Spatial Intelligence examines public and professional conceptions of the relationships between thinking about spatial attributes and active engagement in spatially related constructions and designs. Even though children's and adolescents' spatial propensities in constructive activities parallel the skills needed by professionals in both established and emerging fields, spatial education is often missing from K–12 curricula and is easily impeded by teachers, parents, or other individuals who do not provide contexts in formalized settings, such as schools, to nurture its potential. This book bridges the gap by linking the natural spatial inclinations, interests, and proclivities of individuals from a variety of cultures with professional training and expertise in engineering, architecture, science, and mathematics. Educators will be better able to achieve the skills and awareness necessary to provide children and young adults with the vital opportunities inherent in spatial education.

This book takes the concept of "dark tourism"—journeys to sites of death, suffering, and calamity—in an innovative yet essential direction by applying it to the virtual realms of literature, film and television, the Internet, and gaming. Essays focus both on the creative construction of imaginary journeys and the historiographic and civic consequences of such memorializations. From World War II time-travel novels to Game of Thrones, and from Internet reproductions of Rwandan genocide locations to invented tragedies in futuristic domains, authors from various fields examine the purpose and influence of simulated travels to morbid sites. Designed for a wide audience of scholars and travelers virtual and real, this volume raises awareness about the many pathways through which we encounter death experiences in contemporary society. What we know about the past—or, what we think we know about it—is shaped daily by such imagined journeys as these.

Snared by evil ... freed by love ... When Raja, a peasant in a village outside of a royal manor, is appointed by a young lord, Pavel, to serve in the manor, she quickly meets Hannah, her long-lost cousin, and learns of her real status—Princess and heir to the throne of Zurkia. But, Hannah's father, known as the Dark Prince, wants Raja gone so he can rule the kingdom. After Raja is awarded a double-edged sword, her test of bravery and faithfulness has just begun. Caught in a corrupt society of slavery and abduction, she becomes its victim, and the Dark Prince, who vows to take over the throne of Zurkia, seeks to destroy Raja and the royal family. On her journey, Raja relies on the wise words of Hannah: "Doing good will heal your soul." While the security of the throne diminishes and hope is almost lost, new confidence resurrects when Raja learns that the people she's touched along the way are eager to help her. Der Kampf um die Macht in Westeros ist zwar blutiger als in jedem heutigen Unternehmen, aber genauso berechnend mit Intrigen, Fallen und Demütigungen. Das Buch analysiert Strategien von Führung (Leadership) am Beispiel der beliebten Fernsehserie und verbindet Serienkulturen mit Managementforschung. Das populäre Phänomen spielt in einer mittelalterlichen Fantasy-Welt und führt uns umso überzeichneter vielfältige Leadership-Archetypen in einem unsicheren Zeitalter vor: charismatische, authentische, maskuline und mütterliche Führungspersonen werden konstruiert und wieder demontiert. Hände, Penisse und Köpfe werden abgetrennt. So zelebriert die Serie auch die Macht derjenigen, die folgen oder es auch nicht tun müssen, und ihre Leader stets beeinflussen. Dr. Brigitte Biehl (Biehl-Missal) ist Professorin für Media and Communication Management an der SRH Berlin University of Applied Sciences, School of Popular Arts (ehemals SRH Hochschule der populären Künste) in Berlin und leitet dort den Studiengang Creative Industries Management sowie das Institut für Weiterbildung (IWK). Ihr Hintergrund ist Theater-, Film- und Medienwissenschaft und BWL, sie publiziert international über Ästhetik und Management.

The wooden statue of the Mother and Child enthroned, known as *sedes sapientiae*, the Seat or Throne of Wisdom, reached the brilliant culmination of its development as a genre of religious sculpture in the twelfth century. As a visible expression of the mystery of Incarnation, its iconography dated back to the early church. Translated by the Romanesque sculptor into a fully plastic, freestanding form, its style conveys convincingly the medieval vision of humanity and divinity interfused. The recent cleaning and restoration of a number of these wood-carved figures of the Madonna in Majesty has now made possible a full appraisal of the genre. Mrs. Forsyth's discussion examines the character, function, iconography, and history of the statues; distinguishes types and regional styles; considers their role within the broader context of medieval art; and assesses their artistic merit. Her register of principal examples includes 110 sculptures dating from twelfth century France, some of which have never been published before. 192 illustrations accompany the text. Ilene H. Forsyth is Associate Professor in the Department of the History of Art, at the University of Michigan. Originally published in 1972. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. Martin's epic fantasy *A Song of Fire and Ice*, the HBO series has taken on a life of its own with original plotlines that advance past those of Martin's books. The death of protagonist Ned Stark at the end of Season One launched a killing spree in television--major characters now die on popular shows weekly. While many shows kill off characters for pure shock value, death on Game of Thrones produces seismic shifts in power dynamics--and resurrected bodies that continue to fight. This collection of new essays explores how power, death, gender, and performance intertwine in the series.
