Available again after a long absence! Always big on character and charm, Fiat's little cars played an important international roll in providing affordable and practical private transport for millions who had previously thought their dream impossible. With particular emphasis on the now classic 600 and Nuova 500 cars, this book tells the full story of these 'baby' Fiats. Built, and exported to, many countries outside of the marque's native Italy, over 6.5 million Topolinos, 600s and Nuova 500s were sold, and an amazing number survive to this today. Also covered are the wonderful models built on these cars' tiny chassis by Italy's leading coachbuilders, and the motorsport success achieved by the Abarth versions of the little cars that everybody loves.

The second in a series of five books which chronicle in definitive depth the history of the evergreen 911, from earliest design studies to the water-cooled cars of today. Takes up the story from the 2.4 litre cars, & covers the 2.7 litre machines & the first of the legendary Turbos. RS/RSR models are included, as is the 912E.

The Ferrari 250GT Berlinettas are undeniably beautiful and, arguably, the greatest Ferrari racing cars ever built. The 250 GT Competizione Berlinetta - now popularly known as the "Tour de France Berlinetta," in honour of the model's domination of the great French event with four outright victories - was the true forerunner of the series of cars which established Ferrari as a major force in sports car racing. Here is the story of the development, building and racing of the "Tour de France" Ferraris. Importantly, the book also contains individual histories of the Ferrari "TdF" Berlinettas.

The Yamaha FS1-E is a 1970s icon. Introduced in the early 70s, it became an instant success, giving sixteen year olds their first taste of motorcycle performance and freedom, and totally overshadowing the other mopeds available at that time. Many riders had their FS1-E for only one year before progressing to larger machines. Today, nostalgia for the youthful exuberance engendered by the 'Fizzie' has resulted in many ex-owners wanting to recreate their pride and joy. Most FS1E's have not endured the test of time well, and very few good original examples exist. There are plenty of restorable machines around and this book guides the do-it-yourself restorer through the minefield of initially finding a machine to restore and the pitfalls of a first restoration.

A fascinating and nostalgic compilation of rider profiles written over a three year period, which originally appeared in Classic Motorcycle magazine, and is now accompanied by a new set of over 100 photographs. All of the riders featured became top achievers in their field, although, for some, it was their first interview. During the 1950s and 60s, scrambling especially drew huge crowds to meetings all across the country, and, thanks to TV coverage such as BBC Grandstand Trophy, and ITV's World of Sport, many of the competitors featured in this book became household names. Each chapter includes the competition years of the riders, and also gives an overview of their careers, and conveys their enthusiasm for the sport.

When Fiat entered rallying in 1970, its aim was to become World Rally Champion - and the 131 Abarth of 1976-1980 provided the machinery to make that possible. Within the Fiat-Lancia empire, the 131 Abarth not only replaced the 124 Abarth Spider sports car, but was also favored ahead of the charismatic Lancia Stratos. By 1970s standards, the 131 Abarth was the most extreme and effective of all homologation specials. Compared to the 131 family car it was originally based, it had a different engine, transmission and suspension layouts, was backed by big budgets, and by a team of superstar drivers. This car was meant to win all round the world. Not only did it start winning World rallies within months of being launched, but in 1977, 1978, and 1980 the "works" team also won the World Championship for Makes, and set every standard by which Rally Giants were to be judged. The 131 Abarth was backed by a peerless team of engineers, so was there ever any doubt that successors like the Lancia Rally 037 and the Delta Integrale would eventually come from the same stable?

Expert practical advice from an experienced race engine builder on how to build a high-performance version of Ford's naturally aspirated 4-cylinder 1600, 1800 & 2000cc Pinto engine which has been used in Ford's most popular cars (Escort, Capri, Cortina & Sierra - Ford/Mercury Capri, Pinto, Bobcat in USA) over many years. Whether the reader wants a fast road car or to go racing, Des explains, without using technical jargon, just how to build a reliable high-power engine using as many stock parts as possible and without wasting money on parts and modifications that don't work. Also covers Cosworth versions of Pinto engines and fitting Cosworth heads to Pinto blocks. Does not cover 1300, E-Max 1600 or American-built 2300.
