Nicholas Sloane is a boy with extraordinary abilities. From a young age he had an affinity with words. Letters made sense to him and he was able to read early on. As he mastered his ability to write and time travel so he began to mould his experiences. Nicholas has to convince Slater not only that he is telling the truth about his ability to time travel, but also of the fact that he has found out about the future assassination of the King, which will be the catalyst to catastrophic world wide events. I am a simple soldier I am not the strongest man, nor the fastest. I am not the best with the sword or the bow. I am not the quickest to get the point or the wittiest with a retort. I can lift a great weight, run fast, spar with a sword, hunt with a bow, laugh at a jest and respond with a pun. I am not the best or brightest or fastest or smartest or most flippant. Yet I do well in all areas. Not being the best keeps me humble and inspires me to strive for better. While being amongst the best gives me the confidence to always push forward. I joined the Kings Army directly from the farm the day after my Day of Majority rite. I was not driven out for dishonest actions, nor did I run from abusive parents. I did not hunger for great adventure though I did become restless in the tedium of a farmers life. In the end my choice was simple. The King called and I answered. This is my story.

King and Country is a selection of essays and papers from Ralph A. Griffiths, published variously in Wales, England, France and North America between 1964 and 1990. It explores themes in the history of England and Wales in the Fifteenth Century and the dominions of the English crown beyond.

The Lame Take the Prey / For King and Country is a voice of reconciliation and hope- a welcome relief to a torn nation under God. Though a direct contradiction to circumstance, it's a timeless principle of Scripture- that in brokenness there's strength. From this framework comes God's view on "greatness" - that it's not just assumed as

a birthright, or belongs only to the ages, but finds a home in us, as God calls us to be a cut above the rest.

Brokenness attracts the mercies of God who raises up broken people to do big things and to become benefactors of blessings others only dream about. You can't dream big enough for God! For the Kingdom of God and the healing of our great nation, God has a plan for each life yielded to Him. When it looks too late for what you planned, it's not too late for what God has planned. You see the pieces. God sees the picture. You endure the preparation. God encounters you with His purpose. Like a "fast ball in," when the call of God comes over the plate, you'll know it in your spirit. And what's waited for tomorrow, you'll do today. "You can never cross the ocean until you have the courage to lose sight of the land."- Christopher Columbus There will never be a perfect moment to do a great thing!

Throughout recorded history, wars and conflicts have produced memorable quotations from military and political leaders, as well as historical commentators. The following collection is an eclectic assortment from notables through the ages. Included are pronouncements by some of history's most controversial figures. When Thomas Jefferson took the oath of office for the presidency in 1801, America had just passed through twelve critical years, years dominated by some of the towering figures of our history and by the challenge of having to do everything for the first time. Washington, Hamilton, Madison, Adams, and Jefferson himself each had a share in shaping that remarkable era--an era that is brilliantly captured in *The Age of Federalism*. Written by esteemed historians Stanley Elkins and Eric McKittrick, *The Age of Federalism* gives us a reflective, deeply informed analytical survey of this extraordinary period.

Ranging over the widest variety of concerns--political, cultural, economic, diplomatic, and military--the authors provide a sweeping historical account, keeping always in view not only the problems the new nation faced but also the particular individuals who tried to solve them. As they move through the Federalist era, they draw subtly perceptive character sketches not only of the great figures--Washington and Jefferson, Talleyrand and Napoleon Bonaparte--but also of lesser ones, such as George Hammond, Britain's frustrated minister to the United States, James McHenry, Adams's hapless Secretary of War, the pre-Chief Justice version of John Marshall, and others. They weave these lively profiles into an analysis of the central controversies of the day, turning such intricate issues as the public debt into fascinating depictions of opposing political strategies and contending economic philosophies. Each dispute bears in some way on the broader story of the emerging nation. The authors show, for instance, the consequences the fight over Hamilton's financial system had for the locating of the nation's permanent capital, and how it widened an ideological gulf between Hamilton and the Virginians, Madison and Jefferson, that became unbridgeable. The statesmen of the founding generation, the authors believe, did "a surprising number of things right." But Elkins and McKittrick also describe some things that went

resoundingly wrong: the hopelessly underfinanced effort to construct a capital city on the Potomac (New York, they argue, would have been a far more logical choice than Washington), and prosecutions under the Alien and Sedition Acts which turned into a comic nightmare. No detail is left out, or left uninteresting, as their account continues through the Adams presidency, the XYZ affair, the naval Quasi-War with France, and the desperate Federalist maneuvers in 1800, first to prevent the reelection of Adams and then to nullify the election of Jefferson. The Age of Federalism is the fruit of many years of discussion and thought, in which deep scholarship is matched only by the lucid distinction of its prose. With it, Stanley Elkins and Eric McKittrick have produced the definitive study, long awaited by historians, of the early national era.

apparent with each new Russian advance and each new hint of the horror at work in the camps of occupied Europe. The SAS, born in North Africa as a strategic raiding force behind enemy lines, was well suited to performing a similar role in the different terrain of the Italian mountains and French forests. Here, after making common cause with the local partisans, they could cut the road and rail lines which served the front line German armies. Hitler knew as much, and was determined that the SAS should pay a terrible price for their efforts. In October 1942 he had issued the infamous Commando Order, which decreed that the raiders captured behind enemy lines, whether in or out of uniform, would be summarily executed. Denied the safety net usually provided by the rules of war, the SAS embarked on each new mission knowing that it would end in either success or death. Soldier Z SAS: For King and Country tells the riveting story of the undertaking and execution of these death-defying operations and of how, later, in the final days of war and the opening weeks of peace, the survivors at last began to seek out the murderers of their comrades and bring them to justice.

to honour their long-standing tradition of forming military alliances with Europeans during times of war, and as a means of resisting cultural assimilation and attaining equality through shared service and sacrifice. Initially, the Canadian government rejected these offers based on the belief that status Indians were unsuited to modern, civilized warfare. But in 1915, Britain intervened and demanded Canada actively recruit Indian soldiers to meet the incessant need for manpower. Thus began the complicated relationships between the Imperial Colonial and War Offices, the Department of Indian Affairs, and the Ministry of Militia that would affect every aspect of the war experience for Canada's Aboriginal soldiers. In his groundbreaking new book, *For King and Kanata*, Timothy C. Winegard reveals how national and international forces directly influenced the more than 4,000 status Indians who voluntarily served in the Canadian Expeditionary Force between 1914 and 1919--a per capita percentage equal to that of Euro-Canadians--and how subsequent administrative policies profoundly affected their experiences at home, on the battlefield, and as returning veterans."--Publisher's website.

By 1915, the Western Front was a 450-mile line of trenches, barbed wire and concrete bunkers, stretching across Europe. Attempts to break the stalemate were murderous and futile. Censorship of the press was extreme--no one wanted the carnage reported.

Remarkably, the Allied command gave two intrepid American women, Edith Wharton and Mary Roberts Rinehart, permission to visit the front and report on what they saw. Their travels are reconstructed from their own published accounts, Rinehart's unpublished day-by-day notes, and the writings of other journalists who toured the front in 1915. The present authors' explorations of the places Wharton and Rinehart visited serves as a travel guide to the Western Front.

For King or Country, Prince Charles Stuart seemed to have his future laid out for him, when he was the heir apparent to the English Throne and his father ruled over a "prosperous" and "united" British Isles. Then, a religious discord originating from Scotland uprooted old sentiments between the English Parliament and the English Crown, evolving into a rebellion that threatened to encompass Charles's entire world. In a tale of trials and hardships, Charles must persist through his humility and find his new place in society in order to have any chance of becoming the King of England.

A collection of essays about twenty-one men whom Churchill felt contributed to the course of the world in which he lived.

Traces the early life of President Washington, focusing on ages sixteen to twenty-eight, when he worked as a surveyor and led troops in the French and Indian War 'Berwick-upon-Tweed – For King and Country', is a fascinating story about the lives of the people of a typical English coastal town during World War 1, 'The Great War'. The book describes the mood of patriotism which swept through all levels of society at the beginning of the war and includes sketches widely published encouraging men to join the military. The book describes the feeling of optimism among the people that the war would be over quickly, only for them to witness the ever growing casualty lists as the war dragged on and the men from Berwick gave their all for 'King and Country'. It also describes the dangers caused by armed soldiers mixing with the civilian population. The book contains letters from Berwick's soldiers fighting at 'The Front', with

stories of their heroism, as well as their suffering as they lay wounded on the battlefield or in military hospitals. There are photographs of many young men from Berwick who went off to war never to return, and prisoners of war tell of the cruel and inhumane treatment they suffered at the hands of their German captors. One man who captured the mood of Berwick and progress of the war as it wore along its bloody path was Thomas Grey, "The Footplate Poet". Despite receiving national recognition for his work, Thomas is a forgotten poet of Berwick, but during his research Harry Scott discovered several of his wartime poems which are reproduced in this book. James Walker from Berwick, a noted authority and author of several pictorial books on the history of Berwick, has written a very moving and thought provoking foreword to the book.
