FIA - Foundations in Audit (INT) - FAU Study Text 2013 Volume 1 (A and B) of the Yearbook of International Organizations covers international organizations throughout the world, comprising their aims, activities and events

In the fifty years since Rawls seminal work A Theory of Justice, the concept has been debated with those on the political right and left advocating very different understandings. This unique global collection, written by a group of international experts, offers wide-ranging analyses of the meaning of social justice that challenge the ability of the market to provide social justice for all. The Handbook also looks at how the theory of social justice informs practice within a range of occupations or welfare divisions.

Published annually since 1907, Who's Who of Southern Africa is recognized as the definitive reference book on leading personalities in southern Africa. Featuring over 4,000 personalities, this valuable reference includes entries on heads of state, prominent government figures, chief executives, leaders of political parties and trade unions, leading scientists, authors, heads of religious, professional and scientific organizations, and outstanding musicians, dancers, and sportsmen, and women. This report highlights the commitments for the UK from the conclusions agreed in the 'Rio+20' Summit. It was regretted that the Deputy Prime Minister declined to give evidence. It was also regretted that the Prime Minister did not attend the Rio+20 Summit. His absence undermined the Government's attempts to demonstrate its commitment to the sustainable development agenda, not just internationally but also at home in the UK. The conclusions of the Summit itself disappointed many with a lack of concrete agreement on key areas. On the other hand, many welcomed the firm commitment to develop new Sustainable Development Goals. The development of the SDGs and the Post-2015 Development Goals should be carried out jointly. The Prime Minister should take advantage of his position as co-chair of that High Level Panel to continue to push for integration of sustainable development targets with poverty eradication and climate change targets.

Permanent mechanisms should be established to continue engagement with a wider range of NGOs and businesses and examine the scope for introducing wider-ranging 'sustainability reporting' for the private sector. New Sustainable Development Indicators which will complement such Government reporting, will reflect our call for emissions Indicators to be on a consumption (rather than just a production) basis. The Summit included commitments on education and the Government should remind schools of the scope for addressing sustainable development in their learning plans. Alongside this report, the Committee's scrutiny of the Government's progress in embedding sustainable development in its own policies and programmes is also being published (HC 202, session 2013-14, ISBN 9780215058911)

Many enquiries into the state of accounting education/training, undertaken in several countries over the past 40 years, have warned that it must change if it is to be made more relevant to students, to the accounting profession, and to stakeholders in the wider community. This book's over-riding aim is to provide a comprehensive and authoritative source of reference which defines the domain of accounting education/training, and which provides a critical overview of the state of this domain (including emerging and cutting edge issues) as a foundation for facilitating improved accounting education/training scholarship and research in order to enhance the educational base of accounting practice. The Routledge Companion to Accounting Education highlights the key drivers of change - whether in the field of practice on the one hand (e.g. increased regulation, globalisation, risk, and complexity), or from developments in the academy on the other (e.g. pressures to embed technology within the classroom, or to meet accreditation
