

be traced to several characteristics unique to emerging markets, and these unique characteristics could generate a different view of finance theory in a different manner. As a consequence, different financial decisions, arrangements, institutions, and practices may evolve in emerging markets over time. The purpose of this book is to provide practitioners and academicians with a working knowledge of the different financial management applications and their use in an emerging market setting. Six main topics regarding the financial management applications in emerging markets are covered, and the context of these topics are "Capital Structure," "Market Efficiency and Market Models," "Merger and Acquisitions and Corporate Governance," "Working Capital Management," "Financial Economics and Digital Currency," and "Real Estate and Health Finance."

This publication introduces the user to the financial statements of the most simplistic type of business, and then progressively explains the functions of financial statements relating to more complex organisations. Some very basic theoretical aspects of bookkeeping and accounting are also discussed to enable the business manager to understand and appreciate these functions in the business environment.

Updated with the latest trends, developments, and practices from the field, Brigham/Houston's FUNDAMENTALS OF FINANCIAL MANAGEMENT, 15e equips you with a thorough understanding of today's corporate finance and financial management. This longtime market leader offers insight into federal debt, the ongoing recovery of financial markets, and other emerging issues straight from today's headlines. Clear explanations and real-world examples help you understand the "what" and the "why" of corporate budgeting, financing, working capital decision making, forecasting, valuation, and Time Value of Money, while hands-on exercises, cases, Excel® Spreadsheet Models, and digital resources like MindTap® let you put theory into action.

The papers in this proceedings volume were presented at the 9th international conference "The Economies of the Balkan and Eastern European Countries in the Changing World" (EBEEC) held in Athens, Greece, in April 2017. They include the scientific results of research on current issues relevant for the wider area of Eastern Europe. Authors from 30 different countries develop new ideas, covering topics such as international economies, European integration, the economic crisis, macroeconomics, banking, stock markets, education, energy, innovation, and marketing. The contributions also examine the role of the economies of the Balkan and Eastern European countries in a pan-European context.
