This book focuses on the National College Entrance Exam (NCEE), an important measurement of education quality in China, from both education economics and education policy perspectives. It provides a better understanding and stimulates more sophisticated evaluations of NCEE-related policies in China from the perspectives of education equity, the effectiveness of education input, and education quality. This book reports inspiring findings based on high-quality individual level data, innovative measurement design, and various appropriate identification strategies. The most important conclusion is that both education equity and quality can be achieved using well-designed policies based on solid empirical evidence. This is likely the first book published in English to discuss the NCEE so extensively from multiple perspectives using concrete evidence.

"Where are you from?" An easy question for most to answer, but a very tough one for Third Culture Kids (TCKs). These children grow up outside their parents' home cultures, neither belonging entirely to their home culture nor to their host culture. They face unique challenges in establishing their identity and a sense of belonging, especially when returning to their home country. An increasing number of Singaporean families are living overseas for various reasons, and their children are growing up as TCKs. On returning to Singapore, these Singaporean TCKs will have to cope

with a variety of re-entry stresses when adjusting to Singapore culture, making new friends, and continuing their education in the Singapore education system. Many existing books about the TCK experience are written from the perspective of other cultures, chiefly the US. This book addresses some factors unique to the Singapore environment and provides Singaporean parents with suggestions to smooth their children's re-entry to Singapore. With experience drawn from the real-life experiences of the authors' children and others they know personally, this book will be helpful to families of TCKs through the whole process: preparing to leave Singapore, while overseas, and, especially, when they return.

Come with us now to the first day of class to teach English in China. Both students and teacher's hearts pound with anticipation as students file into the room, chatting and pretending not to notice the foreign teacher standing behind his desk. But they can't help glancing at him anyway for a first look. Laughter mingles with the sound of books and chairs clanking together. A buzzer sounds in the hall, and Bill Burkett, affectionately known in China by his students as "Mr. Bill," begins. *A Manual for Teaching English in China* takes us from the first day's buzzer through the first weeks, months, and semesters of teaching English in China, sharing numerous stories, laughs, interesting facts, and many effective ways of teaching ESL. *A Manual for Teaching English in*

China is packed with Bill Burkett's practical ideas, methods, and teaching techniques that can actually be used to teach ESL anywhere. Bill Burkett recently returned from a seven year stint of teaching English in the universities and training schools of Henan, China. An internationally renowned public speaker, Burkett has lived in 46 nations in the last 43 years. He developed a strong interest in linguistics which was fueled by his close association with interpreters. In Chinese classrooms where he taught English, he conducted active research, experimenting and taking student polls. He concentrated on eliminating speech impediments and strong accents. His education, experiences, and research shaped his philosophy of teaching English as a Second Language and formed the basis of his first ESL book, *A Manual for Teaching English in China*. Following the manual is *Secrets to Better English* which reveals a proven method of teaching ESL without accent. Although Burkett's doctorate is in philosophy, his love is making a difference in his students' lives by teaching diction and the skills of speech.
