This textbook provides you with all the up-to-date information and guidance you need to pass first time. It focuses systematically on each of the assessment criteria in the unit and provides a suggested structure for drafting responses to meet the requirements of the unit's assessment criteria.

As a lecturer / trainer / tutor / assessor / curriculum manager, how do you ensure: 1. that all individual learners' needs are identified and met effectively? 2. that full account is taken of disability and learning difficulties when preparing and delivering teaching, learning and assessment strategies? 3. that strategies applied to reduce the barriers to learning experienced by disabled learners and those with learning difficulties are legitimate and reasonable and do not provide them with an unfair advantage? 4. that the most appropriate teaching, learning and assessment methods are used?, and 5. that sessions are planned and delivered effectively (and evidenced accordingly as part of a MICRO-TEACH? This textbook addresses each of these questions, with supporting research as needed, while remaining tightly focused on the unit's assessment criteria.

Out of the three units of the Award in Education and Training, Understanding and Using Inclusive Teaching and Learning Approaches in Education and Training is probably the most demanding to understand and apply.

What sets this book apart is the author's application of his considerable experience to this subject area in order to simplify it for those new to teaching and/or new to the subject.

Whether you are delivering training or lectures to 16-18 year-olds, mature learners, professionals, managers or international students, with a range of learning needs and barriers to learning, this book will prove useful in preparing you not only for your unit assessment, but also for work in the sector.

Most importantly, the book adopts a practical approach, which is supported by evidence and, where relevant, cross-referenced to Ofsted and QAA expectations. It is therefore suitable for those intending to enter teaching and training as well as those already involved in delivering or managing a programme.

This textbook is mapped directly to each of the learning outcomes and assessment criteria for the unit across all awarding organisations. It provides detailed practical explanation and links to various other resources so that whether you are new to teaching or already in a teaching or related role, there will be a detailed examination of inclusive teaching and learning approaches in education and training.

The key benefits to the reader of this textbook are as follows: It is written by an experienced practitioner with extensive experience across the further education and skills sector, occupying a variety of roles; It adopts a practical approach to topics, reflecting current practice in the sector; It includes detailed guidance on structuring effective responses to assessment tasks; It is clearly written and easy to understand; It fully addresses each of the learning outcomes and assessment criteria in a systematic way, which makes completing the unit and assessments in a short timeframe achievable; It provides a broader range of information and examples, which should prove useful when preparing to enter the sector, such as attending job interviews for teaching related posts.

Other unit related publications for the Award in Education and Training include: The complete unit guide for the Award in Education and Training: Understanding Roles, Responsibilities and Relationships in Education and Training The complete unit guide for the Award in Education and Training: Understanding and Using Inclusive Teaching and Learning Approaches in Education and Training The complete unit guide for the Award in Education and Training: Understanding Assessment in Education and Training Micro-teach Masterclass: Preparing and delivering your micro-teach for the Award in Education and Training and for interviews in teaching
