Aim High will help your students succeed as language learners in the classroom, with their homework and also, in exams. How will it do this? It builds students' vocabulary knowledge through a structured and progressive approach. What does this mean? There are over 50 active vocabulary items in each unit, including words from the Oxford 3000TM. Students learn the meaning of new words but they also learn how and when to use them for themselves. And these are not just useful, everyday words. They're also introduced to expressions, idioms, phrasal verbs, and so on. Essential language for communicating well in English. As a teacher you'll want to help your students become autonomous learners. In Aim High there are lots of opportunities to prepare for this. In the Student's Book

there's a 'Dictionary Corner', with exercises to help them towards learner autonomy. With the self-check and review boxes they can see how they're progressing for themselves. A Grammar Reference and Grammar Builder bring together all the grammar and vocabulary for the unit. These allow students to look back over grammar points and review what they have learned.

This book contains exercises and puzzles to help young learners practise using basic grammar and hone their language skills. Through fun and challenging activities, your child will learn and master grammar, reading and writing skills that are applicable in a wide-range of everyday contexts.

Grammar Builder is a series of 6 grammar practice books that enables students to review and apply essential grammar. As knowledge of grammar is essential in the acquisition of English, as the student progresses through the worksheets they will strengthen the skills needed to read and write well. The final page provides a quick assessment of the student's understanding of the use of the grammar item. Main features:

- Grammar items covered at one level are reinforced at subsequent levels so that students can consolidate their learning and build upon it
- Extensive and structured exercises targeted at improving and evaluating students' understanding of specific grammar items
- Assessment after each targeted grammar item, and a revision section at the conclusion of the book assess and consolidate learning

Over the past few decades, the book series *Linguistische Arbeiten* [Linguistic Studies], comprising over 500 volumes, has made a significant contribution to the development of linguistic theory both in Germany and internationally. The series will continue to deliver new impulses for research and maintain the central insight of linguistics that progress can only be made in acquiring new knowledge about human languages both synchronically and diachronically by closely combining empirical and theoretical analyses. To this end, we invite submission of high-quality linguistic studies from all the central areas of general linguistics and the linguistics of individual languages which address topical questions, discuss new data and advance the development of linguistic theory.
