As with Volume One, over 800 rare and fascinating photos (including sumptuous full-color spreads) help to tell the tale of these innovative instruments. Includes a helpful index. Part of a two book set, this book provides information on guitar bodies, necks, headstocks, bridges, woods, as well as other chapters covering Models by Style, the Custom Shop and limited editions. All the lesser known instruments like archtops, electrics, mandolins and ukuleles are included as well, all very collectible. The book ends with exhaustive appendices covering production numbers, retail prices, and instrument specifications. Since Martin guitars are the world's most collectible acoustic guitarline, this book will undoubtedly be the most sought after reference book by any collector or owner of a Martin.
