the company would survive the next few years against such large alternatives such as Barnes & Noble. The company was completely internet-based, which many thought would be the end of the website, but it only became more popular with the addition of new products such as music and clothes. Some may not realize that the company that started off as an internet-based store for books was one of the first platforms to encourage outside sales. Originally called zShops, people could market original work or hard-to-find items. The idea exploded as more than half a million people purchased something on Amazon by 2000. Jeff Bezos was dubbed the king of e-commerce in 2001, just seven years after Amazon's launch. From its birth until now, Amazon has acquired 40 companies, but its major commerce is now in its third-party marketers. Outside sellers make up more than 50% of Amazon commerce today, and that number is only growing over the years. Online shopping has become the norm, and Amazon is leading the way in sales, accumulating billions of dollars every year, and its third-party sellers are riding the train to financial freedom. Amazon FBA was officially launched in 2006, so it is far from the newest selling platform, but it has shaped the path for other platforms of its kind, and it should be considered as the best service possible. Sellers can use accounts created with Amazon to sell their own merchandise with small fees collected by Amazon. With the internet growing in importance every year, selling online has never been easier. But why would you want to get involved with Amazon FBA? Well, if you have a knack for selling products, feel as though you have always wanted an online store, or just want to try something new, Amazon FBA is one of the easiest ways to get started. From its promises of prime delivery to customers to its total management of your products as soon as they are delivered to the warehouse, Amazon has you covered. They provide a service unmatched by any outside company, and they make selling easier every year.

Just getting started with product research and sourcing? Stuck trying to find ideas or find that "perfect" winning product? Want to find good selling products that others are ignoring? Interested in wholesale or private label products? If you answered yes, then this book is for you. If you are an experienced seller or are looking to do arbitrage this book will have less value as I don't discuss sourcing by arbitrage. I don't do arbitrage, so I don't teach it. This book is written for the new or struggling seller wanting to source wholesale or private label products. What you will learn: Basic steps for finding top selling products How to generate product ideas and look for trends How to validate demand Tips for finding suppliers Analyzing data to help you pick a product It took me 5 months of research before I pulled the trigger on my first products to sell on Amazon. Five months and countless hours. I have pages of notes with product ideas in many different categories. Some were wholesale products, others were ideas for my own products. I had some money set aside to buy inventory. But I couldn't commit. I was looking for...not necessarily the perfect product, but, well yeah, the perfect product. Fear of choosing "wrong" was holding me back. I knew that product selection was key to success so I needed to choose right. Another part of the problem was I had bigger ideas-I wanted to create a brand and I had some ideas as to what sorts of products I would carry. But those ideas required more capital than I was willing to invest for my first product. As a result, I put so much pressure on myself to dream big and think towards the future that I did...nothing! Another hold up was I was a little skittish to follow the advice to source from Chinese suppliers. It seemed so complicated for a beginner. Could I not take a little less profit and source domestically? Were there not manufacturers that could produce my ideas in North America? Yes, and yes. Ultimately the delays helped me because I learned a lot by joining Facebook groups and listening to and learning from the experiences of others. I devoured the advice in forums as well as blogs, books, webinars, and courses. I learned of the pitfalls of private label that the gurus selling you the dream never talk about. And finally, I did pull the trigger. I put together this guide to help any of you who are feeling a little gun-shy too. I put this book together for all of you who have the brains to say "Hey, if everyone buys top 100 selling products wont that saturate the market?" I put this book together to help you find great products from many different approaches. After reading this, you should feel confident enough to find a product and get started with your e-commerce business.

Amazon FBA (FREE Bonus Included) Top 13 Products That Will Help You Make an Income of Over \$70,000 in One Year Telling someone you make \$10,000 a month part time certainly sounds like a massive scam. It's crazy but many people have been doing it by using the Fulfillment by Amazon system to their own advantage. Since you're here you're obviously familiar with Amazon but did you know that many items sold through Amazon actually come from third party sellers? FBA allows you to harness the well known name of Amazon to sell your products without having the overhead or advertising needs that a company so big would involve. Many people are looking into second income these days, even if it's about making ends meet everyone could use more money and free time. The goal of FBA is to give you just that, your time is better spent not shipping and dealing with customers which is why you're looking at FBA. Wouldn't you like a vacation, new car, second home even? Having FBA alongside your regular job can give you those things as a successful seller but you might find your time is better spent and leave your day job like many others are doing to FBA full time. The biggest thing for many people is finding the right niche or product to make sure people keep coming back and buying more from you. The right product and the right description is what will do your selling for you even if you're not selling a necessity. You're probably in the research stage so we're going to give you some information and a plan to get you up and selling as well as a few things that people are making money using FBA right now. Here is what you will learn after reading this book: What is FBA? What are the risks? How to sell your products? What sells? Where to find inventory? Are you getting started with Amazon FBA seller trying to figure out how to source products? If you're reading this that likely means you've heard of "Amazon FBA" or "private label products" being bandied around online or from other entrepreneurs. Perhaps you're already quite experienced in this field and are interested in how others run their business or perhaps you're simply curious about what the fuss is all about. In a nut shell, Amazon FBA can be compared to what eBay was 10 years ago, in terms of the opportunity it provides to earn money online. The actual technicalities of how FBA and private labelling works will be covered in the next two chapters. For those that are merely curious about it, we'd guess it's because you've heard that it's a lucrative way for almost anyone to make money or a living from. Shit, maybe you've even heard that people are able to run their private label businesses from the beach and only spend an hour a day maintaining it. Despite a beautiful picture of working on the beach in leisure with your laptop by your side, sun shining overhead, and the calls of nature in the background as waves crash on the shore with birds soaring through the blue skies, trust us when we say it really isn't as fun or nice as it sounds. There's sand everywhere! Getting into your laptop, pants, bags, and if it's a windy day, it's just blowing sand on you and the friction can be so hard the sand actually stings you. The glare from the sun on the laptop makes it insanely hard to see what's happening, especially if you've got sunglasses on. The amount of shit you have to deal with while trying to work on the beach goes on and on but if there's only one takeaway from this book, save yourself the hassle and don't try to work on the beach for anything. Okay, rant over. It's possible you've heard claims of people making \$1,000 dollars a day and this could range from groups of housewives to the unemployed making bank in a ridiculously short amount of time. Some go even further to claim they've made millions in just their first year, and what do they do now that they're millionaires? They sell books, courses, and products about how they made they're millions. Not to rag on these people too much as we know some who are actually legit and know what they're talking about and doing, but a lot of these people out there going about touting their courses aren't offering a whole lot of value for what they're charging or are simply sharing outdated information as they aren't actively selling in the Amazon marketplace anymore as they now make their living from selling their education based products. This book has been designed to provide a roadmap for you to follow step by step (for the most part) to selecting the best niche or product for you so that you can create a successful private label business. It would be a lie to say everything in the business is going to be easy. The actual processes and steps we provide are easy no doubt, and you may experience slight hiccups here and there. For the most part you will just need to put in the time and effort to follow through on what's laid out for you (this is the difficult or easy part depending on you). Note that there will be struggles along the way to your success in this business. Anything worth having doesn't always come easy. We will provide the structure and roadmap for you to follow but it's up to you to TAKE ACTION and FOLLOW it through till the end. If you slack off at any point of the roadmap you will only decrease your chances of success. We're here to make sure you maximize your possibility of success. Automating Your Amazon Business. Fulfilled By Amazon (FBA) is potentially the biggest retail revolutions since the emergence of ecommerce. Put simply, FBA allows sellers to outsource their product storage and distribution to Amazon. FBA is giving rise to a new, post-eBay, entrepreneur: people who want to spend their time re-selling, designing, branding and marketing products. With FBA, you don't have to worry about being hacked or setting up payment systems. There's no more traipsing to the Post Office or worrying about being away when an order needs to be fulfilled. This gives you freedom too - you can run your FBA operation from anywhere in the world. All you need is access to the Internet. There are numerous books available on this subject, but this is the first to focus solely on Amazon.co.uk - that means UK case studies, pounds not dollars and UK/EU laws/rules. If you're a seasoned FBAer, this book is probably not for you - although you will learn a few new things. However, if you're thinking of entering this market or have less than a couple of years' experience, this guide should prove invaluable. This book includes the following: * Finding products that will sell. * Creating your own brand - branded products sell for a premium. * Registering a trademark. * Importing goods from outside the EU. * Sourcing/buying products from overseas suppliers. * Registering as a seller on Amazon. * Listing FBA products on Amazon. * Getting your products to Amazon's fulfilment centres. * Commodity codes, import duty and VAT. * Pricing your products. * How to get great customer reviews to boost sales. * The dark arts of Amazon Search Engine Optimization (SEO). * Selling as a Pro Merchant. * Products requiring prior approval by Amazon. * Promoting your products, including: o Amazon Sponsored Products advertising. o Facebook for business. o Amazon money-off promotions. o Amazon Launchpad. o Handmade at Amazon. * List on eBay, sell via FBA. * Returns and damaged stock. * Amazon Lending. * Rules and regulations - tedious but necessary. Amazon FBA is a moveable feast - things are changing every week. I have included my email address in the book and encourage readers to ask questions, make suggestion and point out any inaccuracies. Hopefully there won't be too many of the latter! Enjoy and good luck. Ned Browne, 7th August 2017.
