

Forex Made Simple A Step By Step Day Trading Strategy For Making 100 To 200 Per Day

Ever felt like knocking your boss the eff out? Even if you're your own boss? I have. I remember the day I decided to punch my boss in the face. One of the best decisions I ever made by far. It was glorious. A "V" day of sorts. I just walked in his office, looked him straight in the eyes, and did a spinning back fist. Yeah, that's right ... a spinning back fist. Bruce Lee style, baby. I missed of course. And fell. But nevertheless ... my point had been made. I picked myself back up off the floor, slotted back to my cubic-hell, and resumed my daily torchores like a good little drone. And then I woke up. Literally. Like ... in a bed. I was just a stupid dream. "Man," I thought. "If I can't even punch my boss the right way in my dreams, how the heck am I ever gonna do it in real life?" So I decided to do what every sensible human being does in his mid-thirties ... give up on my dreams. Luckily for me I had two dreams. One was to punch my boss in the face. The other was to quit my job and get filthy rich doing stuff that made me happy. Swing-and-a-miss on the first dream (pun intended). Home run on the second one. Like ... grand slam home run. I wanna tell you both how I did it and how you can be one of my "RBI"s. I've done all the hard work for you. All you have to do is quit your job and come on home. Here's my point ... You can have and do whatever the heck you want. You can, to a certain degree, create your own reality. But it's not easy. Which is why I've decided to create your reality for you. Wanna see it? Step into it even? You would if you knew what was on the other side. All ya gotta do is punch a few buttons and get this book. But you're going to have to take a click of faith. Do you want to deepen automated trading skills? or you have a good basic level of understanding but you are particularly interested in automated trading. Well, you're in the right place! This book describes in some detail what it means to engage in automated trading, specifically in the Forex market, using mt4: that is, the free trading platform that all Forex brokers offer. Warning! The concepts you will find in this book are also compatible for automated trading in markets other than the Forex, such as stocks, commodities and indices. I will mainly talk about the Forex, but the concepts are equally applicable and scalable in other markets. The book is structured for the very beginners, or those who have never done automated trading. But it is good to have a basic knowledge of operational terms: for this I suggest you read my first ebook "Forex Trading Online - From Zero to Trader", tailor-made for those who start from scratch: a book which will help you step-by-step from the very beginning to a level where you will be quite comfortable with the material. Thanks to this book, you will be able to learn the basics of automated trading: how to recognize valid and less valid systems and how to structure them so that they are potentially profitable in the market. Like all my textbooks, I use a very simple language: my aim is that you receive the fundamental information in the most direct and linear way possible, without big words or a polished language. To recap. This book is for you if you already have the basic skills of trading, if you are familiar with the basic terminology and if you have a minimum of manual skills in opening and closing trading transactions. This is not for you if you start completely from scratch. In this case - as I mentioned above - I advise you to first read my best seller "Trading - From Zero to Trader". Are you ready? BUY NOW !

You will not find this education at you brokers how to section. Most likely you will not find this information anywhere on this book section, or on any other book store. I have paid thousands of dollars on exclusive groups and, on paid private forums to collect the information presented in this book. As you can imagine these are the highly guarded secrets of the elite FOREX traders. No one gives their living away, unless you pay them a price worth their living. However I have decided to make this information available for ridiculously low price, because I am fed up with the brokers and the big banks taking advantage of the regular retail trader like yourself. Let me ask you a question? When was the last time you made money with FOREX? Even further more, how much money you are willing to lose, until you give up? How long you will continue to give your hard earned money to the broker? Just like you I started 5 years ago with high hopes of quitting my job and leaving the live I deserve with FOREX. My hopes and aspirations were quickly crashed and my dreams went to the dump. First I lost 1000, then 5000, 10k , how much longer I could continue like that, how much longer, I could endure the ridicule the jokes of my family and the frown on the face of my wife. It was painful, sitting all day in front of the computer, until you can't see any longer and everything including the platform and your mind become blurry. I know the pain I have been there. This continued for year, until one morning I was ready to quit, I was going to give it a last try and throw that FOREX staff in the garbage, out the window. I stumbled on a rear tread, which since then has been banned, by the broker that was holding the forum. Luckily the tread continued under the brokers radar for while, and gathered a bunch of comments an support. Finally the tread from the trader X was discontinued. I was in despair, that was the only hope and light, I have seen for a long time. I was applying the advice from the trader and things were starting to work for me. Fortunately I was able to PM the trader and begged him to agree on a 20 min conversation on the phone. Trader X was not a guru, not your regular internet promoter mojo. He was quietly raking in thousands of dollars a month for years, he was not excited about the next trade, his heart beat was not raising before he pooled the trigger. See, he has been doing this trading staff for so long it has become a boring procedure, rather a morning an afternoon chore, something like putting the garbage out on garbage day. He explained that he learned from the MASTER, I did not proceed to ask him who was the MASTER, since I mainly was concerned with him teaching me every little bit of what he knew about trading. He didn't not agree to spend time teaching me, on our first conversation, regardless of how much I offered to pay him. See, for him money was not a issue. Finally on my third approach he agreed to show me what the MASTER had thought him many years ago. What is comprised in the pages of this book, will be worth pure gold to you. This book is down to the ground no non sense, real trading knowledge. It gives a step by step instructions with real trade examples. This book is not your regular hog wash advice that you will find from your broker and the other magic bullets and seven step series that you see on this site. This book teaches you how to trade like the pros. Shows you how the big banks and foreign nationals and institution trade. Forex trading has been receiving more and more interests from the world nowadays. With the development of technology, traders are now just a few mouse click away from opening a Forex accounts. I have seen brand new Forex investors and traders around the world waste a serious amount of valuable education and training time on learning information that will not do them any good and can even cause them to lose some of their hard earned money right away in the live markets. No one wants that however it is a huge mistake that virtually all brand new Forex traders make because they don't know any better, after reading this book you will. I don't care where you trade from or what you trade, Dubai to Detroit or Mumbai to Manhattan doesn't matter because a chart is a chart and supply and demand is supply and demand, period, live markets don't work any other way no matter where in the world you are or what your trading even camels or goats. New Forex traders all around the world spend waaaay too much time on looking for the magical combination of indicators, settings and colors they think will show them something that is going to help them make more money. There are no shortcuts or bells that go ding to tell you to enter the right position so stop looking right now and if you are using something like that and you're losing money that is why. All you need to see is right in front of you on the price chart and that is price and time. Those are the only things that professional Forex traders care about and nothing else. You can certainly use your chart like a crystal ball to tell you where price will go with a high degree of certainty. When you are done reading this book you will have an excellent basic explanation of what and what not to do before you even study anything or do any kind of education. The information in this book will put you on the fast track to becoming a successful self-directed Forex investor and trader no matter where you trade from in the world or what you trade with very little money invested. This book gives you the brutal and harsh truth of what happens in real life, in real time and in real money in the worlds live markets every day. There are no short cuts and you must do the time if you want to drive your own money train to the bank.

Wow what a drag, have you felt at times, like spinning in the vicious circle of Forex. I mean you already went to all the schools and got the dreaded J.O.B... Isn't Forex trading, supposed to be something Easy...just a couple clicks and you are a millionaire...sitting

on a beach in the Caribbean's, sipping on something that comes with a small umbrella on top. The wind is blowing in the sails of your yacht and you are charting and exploring new worlds. See, Forex trading, can do that and more for you. In Forex trading what you know, is as important as...who have you learned from. So, you are sick and tired of being sick and tired. You can't stand the people in the office and(yah, I am talking about the same guy that you thought about), for one more day. You will vomit, if you submit one more report, and go to one more meeting of the bureaucrats, that are closely watching every move that you make and have a choking grip, breathing in your neck. See, not too long ago I was in your shoes... struggling to make my boss happy and singing hooray with all the fake cheerleaders, in the company I worked for. Don't get me wrong, I made a decent salary and had the car payment, house payment and all of the other exciting payments. Forex trading, Forex systems, Forex strategies, you name it, anything that was remotely concerning Forex trading, I bought it. Yet I was struggling to make a dime. In a matter of fact I will tell you a secret, I was losing to my Forex broker(the previous was not a misspelling) every time I entered a trade. All of this continued until, the universe AKA GOD, finally gave me my break. I heard of a guy, in one of the Forex forums, for our purpose I will call him trader X. The guy was giving a sound advice, very simple, but effective..that guy was the reason I could get a grip of Forex, but I will tell you more later.. I started following the tips and some of my trades turned profitable. And then the unbelievable happened... The broker realized what was going on and closed the forum tread. I was devastated... After I finally started getting my break, my hopes of living the life of a Forex trader was shattered. Fortunately I had P.M.ed Mr. X previously, and had his email contact. See Mr. X, was not interested in tutoring me, in a matter of fact, he was living rather comfortably. Trading was more of a chore for him...like someone making you wash dishes for example. His routine was consisting of trading 2 times a week only, golf, family and friends. So, he was defying all the "sound" advice of the brokers "Trade as often as you can, don't miss any opportunities." Finally, I was able to persuade Mr. X in giving me a couple lessons over the phone, and eventually we became close friends. Mr. X, was pooling close to 30k a month from Forex trading (I know that sound to good to be true, but he was not your average trader) In a matter of fact, he was not allowed with some of the smaller brokers, since they ultimately lost money with him. Now, what I am about to disclose to you in this book, are the closely guarded secrets of the pros. In a matter of fact I am sure some of my friends and traders will be mad at me and even write me some ugly letters. But I am tired of seeing good, honest folks like yourself, getting slaughtered, in the daily Forex broker guillotine. It is time to give back to others. I have made my pie of the Forex earnings, now it is your turn. I have made it easy for you. I wish I have found a book like that while back, when I was struggling to even break even on a trade. Trust me, read this book and skip the agony of looking for the golden grail, it doesn't exist. You are only of couple of mouse clicks from receiving the knowledge, that will open the Forex world to you. Take a click of faith... see you on the other side! If you are already making thousands of dollars trading Forex and make a full time extravagant living taking a couple of trades a month, then, please skip this book and go find something else to do. So, on the other side, do you live in a self denial chasing the next best system? STOP... Enough is enough, enough ridicule from your relatives and friends, it's time to show your guts. Face it, think about it, what would you think if you were on the other side looking through the eyes of your family and friends. All you see is a loser, getting ups and downs totally controlled by the next guru they read about. Doode ,this gotta stop! Trust me, I know you feel the pain. I can kind of still remember it...kind of hard to do when I am sitting on my yacht in the Caribbean sipping from something that comes with umbrella on top. See, it didn't use to be that way, not too long, couple of years ago...but I will tell you about that later in my letter Ha! Forex trading is not all it is cracked up to be, it is a hard game controlled by robots and banks and foreign sovereign institutions. Keep reading if you know where I am coming from... Things didn't used to be all pink for me either, pain, loss, closed one losing account, opened second one, heard of such and such broker giving a certain deal on lots opened another account, lost all the money, started in the mini, macro, regular lots... Does that sound familiar, try to look from the outside, Forex is for crazy people, crazy winners or crazy losers. Now, if this is your first contact with Forex, I am really sorry you had to hear this small talk. I would rather be the nice guy, rather be the good news bearer, but please, don't kill the messenger, this is the bloody truth in Forex. You may be mad at me at this moment, but soon will come the moment you will thank me . Or you would rather stumble on a nice guru telling you all the lies, and how he can help you open a 10k account with a secret advantage. Or worse He can even offer to manage your 10k, if you so willingly send him a check for the whole amount. The book you are about to read is the hard learned secrets of the successful traders and brokers and I am putting it all out for you. See I don't really need the 10 bucks, but I am making sure you appreciate the value you are getting. I have made my share trading the market, paid for all the yachts cars and toys and the farm, now it's your turn. I am sick and tired of the pain in the community and all the retail traders like yourself slaughtered by the hefty brokers. It is time to pay back, it is time for me to give back and to make sure the small trader has evened the plates no more secrets and golden grails uncovered. All the knowledge I am presenting in this book, comes from the school of hard knock, expensive paid Forex forums, where real traders hang out, not bothered by the rookies. Things I overheard on the golf course? Tell me about that, one of the guys I used to golf with executed only one trade a month, we used to call him the "ONE TRADE GUY"... How ridiculous that is? Hanging around, playing golf all month until a certain currency goes to a such and such monthly level, and pull the trigger to wipe out all the people with red eyes staring at the screens day and night, fighting with their spouses, wasting their lives in front of the broker platforms. I know what you are thinking "this guy is full of it!" Well, I am fed up with the usual story that hits every newbie trader like you and I don't want you to have anything to do with it. So, I am giving you a choice: take this book read it, study and devour every single strategy (however don't choke take it step by step), because it's real, truth coming from a real trader (I wish I could stretch my hand over the monitor, I promise you! You could touch me.) Take the leap of faith; you are a couple mouse clicks away from finding the real freedom and trading like a pro. Take the click of faith! See you on the other side! Trader X

You will not find this education at you brokers how to section. Most likely you will not find this information anywhere on this book section, or on any other book store. I have paid thousands of dollars on exclusive groups and, on paid private forums to collect the information presented in this book. As you can imagine these are the highly guarded secrets of the elite FOREX traders. No one gives their living away, unless you pay them a price worth their living. However I have decided to make this information available for ridiculously low price, because I am fed up with the brokers and the big banks taking advantage of the regular retail trader like yourself. Let me ask you a question? When was the last time you made money with FOREX? Even further more, how much money you are willing to lose, until you give up? How long you will continue to give your hard earned money to the broker? Just like you I started 5 years ago with high hopes of quitting my job and leaving the live I deserve with FOREX. My hopes and aspirations were quickly crashed and my dreams went to the dump. First I lost 1000, then 5000, 10k, how much longer I could continue like that, how much longer, I could endure the ridicule the jokes of my family and the frown on the face of my wife. It was painful, sitting all day in front of the computer, until you can't see any longer and everything including the platform and your mind become blurry. I know the pain I have been there. This continued for year, until one morning I was ready to quit, I was going to give it a last try and throw that FOREX staff in the garbage, out the window. I stumbled on a rear tread, which since then has been banned, by the broker that was holding the forum. Luckily the tread continued under the brokers radar for while, and gathered a bunch of comments an support. Finally the tread from the trader X was discontinued. I was in despair, that was the only hope and light, I have seen for a long time. I was applying the advice from the trader and things were starting to work for me. Fortunately I was able to PM the trader and begged him to agree on a 20 min conversation on the phone. Trader X was not a guru, not your regular internet promoter mojo. He was quietly raking in thousands of dollars a month for years, he was not excited about the next trade, his heart beat was not raising before he pooled the trigger. See, he has been doing this trading staff for so long it has become a boring procedure, rather a morning an afternoon chore, something like putting the garbage out on garbage day. He explained that he learned from the MASTER, I did not proceed to ask him who was the MASTER, since I mainly was concerned with him teaching me every little bit of what he knew about trading. He didn't not agree to spend time teaching me, on our first conversation, regardless of how much I offered to pay him. See, for him money was not a issue. Finally on my third approach he agreed to show me what the MASTER had thought him many years ago. What is comprised in the pages of this book, will be worth pure gold to you. This book is down to the ground no non sense, real trading knowledge. It gives a step by step instructions with real trade examples. This book is not your regular hog wash advice that you will find from your broker and the other magic bullets and seven step series that you see on this site. This book teaches you how to trade like the pros. Shows you how the big banks and foreign nationals and institution trade. The book opens your eyes to how to piggy back on the big institutional traders and win. Ninety Five percent of the people that trade the Forex market lose money and give up. The market is continually replaced by fresh blood like yourself. Don't become part of the statistics, read this book and get a map to success in FOREX. You can make a success, if you know what you are doing. Yes you can make a living with FOREX. You can achieve your dreams. Buy this book and find out How

Who else would like to experience the Ultimate shortcut to fast, unbelievable profits with Forex? Unstoppable, easy to use, cashoola rich secret tactics, to blow your broker out of the water and make you drenched with Forex profits. BUT... you know the feeling of compete desperation and misery that comes on you when you lose the next account BECAUSE... Whatever that BECAUSE, has to do with, it shows your naked spots. You are not understanding exactly what is going on, and losing your pants and underwear to your happy, so ever helpful broker. Before you go ahead and lose account number who knows what (you probably stopped counting by now, but wait till the wife/girlfriend finds out) STOP... Seriously, this book will show you the way to the pot of gold and more, but you have to read it first. Your broker will not spend the energy to tell you the real truth why you are losing the ... account, so I have to do it... Honesty, I am taking the risk to be crucified here, instead of your broker, but hay, I will take the risk, so possibly your account will live and not die. Or in case your wife finds out about your losing accounts, this information will spare your life. And you know what; all this is not your fault... You have been lied to, given all kind of fake

promises, taken for granted and left to die in your Forex career...HAHA you wish I will go down this road, lick your wounds and blame it all on the world economy, "the green house effect", the moon approaching the earth faster than a bullet or whatever, but I won't. The reality is that you will probably not listen to me, but may be, you are one of those really smart change embracing people, that will stop the bleeding in its tracks right now and will take a hold of the hard coarse chunks of truth and challenging realities I am throwing in your lap. See, it was not too long ago, not that long, so I can forget it (although it seems like eternity ago, really I am not looking forward to remembering that part of my trading life), I was in your shoes, opening \$50 accounts eating all the high pitched presentations and webinars, dreaming of living on my own island and drinking all day from something that required a small umbrella on top...turquoise blue beaches and trading from the stern of my private yacht. Gladly, I woke up from that dream and realized that, the \$50 accounts will not cut it(it will actually cut you up to pieces) I've heard of a guy that regularity brings in 25-30 k a month doing only a couple of large trades a week...(that's right this is not a typo) Now this guy, was not your regular high pitched guru, in a matter of fact he was known to have only few friends and lived a low-key quiet life. Luckily, he lived in my city. I was having a casual talk with a friend over a beer and he mentioned, he was playing golf with this guy, that quote, "was smashing it pulling thousands of dollars from the Forex marker..." Now you know, that as soon as I heard that my ears perked, my hart started pumping so fast I could hear it drumming in my chest. Palms sweating with my tongue clinched to the roof of my mouth, I grabbed my friend and made him repeat that sentence again. My friend gave me the look that you normally would give a crazy maniac coming around the corner trying to choke you. After several attempts I convinced my friend to arrange for me to meet that guy. For familiar reasons we will call him Mr X. Now, this Mr X was not interested in anyway whatsoever in being my mentor or teaching me any of his trading methods or systems. In fact he considered trading to be rather a boring task, see, Mr. X has been doing it soooo long, it has become like automatic reaction for him. After much casual conversations, I finally was able to talk Mr X in giving me a couple of Forex lessons, if I could call a half hour over at the restaurant a lesson. The most amazing thing was, that everything he taught me was so different and strange compared to all the common guru and broker...

?Lescher & Lescher????

Ever felt like knocking your boss the eff out? Even if you're your own boss? I have. I remember the day I decided to punch my boss in the face. One of the best decisions I ever made by far. It was glorious. A "V" day of sorts. I just walked in his office, looked him straight in the eyes, and did a spinning back fist. Yeah, that's right ... a spinning back fist. Bruce Lee style, baby. I missed of course. And fell. But nevertheless ... my point had been made. I picked myself back up off the floor, slotted back to my cubic-hell, and resumed my daily torchores like a good little drone. And then I woke up. Literally. Like ... in a bed. I was just a stupid dream. "Man", I thought. "If I can't even punch my boss the right way in my dreams, how the heck am I ever gonna do it in real life?" So I decided to do what every sensible human being does in his mid-thirties ... give up on my dreams. Luckily for me I had two dreams. One was to punch my boss in the face. The other was to quit my job and get filthy rich doing stuff that made me happy. Swing-and-a-miss on the first dream (pun intended). Home run on the second one. Like ... grand slam home run. I wanna tell you both how I did it and how you can be one of my "RBI"s. I've done all the hard work for you. All you have to do is quit your job and come on home. Here's my point ... You can have and do whatever the heck you want. You can, to a certain degree, create your own reality. But it's not easy. Which is why I've decided to create your reality for you. Wanna see it? Step into it even? You would if you knew what was on the other side. All ya gotta do is punch a few buttons and get this book. But you're going to have to take a click of faith.
