

Gray Salvation A Tom Gray Novel Book 6

When ex-soldier Tom Gray loses his wife and child to a career criminal, it seems life can't get much worse. But when the killer is let off with time served on remand, Gray knows there is something fundamentally wrong with the justice system. Engaging the help of his ex-SAS buddies, he kidnaps five repeat offenders and asks the public to vote on their fate: Should they be allowed to continue their criminal ways with inadequate punishment, or has Britain had enough? His website attracts a worldwide audience and, although the authorities know where he is, they are powerless to stop him. Can Gray carry out his audacious plan? Will Andrew Harvey and his fellow MI5 operatives find a way to stop him? Gray Justice, the first book in the Tom Gray series, is more than a simple tale of revenge: it's a rollercoaster ride with an ending you'll never forget.

This book restores the rich tradition of the Sibyls to the position of prominence they once held in the culture and society of the English Renaissance. The sibyls — figures from classical antiquity — played important roles in literature, scholarship and art of the period, exerting a powerful authority due to their centuries-old connection to prophetic declamations of the coming of Christ and the Apocalypse. The identity of the sibyls, however, was not limited to this particular aspect of their fame, but contained a fluid multi-layering of meanings given their prominence in ancient Greek and Roman cultures, as well as the widespread dissemination of prophecies attributed the sibyls that circulated through the oral tradition. Sibylline prophecy of the Middle Ages served as another conduit through which sibylline authority, fame, and familiarity was transmitted and enhanced. Writers as disparate as John Foxe, John Dee, Thomas Churchyard, John Fletcher, Thomas Heywood, Jane Seager, John Lyly, An Collins, William Shakespeare, and many draw upon this shared sibylline tradition to produce particular and specific meanings in their writing. This book explores the many identities, the many faces, of the prophetic sibyls as they appear in the works of English Renaissance writers.

Individually and collectively, these essays establish a new direction for scholarship that examines the crucial activities of reading and writing about literature and how they relate to 'authenticity'. Though authenticity is a term deep in literary resonance and rich in philosophical complexity, its connotations relative to the study of literature have rarely been explored or exploited through detailed, critical examination of individual writers and their works. Here the notion of the authentic is recognised first and foremost as central to a range of literary and philosophical ways of thinking, particularly for nineteenth-century poets and novelists. Distinct from studies of literary fakes and forgeries, this collection focuses on authenticity as a central paradigm for approaching literature and its formation that bears on issues of authority, self-reliance, truth, originality, the valid and the real, and the genuine and inauthentic, whether applied to the self or others. Topics and authors include: the spiritual autobiographies of William Cowper and John Newton; Ruskin and travel writing; British Romantic women poets; William Wordsworth and P.B. Shelley; Robert Southey and Anna Seward; John Keats; Lord Byron; Elizabeth Gaskell; Henry David Thoreau; Henry Irving; and Joseph Conrad. The volume also includes a note on Professor Vincent Newey with a bibliography of his critical writings.

Man was called to dominion (Gen. 1:26-28), and to establish his reign over the world under God. By his fall, man introduced the reign of death into the world, and as long as he remains in the Fall, sin reigns in him unto death, both in time and eternity. Christ, however, by His grace and the gift of righteousness, enables man to reign in this world, and to reign through righteousness in time and eternity. Salvation means reigning. As formerly rebellious slaves, we are now established in kingship, and described as "more than conquerors" (Rom. 8:37) in Christ, because we are also kings. The full meaning of salvation cannot be understood apart from the fact of reigning. The multiple use of the word "reign" in Romans makes clear the centrality of reigning in the doctrine of redemption. To defer this fact to another world is a false separation into two alien realms - one (the material) surrendered to one god, and the other (spiritual) reserved for the other god. Neither is Biblical. St. Paul is emphatic: we "reign in life." The Biblical doctrine of salvation requires it.

After the terrorist explosion in which he is believed to have died, Tom Gray has been living a quiet life in the Philippines as Sam Grant, under the watchful eye of his government handler, James Farrar. His peace is short-lived; Farrar recruits him for a mission that needs Grant's particular skills, but fate intervenes when Grant is taken hostage in the southern islands by Abu Sayyaf, a militant organisation, and comes face-to-face with a dangerous former enemy. Gray Resurrection, the second book in the series, is an exciting and fast-paced thriller with an explosive conclusion that reintroduces the inimitable man-of-action, Tom Gray.
