This book comprises 19 papers published in the Special Issue entitled “Corporate Finance”, focused on capital structure (Kedzior et al., 2020; Ntoun et al., 2020; Vintil? et al., 2019), dividend policy (Dragot? and Delcea, 2019; Pinto and Rastogi, 2019) and open-market share repurchase announcements (Ding et al., 2020), risk management (Chen et al., 2020; Nguyen Thanh, 2019; Štefko et al., 2020), financial reporting (Fossung et al., 2020), corporate brand and innovation (Barros et al., 2020; B?ach et al., 2020), and corporate governance (Aluchna and Kuszewski, 2020; Dragot? et al., 2020; Gruszczyski, 2020; Kjærland et al., 2020; Koji et al., 2020; Lukason and Camacho-Miñano, 2020; Rashid Khan et al., 2020). It covers a broad range of companies worldwide (Cameroon, China, Estonia, India, Japan, Norway, Poland, Romania, Slovakia, Spain, United States, Vietnam), as well as various industries (heat supply, high-tech, manufacturing).

Financial Accounting provides a comprehensive coverage to course requirements of students appearing in the paper Financial Accounting at BCom, BCom (Hons) examinations of different Indian universities and Foundation Examination (NS) of the Institute of Company Secretaries of India. The book is divided into four sections: Section I explains the fundamental principles necessary for understanding the subject. It covers the entire accounting cycle—from recording of financial transactions to the preparation of final accounts. Section II deals with accounting problems related to certain specific types of business transactions. Section III deals with partnership accounts. Section IV provides suggested answers to recent examinations’ questions.

Unit: Encapsulates the subject matter with simplicity in language and is replete with problems for practice to reinforce learning. Also includes comprehensive problems which provide an exhaustive training to students on slightly tougher problems. Must Know: Presents solved NCERT problems that on many occasions have been noticed to form the basis of several questions asked in the Board Examinations. Must Practise: Covers all recent questions (solved) that have been asked in the Board Examination chapter-wise to coach students readily. HOTS: Offers a range of questions to promote critical thinking, analysis and problem-solving skills. Evaluation Questions with Incomplete Information/Missing Figures deals with life-skills, values and tricky questions. Assess Yourself: Constitutes extensive exercises presenting typology of questions comprising Remembering, Understanding and Application-based which are classified as: Multiple Choice Questions (MCQs), Very Short Answer Type Questions, Short Answer Type Questions, Long Answer Type Questions and Practical Questions. The volume thus plans to assimilate three books- namely NCERT, CBSE examination question papers and a complete textbook-into one single volume for a much-focused study and exam preparation right from the beginning.

This well-known textbook provides students with the knowledge of basic accounting principles and practices in a systematic manner. The unique feature that has made this book popular among students is the simplicity of presentation which enables them to understand the subject and solve practical problems with ease. The main strengths of the book are updated text, plentiful illustrative examples and the end-of-chapter exercises with answers. The wide coverage and user-friendly approach help the book to meet the course content requirements for BCom, BBA, MCom, MCA examinations of different universities and examinations conducted by professional institutions. **KEY FEATURES**

In recent years, purchasing performance measurement have steadily gained in importance in theory and practice. Yet, in many cases, the focus still remains on cost items, especially savings. Moreover, reported performance ratios in purchasing are frequently called into question in terms of their amount and efficacy. Most of the time, there is no tie-in at all with staff compensations. To meet these and other challenges, this book presents a holistic approach for purchasing performance measurement and the incentive systems associated with it. The following topics are dealt with in detail:

- Purchasing performance measurement on the level of commodity groups and the procurement organization
- Supplier evaluation and performance measurement on the level of the buyer-supplier relationship
- Comprehensive systems for purchasing performance measurement, such as the procurement value added and the purchasing balanced scorecard
- Performance-oriented incentive systems and bonus payments for buyers, procurement organizations and suppliers

Readers are thus provided with comprehensive guidelines for the implementation and realization of sustained performance measurement and incentivization in purchasing.

This book is an introduction-level text that reviews, discusses, and integrates both theoretical and practical corporate analysis and planning. The field can be divided into five parts: (1) Information and Methodology for Financial Analysis; (2) Alternative Finance Theories and Cost of Capital; (3) Capital Budgeting and Leasing Decisions; (4) Corporate Policies and their Interrelationships; (5) Financial Planning and Forecasting. The theories used and discussed in this book can be grouped into the following classical theoretical areas of corporate finance: (1) Pre-M&M Theory, (2) M&M Theory, (3) CAPM, and (4) Option Pricing Theory (OPT). The interrelationships among these theories are carefully analyzed. Real world examples are used to enrich the learning experience; and alternative planning and forecasting models are used to show how the interdisciplinary approach can be used to make meaningful financial-management decisions. In this third edition, we have extensively updated and expanded the topics of financial analysis, planning and forecasting. New chapters were added, and some chapters combined to present a holistic view of the subject and much of the data revised and updated.

For the introductory finance course-undergraduate corporate finance or financial management-required at all undergraduate business schools. Get the picture and develop a fundamental understanding of finance. Students often miss the big picture, viewing finance as a set of unrelated topics, tools, and techniques. In order to help students see the big picture, this text provides an introduction to financial decision-making that links the concepts to five key principles of finance. Authors Arthur J. Keown, John D. Martin, and Sheridan Titman have incorporated significant revisions that weave currency, relevance, and real-world issues into the pages of this well-know finance text.

Advanced Financial Accounting 12e is an up-to-date, comprehensive presentation of the accounting and reporting principles and procedures used in a variety of business entities. The text helps students navigate the complexities of modern business, equipping them to deal with the accounting and reporting ramifications of issues such as: Mergers and acquisitions New organizational structures Accounting scandals related to complex transactions Foreign activities of multinational firms Operations of governmental and not-for-profit entities Bankruptcies of major firms and more... This edition continues to provide strong coverage of Advanced Accounting topics with clarity of presentation and integrated coverage based on case examples. The twelfth edition is complete with presentations of worksheets, schedules, and financial statements, so students can see the development of each topic. Inclusion of recent FASB and GAAP pronouncements - and focus on the continuing deliberations of the authoritative bodies - provide the most current content for students preparing for the CPA examination and their future careers. Given the recent rapid pace of the authoritative bodies in dealing with major issues, the emphasis on currency and standards in Advanced Financial Accounting has become more important than ever for both students and aspiring professionals.

Needles/Powers/Crosson PRINCIPLES OF ACCOUNTING is continuously evolving to meet the needs of today's learner. This edition's new structure is based on research with students about the best way to deliver content in this course! The chapters in Needles/Powers/Crosson have been organized into the Three Section Approach, which helps you more easily digest the content. The first section is Concepts and focuses on the overarching accounting concepts that require consistent reiteration throughout the course. With a clear understanding of the concepts, you are then ready to experience the second section--Accounting Applications. Here you practice the application of accounting procedures with features like Apply It and a new transaction analysis model, which clearly illustrates how transactions are the result of business decisions and recorded in a way to show their effects on the financial statements. Finally, you utilize section three, Business Applications. This section illustrates how the concepts and procedures are used to make business decisions. Real company examples are used throughout the chapter to show students the relevance of the material. This logical progression through the material is further supported in the online environment in CengageNOW with the Tri-Level Problem. This problem mirrors the Three Section Approach and connects the sections to facilitate a more complete understanding. These substantial changes will make you a more efficient learner and are designed to prepare you for a business world increasingly complicated by ethical issues, globalization. Sound investment decisions require an in-depth knowledge of the financial markets and available financial instruments. This book provides students and professionals with an understanding of the role and activities of an equity security analyst within the investment process. Emphasis is on understanding the process of analyzing companies; the valuation process; and the challenges of achieving success in a highly competitive capital market. The authors present a comprehensive compendium on the financial theory, the empirical evidence and the mathematical tools that form the underlying principles of investment decisions.

When marketing managers and financial managers join forces within any business, the result can often be poor communication on financial criteria and goals. The risk of this situation occurring is inevitably present when those with different professional backgrounds and roles are working in accordance with their own norms. In his seminal 1956 paper on general systems theory, the economist Kenneth Boulding referred to the phenomenon of "specialised ears and generalised deafness", which can be seen to exist when marketing managers are financially illiterate or when financial managers lack the necessary insights to design, implement and operate accounting systems which are useful to marketing managers in carrying out their roles. It is increasingly difficult to attach credence to the idea of marketing managers who lack financial skills, or financial managers who fail to relate to the context in which marketing managers operate. Understanding the marketing/accounting interface is therefore important in generating emergent properties from the interaction of marketers and accountants whereby the whole is greater than the sum of the parts. The chapters in this volume seek to address this challenge. This book was originally published as a special issue of the Journal of Marketing Management.

Financial Accounting Theory and Analysis: Text and Cases, 12th Edition continues to concentrate on showing readers how accounting standards directly affect daily decision making on the job. The new edition of this text has been updated and revised to provide students and professionals with the theoretical background they need to keep up with the convergence issues and succeed in today's increasingly global economy.

The Twelfth Edition of Advanced Financial Accounting is an up-to-date, comprehensive, and highly illustrated four-color presentation of the accounting and reporting principles and procedures used in a variety of business entities. Every day, the business press carries stories about the complexities of modern business entities, and students must know how to deal with the accounting and reporting ramifications of issues such as: • mergers and acquisitions • new organizational structures • accounting scandals related to complex transactions • foreign activities of multinational firms • operations of governmental and not-for-profit entities • bankruptcies of major firms • and more! This edition continues to provide strong coverage of Advanced Accounting topics with clarity of presentation and integrated coverage based on continuous case examples. The text is complete with presentations of worksheets, schedules, and financial statements so students can see the development of each topic. Inclusion of recent FASB and GAAP pronouncements - and focus on the continuing deliberations of the authoritative bodies - provide the most current content for students preparing for the CPA

examination and their future careers. Given the recent rapid pace of the authoritative bodies in dealing with major issues, the emphasis on currency and standards in Advanced Financial Accounting has become more important than ever for both students and aspiring professionals.

Foundations of Airline Finance: Methodology and Practice is a textbook that comprehensively covers, at a basic level, all aspects of the subject, bringing together many of the numerous and informative articles and institutional developments that have characterized the field of airline finance in the previous two decades. The book is of greatest value to students who are contemplating entering financial management in the air transportation industry; however, the text also serves as an accessible and comprehensive reference for industry professionals.

Financial Statement Analysis, 11e, emphasizes effective business analysis and decision making by analysts, investors, managers, and other stakeholders of the company. It continues to set the standard in showing students the keys to effective financial statement analysis. The textbook is set up in a three part framework which makes this textbook one of the best-selling books in the market. It begins with an overview (chapters 1-2), followed by accounting analysis (chapters 3-6) and then financial analysis (chapters 7-11 and a Comprehensive Case). The book presents a balanced view of analysis, including both equity and credit analysis, and both cash-based and earnings-based valuation models. The eleventh edition is aimed at accounting and finance classes, and the professional audience - as it shows the relevance of financial statement analysis to all business decision makers. The author: Uses numerous and timely “real world” examples and cases Draws heavily on actual excerpts from financial reports and footnotes Focuses on analysis and interpretation of financial reports and their footnotes Illustrates debt and equity valuation that uses results of financial statement analysis Applies a concise and succinct writing style to make the material accessible

From small law offices to federal agencies, all entities within the justice system are governed by complicated economic factors and face daily financial decision-making. A complement to Strategic Finance for Criminal Justice Organizations, this volume considers the justice system from a variety of economic and financial perspectives and introduces quantitative methods designed to improve the efficiency and effectiveness of organizations in both the non-profit and for-profit sectors. Using only a minimum of theory, Economic and Financial Analysis for Criminal Justice Organizations demonstrates how to make decisions in the justice system using multiple financial and economic models. Designed for readers with little knowledge of advanced mathematics, quantitative analysis, or spreadsheets, the book presents examples using straightforward, step-by-step processes with Excel and Linux Calc spreadsheet software. A variety of different types of decisions are considered, ranging from municipal bond issuance and valuation necessary for public revenues, pension planning, capital investment, determining the best use of monies toward construction projects, and other resource planning, allocation, and forecasting issues. From municipalities and police departments to for-profit prisons and security firms, the quantitative methods presented are designed to improve the efficiency and effectiveness of all organizations in the justice domain.

A supplementary text for a variety of Business courses, including Financial Statement Analysis, Investments, Personal Finance, and Financial Planning and Analysis *¿* An Analytical Approach to Understanding and Interpreting Business Financial Statements *¿* Understanding Financial Statements improves the student's ability to translate a financial statement into a meaningful map for business decisions. The material covered in each chapter helps students approach financial statements with enhanced confidence and understanding of a firm's historical, current, and prospective financial condition and performance. The Eleventh Edition includes new case studies based on existing companies and enhanced learning tools to help students quickly grasp and apply the materials. Fraser and Ormiston presents material in an engaging fashion that helps readers make sense of complex financial information, leading to intelligent (and profitable!) decision-making. This book provides a unique comparative and global analysis of the regulation of disclosure in financial (securities) markets. It is written by two authors who represent both the new world (Australia) and the old world (Germany). The authors present their research in the global business context, with legal and regulatory perspectives including some references from Africa, Asia, the Middle East and South America. After every "boom" and "bust", legislators pass new disclosure legislation, often in a heated environment fuelled by politics and the media. Little regard is paid to existing regulation or the lessons learned from earlier regulation. The result is the continuing enactment of redundant and overlapping disclosure laws. Since financial markets are often described as markets for information, the failure to ensure disclosure is at the heart of financial services regulation. This book argues that the solution to the failure of disclosure is a brief, easily understood, principles-based, plain English safety-net amendment to statute law such as "you must keep the financial market fully informed", a measure that would support effective mandatory continuous disclosure of information to financial markets. This book examines the reasons for disclosure regulation, and how the efficient operation of financial markets is dependent on disclosure. It examines the adequacy of common law and civil law concerning broker/client disclosure, and concludes that industry licensing in itself fails to keep the market informed. While recognizing the failures of securities commissions to achieve good disclosure in financial markets, it confirms the effectiveness of coregulation of disclosure by a commission with the support of the financial markets (such as the stock exchange). Coregulation builds on financial market self-regulation, and is best described in the words of one-time SEC Chairman William O. Douglas, who, in the 1930s, described it as a shotgun behind the door.

Praise for Financial Statement Analysis FOURTH EDITION "I love this book. It helps to develop the questioning mind—the mind of a financial detective. It teaches the art of skepticism and critical thinking. Readers go beyond definition and calculation and learn interpretation." —Philip L. Cooley, PhD, Prassel Distinguished Professor of Business, Trinity University "Over my decades of involvement with high-yield bonds, Marty Fridson has been the leading speaker of truth. As he so accurately states in Financial Statement Analysis, the credit investor is required to engage in a game of cat-and-mouse with company management's intent on minimizing their cost of capital by putting a positive gloss on their financial statements. The Fourth Edition of Marty's terrific book is the bible on how to detect and deal with these efforts." —Howard Marks, Chairman, Oaktree Capital Management "Financial Statement Analysis is a unique text; it combines great academic work with numerous real-life examples to form a highly useful reference for equity investors, debt holders, and investors who straddle both asset classes. Whether you are an investor, an investment advisor, or a teacher, Financial Statement Analysis will prove very valuable." —Margaret M. Cannella, former head of Global Credit Research, J.P. Morgan and Adjunct Professor, Columbia Business School "Marty has seen it all! He has had a front-row seat to see the birth, death, and rebirth of the high-yield bond market . . . several times over! In the Fourth Edition of Financial Statement Analysis, Marty clearly demonstrates that despite the enactment of Sarbanes-Oxley in 2002, and other attempts to curtail abuse of the system, one needs a critical analytical eye to be certain that management is not trying to obfuscate the truth. The case studies provide excellent and timely examples of some of the techniques that companies have used to mislead investors." —Edward Z. Emmer, former global head of Corporate and Government Ratings and Equity Research, Standard & Poor's "Those who read financial statements without understanding the strategic context in which they are written will land on the losing end of the gripping episodes with which bond-market legend Marty Fridson illustrates in the Fourth Edition of his classic reference, Financial Statement Analysis. And all of us who depend on the markets sending capital to its best use should hope that investors read this book first." —David Musto, Professor of Finance, the Wharton School of the University of Pennsylvania "This book rightly urges resolute skepticism when inspecting financial statements. Its great value, though, is in the plain-spoken stripping down of real-world and illustrative examples that show how to see past the numbers to the practicalities and incentives behind them—and so help analysts and journalists alike ask the right questions." —Richard Beales, Assistant Editor, Reuters Breakingviews
