

Growing Colors Avenues

Here too are recollections of Hollywood's effects on local culture, the precedent-setting merger of the black and white musicians' unions, and the repercussions from the racism in the Los Angeles Police Department in the late 1940s and early 1950s.

This novel is about two protagonists who were born and raised during the Great Depression in a working class neighborhood in a large metropolitan city inhabited by Italian immigrants and their first-generation American children. At an early age, these Americans recognized and understood they were bounded and yet isolated from the Anglo-middle class neighbors; they were considered different and not permitted to enroll in certain grade and high schools in their areas. As they matured into their teens, they wondered if they could eventually compete outside of the environment they were born into. One of the protagonists insisted that only on the Avenue could they exist and survive, be safe and be happy and be respected. And there he lived and died. The other protagonist risked moving out of the Avenue. He was willing to see if he could compete with those outside the Avenue and perhaps be assimilated in their environment, but vowing that if his venture was not successful, he could always return to the Avenue again. And so they lived their respective lives, one in the area of the Avenue, the other never to live on the Avenue again.

NASCAR Winston Cup stock car racing is America's fastest growing and most popular spectator sport. This book is a cultural and social reading of Winston Cup racing, the people who made the sport what it is today, and the corporations who sponsor the participants during their thirty-two race, ten-month quest for the national championship.

Throughout America's political history, elected leadership has worked diligently to build a nation "of the people, by the people, and for the people." Yet, even as American society was being formed, the founding fathers warned future generations of the possibility that the Republic could take a wrong turn from the path of the Constitution, and destroy the original intent of the founders. Today we may be experiencing a government that our founding fathers warned about. What's more, this frightening trend can be tied directly to Bible prophecy. America is the end time gentile nation raised up to be a "spiritual Israel," until the days when God would once again restore His chosen people, Israel. America is experiencing change and transition as we enter the time of the end. From the founding of the nation, to the American Revolution and the Civil War, you will discover America's prophetic destiny is found in parallel stories, Hebrew patterns and prophetic dates. From the prophecies concerning the presidents to the astonishing patterns of the tabernacle and emblems of the tribes found in America and in Washington, D.C., this book will reveal America's prophetic past, present and future.

"The Master of Seventh Avenue is the definitive biography of David Dubinsky (1892-1982), one of the most controversial and influential labor leaders in 20th-century America. A 'character' in the truest sense of the word, Dubinsky was both revered and reviled, but never dull, conformist, or bound by convention. A Jewish labor radical, Dubinsky fled czarist Poland in 1910 and began his career as a garment worker and union agitator in New York City. He quickly rose through the ranks of the International Ladies' Garment Workers' Union (ILGWU)

and became its president in 1932. Dubinsky led the ILGWU for thirty-four years, where he championed 'social unionism,' which offered workers benefits ranging from health care to housing. Moving beyond the realm of the ILGWU, Dubinsky also played a leading role in the American Federation of Labor (AFL), particularly during World War II. A staunch anti-communist, Dubinsky worked tirelessly to rid the American labor movement of communists and fellow-travelers. Robert D. Parmet also chronicles Dubinsky's influential role in local, national, and international politics. An extraordinary personality whose life and times present a fascinating lens into the American labor movement, Dubinsky leaps off the pages of this meticulously researched and vividly detailed biography"--Publisher description.

Paul Auster and J. M. Coetzee are respectively responsible for some of the great contemporary works of fiction: Auster's *The New York Trilogy* or Coetzee's *Disgrace* are only two of these authors' legendary works. In *Here and Now*, these remarkable thinkers are brought together in print for the first time. Although Auster and Coetzee had been reading each other's books for years, the two writers did not meet until February 2008. Not long after, Auster received a letter from Coetzee, suggesting they begin exchanging letters on a regular basis and, 'God willing, strike sparks off each other.' *Here and Now* is the result of that proposal: an epistolary dialogue between two great writers who became great friends. Over three years their letters touched on nearly every subject, from sports to fatherhood, film festivals to Israel and Palestine, philosophy to politics, from the financial crisis to art, family, marriage, friendship, and love. Their correspondence offers an intimate and often amusing portrait of these two men as they explore the complexities of the here and now, and reflects two sharp intellects whose pleasure in each other's friendship is apparent on every page.

In a revelatory study of Philadelphia's Germantown Avenue, home to a diverse array of more than 90 congregations, Katie Day explores the formative and multifaceted role of religious congregations within an urban environment.

In 1969 during her seventeenth summer, Alex discovered the exciting world of artists, musicians, drugs and hippies on Telegraph Avenue in Berkeley. It was there she met Michael, an artist, musician and draft dodger, who like herself came from a dysfunctional home. Alex desperately escapes the grim home of her alcoholic parents and goes to Telegraph Avenue and to Michael, the only one whom she feels understands her. In the house he shares with his roommate and fellow musician Jonathan, the three of them form a close friendship. Alex and Michael help to heal each other's painful pasts, but their relationship becomes a perilous journey through love and danger amid the tumultuous backdrop of social protests and the Vietnam war. When Michael agrees to hold a stolen package for his childhood friend Tom, a Hells Angel, the three of them are watched by the Secret Service, Tom's brother and a wealthy couple in the printing business, who are all in search of the stolen article. In a daring act to rid themselves of the package, they set off a chain of events that ends the life of one and changes that of the others forever.

On March 3, 1871, Congress established the United States Centennial Commission, charged with "an International Exhibition of Arts, Manufactures, and Products of the Soil and Mine." Philadelphia was chosen as the site of the Centennial Exhibition. On June 5, 1874, President Grant extended invitations to the governments of the world to participate in the Exhibition. All thirty-nine nations accepted. This was a six-month international event, running from May 1876 to November 1876. The Centennial Exhibition attracted over ten million visitors. It was a showcase of American ingenuity and inventions. Typewriters, telephones, and steam pistons as well as art were displayed. The invited countries displayed their own national products and art. The Turkey delegation brought its crown jewels. While City Council argued about final funding for City Hall, the population and visitors celebrated. American women could not vote. Discrimination and persecution against African Americans was prevalent. Regardless, people met, fell in love, and committed crimes.

This volume contains papers selected for presentation at the 6th IAPR Workshop on Document Analysis Systems (DAS 2004) held during September 8–10, 2004 at the University of Florence, Italy. Several papers represent the state of the art in a broad range of “traditional” topics such as layout analysis, applications to graphics recognition, and handwritten documents. Other contributions address the description of complete working systems, which is one of the strengths of this workshop. Some papers extend the application domains to other media, like the processing of Internet documents. The peculiarity of this 6th workshop was the large number of papers related to digital libraries and to the processing of historical documents, a taste which frequently requires the analysis of color documents. A total of 17 papers are associated with these topics, whereas two years ago (in DAS 2002) only a couple of papers dealt with these problems. In our view there are three main reasons for this new wave in the DAS community. From the scientific point of view, several research fields reached a thorough knowledge of techniques and problems that can be effectively solved, and this expertise can now be applied to new domains. Another incentive has been provided by several research projects funded by the EC and the NSF on topics related to digital libraries.

In the summer of 1957, two rival gangs fight for control of the Avenue, a neighborhood in the north Bronx. The mafia, led by Albert Anastasia—a man known as the high executioner—is the only force holding the gangs back from all-out war. Since such a conflict would cripple the mafia's drug and gambling empire, a warning is delivered to the gangs: make a move, and you'll pay for it. Johnny Piscalli, leader of the Italian Berettas, and Louis Washington, leader of the Egyptian Kings, try to contain their respective gang members, knowing it would take very little to light the fuse. The situation ignites when the sister of an Egyptian King is abducted, beaten, raped, and left for dead. If the girl identifies her attacker, a race war is certain—so the mafia plans to eliminate her. Twenty years later, a priest is murdered while taking confession in a north Bronx church. More bodies turn up around the country, too, with one common denominator: the Avenue. Local cop Lieutenant Billy Mongelli teams up with FBI Agent Lou Lozzino to find the answers to these killings—but in order to do so, they must return to 1957 and stop a conflict decades in the making.

"In the summer of 1939, Munich, 'The Home of the Monks', was a lovely city." Feared SS General Sepp Dietrich drives through the almost bucolic tree-lined streets. His SS driver stops the black Mercedes at the door of noted banker and art collector, Solomon Roth, who has traded his superb collection of Impressionist paintings to Reichsmarshal Herman Goering in exchange for the safe passage of his wife and children out of Nazi Germany. One painting remains, a magnificent self-portrait by Vincent Van Gogh. In the spring of 1945 Munich is a very different city, much of it transformed into a wasteland by Allied bombing. American army sergeant Henry, 'Hank', Dryden enters the former Roth home searching for weapons and takes the portrait. For half a century, the painting lies undiscovered in Dryden's closet in Del Mar, California until feeling his mortality, Hank, enlists the help of his grandson John, a public interest lawyer in Southgate, to determine if it is genuine and if so to sell it. John unwittingly enters the fascinating world of fine art auctions where the richest and most powerful men and women on earth play for stakes that dwarf any in Monte Carlo, Macao, or Las Vegas and millions depend on the wave of a hand or a finger to the nose. Based on true accounts and

experiences accumulated during more than 40 years attending, bidding, and selling at auctions in the United States and Europe, Park Avenue is enriched by specific factual detail as well as a classic examination of the workings of the human heart as the Drydens are affected by the ageless lure of undreamt of wealth. Michael R. Zomber was born in Washington D.C. and educated at Oberlin College, Villanova University, the University of Illinois, and UCLA. He received his M.A. in English Literature from UCLA. The son of two Holocaust survivors who escaped Nazi Germany in 1939, he knew nothing of his Jewish heritage until the age of ten. Following this revelation he became aware of world history and developed a keen interest in the arms and armor of Europe, the Middle East, and Japan. His grandfather, Robert Eisner, collected paintings by the Impressionist masters and these images by Renoir, Degas, and Gauguin fed his youthful artistic sensibility. In 1961 Parke Bernet Galleries sold Rembrandt's Aristotle Contemplating the Bust of Homer to the Metropolitan Museum for a world record price and from then on Michael Zomber followed the sale results of works of art at auction as closely as he followed major league baseball statistics.

The scholarship on Martin Luther King Jr. has too often cast him in the image of the Southern black preacher and the American Gandhi, while ignoring or trivializing his global connections and significance. This groundbreaking work, written by scholars, religious leaders, and activists of different backgrounds, addresses this glaring pattern of neglect in King studies. King is treated here as both a global figure and a forerunner of much of what is currently associated with contemporary globalization theory and praxis. The contributors to this volume agree that

King must be understood not only as a thinker, visionary, and social change agent in his own historical context, but also in terms of his meaning for the different generations who still appeal to him as an authority, inspiration, and model of exemplary service to humanity. The task of engaging King both in context and beyond context is fulfilled in remarkable ways in this volume, without doing essential violence to this phenomenal figure.

Until now, most works on the history of African Americans in advertising have focused on the depiction of blacks in advertisements. As the first comprehensive examination of African American participation in the industry, *Madison Avenue and the Color Line* breaks new ground by examining the history of black advertising employees and agency owners. For much of the twentieth century, even as advertisers chased African American consumer dollars, the doors to most advertising agencies were firmly closed to African American professionals. Over time, black participation in the industry resulted from the combined efforts of black media, civil rights groups, black consumers, government organizations, and black advertising and marketing professionals working outside white agencies. Blacks positioned themselves for jobs within the advertising industry, especially as experts on the black consumer market, and then used their status to alter stereotypical perceptions of black consumers. By doing so, they became part of the broader effort to build an African American professional and entrepreneurial class and to challenge the negative portrayals of blacks in American culture. Using an extensive review of advertising trade journals, government documents, and organizational papers, as well as personal interviews and the advertisements themselves, Jason Chambers weaves individual biographies together with broader events in U.S. history to tell how blacks struggled to bring equality to the advertising industry.

This is a book of poetry. It expresses the impact personal childhood memories have had on the author's adult life. The author shares personal narratives to demonstrate how she has been shaped by her family, the African American culture, and most importantly, by her Christian belief. Her stories emphasize the vital role a child's home environment can play in all aspects of the child's adult life, both positively and negatively. Her poetry has been inspired by her thirty-three years' experience as an educator. The reader will gain an enlightened perspective about the challenges being managed in today's public schools. A few poems even inspire solutions. She is convinced that her Christian belief system has the power to transform lives. Her desire is for her poetry to inform churches of the social ills threatening our children's future, in hope that the Church will be moved to action, spreading the good news. She knows from personal experience that living according to a godly belief system can improve anybody's quality of life. The poems are simple to understand but are able to engage the reader in meaningful thoughts. Discover the experience for yourself, and then share it with others.
