We are delighted to introduce the proceedings of the First edition of the 2019 European Alliance for Innovation (EAI) The International conference on business, law, and pedagogy (ICBLP 2019). The International conference on business, law, and pedagogy accepts the papers in the three thematic areas with multiple research approaches and methodologies. The conference provides a platform for wide-ranging issues, which captures contemporary developments in business, law and pedagogy within which a wide range of networking opportunities can be nurtured for the advancement of future research and global collaboration. This approach is now vital in research endeavours as business, law and pedagogy practices are increasingly prone to an era of cross-fertilization through meaningful multi-disciplinary collaborations We strongly believe that ICBLP conference provides a good forum for all researcher, developers and practitioners to discuss all science and technology aspects that are relevant to smart grids. We also expect that the future ICBLP 2019 conference will be as successful and stimulating, as indicated by the contributions presented in this volume.

Human resource management is a particularly challenging role, both domestically and globally. This challenge can be viewed either as an opportunity or as a threat. As an opportunity, the principles and practices of total quality presented in this book can help human resource professionals or anyone who manages people, transform institutionalized mediocrity into organizational excellence. The focus of this book is on managing the difference TQ makes in human resources. Whereas the traditional nature and scope of responsibility for most human resource professionals has been that of staff support geared to administrative compliance, the total quality approach offered here reveals the keys to developing and sustaining commitment to world-class performance. These keys include strategic input and continual improvement of the human resource system to enhance internal and external customer satisfaction both now and in the future. The full meaning of these new TQ role demands is explored in light of the driving forces reshaping the HR environment into the 21st Century. In addition, this book offers practitioner assessment instruments, practical TQ tools, and specific implementation steps to take in order to make the TQ difference in managing human resources domestically and globally.

This book is exceptional treatise on strategic planning for single-business companies that is at once academically rigorous and uncommonly practical.
