

Guide To Rhinos

This children's guidebook about the Rhinoceros (Rhinos) is designed to teach younger kids about this beautiful wild animal without including any pictures that may be considered too visually strong for them to see. "Rhinos! A Children's Guide" is geared toward the younger reader, and is written in a kid-friendly way so they can learn about these brilliant and dangerously endangered creatures. There are complete chapters on each of the remaining five species of Rhinos, including where they live (habitats), what they eat (diet), their behaviors, reproduction and, of course, their unusual bodies (anatomy). The dozens of gorgeous color pictures include photos of each species of Rhino, including close-ups of their skin, feet, eyes and horns. I've also included a bunch of "Bonus Pictures" just for fun. There is also a complete "Dictionary" to explain some words the children may not know just yet, as well as a "Resources" section so they can find out even more info online about the Rhinoceros. The kids will enjoy the "Fun Facts" sprinkled throughout the book as well as the maze puzzle for them to help the Daddy Rhino find his way home to his family. "Rhinos!" answers such questions as: How many horns does a Rhino have? Why is their skin so wrinkly, thick and weird looking? Do Rhinos eat meat? Are they really in danger of disappearing from the planet? How fast can a Rhino run?...and more! Here are the Rhinos in the book: Black Rhino White Rhino Greater One-Horned Rhino/Indian Rhino Sumatran Rhino Javan Rhino Order your own copy today!

The Rough Guide to South Africa is the definitive guide to one of the world's most fascinating and varied countries. Now available in PDF format. Make the most of your time on Earth™ with The Rough Guide to South Africa.

Unlock the more straightforward side of Rhinoceros with this concise and insightful summary and analysis! This engaging summary presents an analysis of Rhinoceros by Eugène Ionesco, which tells the story of a small town that is suffering from a 'rhinocerotitis' epidemic. One by one, the inhabitants all turn into rhinoceroses until only one man remains, determined to fight for his humanity. It is often considered to be a response to the rise of communism, fascism and Nazism during the interwar period, although its definitive meaning has not been revealed. Many of Ionesco's works depict the solitude and insignificance of human existence, making for thought-provoking and controversial plays. Find out

everything you need to know about Rhinoceros in a fraction of the time! This in-depth and informative reading guide brings you: • A complete plot summary • Character studies • Key themes and symbols • Questions for further reflection Why choose BrightSummaries.com? The ultimate illustrated guide to the lost world of prehistoric mammals After the mass extinction of the dinosaurs 65 million years ago, mammals became the dominant terrestrial life form on our planet. Roaming the earth were spectacular beasts such as saber-toothed cats, giant mastodons, immense ground sloths, and gigantic giraffe-like rhinoceroses. Here is the ultimate illustrated field guide to the lost world of these weird and wonderful prehistoric creatures. A woolly mammoth probably won't come thundering through your vegetable garden any time soon. But if one did, this would be the book to keep on your windowsill next to the binoculars. It covers all the main groups of fossil mammals, discussing taxonomy and evolutionary history, and providing concise accounts of the better-known genera and species as well as an up-to-date family tree for each group. No other book presents such a wealth of new information about these animals—what they looked like, how they behaved, and how they were interrelated. In addition, this unique guide is stunningly illustrated throughout with full-color reconstructions of these beasts—many never before depicted—along with photographs of amazing fossils from around the world. Provides an up-to-date guidebook to hundreds of extinct species, from saber-toothed cats to giant mammoths Features a wealth of color illustrations, including new reconstructions of many animals never before depicted Demonstrates evolution in action—such as how whales evolved from hoofed mammals and how giraffes evolved from creatures with short necks Explains how mass extinctions and climate change affected mammals, including why some mammals grew so huge The book is written in a simple, easy to read but highly informative manner. Clinton Freedman covers everything you always wanted to know about rhino beetles: facts, types, strength, size, and weight with a special focus keeping and caring for rhinoceros beetles. This book is filled with sound information, advice and practical tips.

This book is a must-have for anyone with a passion for rhinoceros beetles. Hercules beetle information, rhino beetle's life cycle, lifespan, habitat, diet, care, breeding, where to find beetles and larvae for sale all covered. This is a complete owner's guide designed to answer your most burning questions on caring for and breeding rhinoceros beetles in a clear and simple manner. The book is written in a simple, easy to read but highly informative manner. Peter Bari covers everything you always wanted to know about rhino beetles: facts, types, strength, size and weight with a special focus keeping and caring for rhinoceros beetles. This book is filled with sound information, advice and practical tips.

A Study Guide for Eugene Ionesco's "Rhinoceros," excerpted from Gale's acclaimed Drama

For Students. This concise study guide includes plot summary; character analysis; author biography; study questions; historical context; suggestions for further reading; and much more. For any literature project, trust *Drama For Students* for all of your research needs.

This is an exciting story about three African safaris. The countries visited were South Africa, Namibia, Botswana, Zimbabwe, Lesotho, and Eswatini. It transports the reader to the beauty of the African country and its wildlife, filling them with the joy of travel and the wonder of God's creations. It is written in a daily journal and pictorial format that informs the reader about the places visited with some history of those places, events that took place, as well as detailed descriptions of the wildlife encountered along the way with a wide variety of color photographs. The story begins with an informative introduction, which provides the reader the necessary background information so one can feel connected by establishing a solid understanding of what the story is about. It opens the reader's eyes to the wonders of God, including Scripture verses effectively placed within the text.

It has been many years since the last book on golfing in Kenya was written. Comprehensive in its coverage, this guide covers all aspects of golfing in Kenya. It has been written with the visiting golfer in mind, but is nonetheless candid and includes much local humour and club lore. Cartoons, area and course maps and photographs in full colour, and descriptions of area side-trips and diversions are also included. Background information on the history of the sport, and planning a golfing safari are given. Five chapters cover the five sections of the country into which the golf courses have been grouped, each section giving an area map and club fact files, and an overview of play for the course. The final part of the book gives information about getting about, accommodation, and other useful travel information.

Go get the life you want. Be a Rhinoceros! There is something dangerous about this book. Something big. Something full of power, energy and force of will. It could be about you. You could become three tons of thick-skinned, snorting hard-charging rhinoceros. It is time to go get the life you want.

Rhinos! A Children's Guide | Independently Published

A world renowned safari guide and author offers incredible true tales from his forays into Botswana, South Africa, Mozambique, and Namibia, relating such encounters as having to spend the night in a thorn tree with marauding hyenas below, finding a leopard in his tent with him in it, and more. Original.

Full 30-Day workbook section that you can write in and complete at your own pace. Full-pass access to the corresponding Animal Module (Rhino) on the Firefly Membership Site with audio and video meditations, layouts, prompts, and challenges unique to your animal guide.

"An extraordinary exploration and meditation . . . [Bass] transports us along on this wonder-filled tour, full of hardness and hope, into an otherworldly place that mirrors our own."

—National Geographic Traveler Black rhinos are not actually black. They are, however, giant animals with tiny eyes, feet the diameter of laundry baskets, and horns that are prized for both their aesthetic and medicinal qualities. Until recently, these creatures were perched on the edge of extinction, their numbers dwindling as they succumbed to poachers and the ravages of civil war. Now their numbers are rising, thanks to a groundbreaking new conservation method from the Save the Rhino Trust: make sure that rhinos are worth more alive than dead. Rick Bass, who has long worn the uneasy mantle of both activist and hunter, traveled to Namibia to find black rhinos. The tale of his journey provides a deeper understanding of these amazing animals and of just what needs to be done to protect them. "Bass provides a singularly thoughtful portrait of a unique animal, and a meditation on mankind's relationship to both it and the natural world as a whole." —Minneapolis Star Tribune
