

## Handcrafting Artisan Shampoo Bars From Your Kitchen

Learn to safely and accurately make soap by hand at home. This workbook and companion class include soapmaking safety, creating a soap recipe to fit a mold, understanding oil specification sheets and saponification values, calculating lye quantities without using a "lye calculator," and formulating the soap recipe with the correct ingredient proportions necessary to complete the saponification reaction in the mold. Cold process soap does not have to be shelved to cure for six weeks when using the formulas and methods taught in the workbook and class. Enjoy the craft of making handmade soap from scratch using natural oils and safely use a bar of soap the same week it was made.

Handmade soap is made extra-special with the addition of milk! Soaps enriched with milk are creamier than those made with water, and milk's natural oils provide skin-renewing moisture and nourishment. In *Milk Soaps*, expert soapmaker Anne-Marie Faiola demystifies the process with step-by-step techniques and 35 recipes for making soaps that are both beautiful and useful. She explains the keys to success in using a wide range of milk types, including cow, goat, and even camel milk, along with nut and grain milks such as almond, coconut, hemp, rice, and more. Photographs show soapmakers of all levels how to achieve a variety of distinctive color and shape effects, including funnels, swirls, layers, and insets. For beginners and experts alike, this focused guide to making milk-enriched soaps offers an opportunity to expand their soapmaking skills in new and exciting ways. This publication conforms to the EPUB Accessibility specification at WCAG 2.0 Level AA.

Making your own shampoo may seem like a chore, but it really is easier than you would believe. Furthermore, breaking away from commercially produced shampoos filled with unnecessary and potentially harmful ingredients is the best thing you can do for your hair, as well as your overall health and well-being. And "Learn How to Make Homemade Shampoo: DIY Shampoo Recipes for Healthier and Happier Hair" will show you how. Not only will you learn how to make your own homemade shampoo that is better for your hair than commercially produced products, but this book also shows you how to create dry shampoo and shampoo bars. Every one of the 25 recipes included has been tested for accuracy and includes: -Serving size so you know how much it makes, -Time it will take to recreate the recipe, -Complete ingredient list, -Instructions written in a step-by-step manner that anyone can follow. The recipes range from simple, requiring only 3 ingredients, to more complex that require the use of lye and curing. The thing that these recipes have in common, however, is that they will make your hair and your scalp healthier than they have ever been. Making your own shampoo has many benefits that well out way the extra time it takes to make the shampoo. Since you have complete control over what does and doesn't go into the shampoo, you can omit certain ingredients or replace them with another. For example, not a fan of lemon? Then replace the lemon essential oil with another essential oil that you prefer. This is just one of the many benefits that homemade shampoos provide, and you will learn about the other benefits in this book. So what are you waiting for? This publication is a testament to the potential of integrating traditional and scientific knowledge of both local communities and academic and development professionals alike. It also serves as a reminder to the scientific community that science should be shared with local people and not confined to journals and closed circles of technical experts. Scientists and forest-reliant communities are geographically and conceptually distant. Scientific findings are rarely shared with local people and locals are infrequently consulted regarding the species and landscapes they have known for generations. To bridge this divide, this book weaves together the voices of farmers and scientists; hunters and policy makers; midwives and musicians. From Brazil nuts and Cat's claw to Copaiba and Titica, this book shares a wealth of information on a wide range of plant species that comes only from the close collaboration between local peoples and researchers.

"Imagine coming home at the end of a long, challenging day at work to a warm bath, surrounded by the glow of relaxingly scented candles. As you dip your feet into the water, you feel its warmth wash over you. You grab the handcrafted bar of soap off the side of the tub. As you lather up, you're confident that the ingredients are organic and safe for your skin. The smell, the

ambiance, and the bubbles melt away the day's worries. In this book, I will show you exactly how to create lovely candles and artisan soaps from the comfort of your home. I don't just stop there! I will also guide you in starting your own business selling these distinctive handcrafted items. This extensive book is broken into three distinct parts: all about making soap, all about making candles, and all about how to make those crafts into a lucrative business. When you're finished with this book, you will know all about how to create beautiful artisan soap and candles and how to create a business selling them, too."--Back cover.

SPECIAL NOTE! -- ANNE WILL PERSONALLY ANSWER ANY QUESTION OF YOURS AFTER READING THIS BOOK. ASK ON HER WEB SITE, AND YOU'LL NORMALLY HEAR BACK WITHIN HOURS! Maybe you've made melt-and-pour soap and want to move on to something more challenging and rewarding. Maybe traditional soapmaking appeals to you, but you figure that working with lye is too difficult or dangerous. Or maybe you're already doing it, but outmoded ideas and methods are complicating the process and slowing you down. No matter which of these fits you, you'll find "Smart Soapmaking" practical, helpful, and refreshing. Written by a former professional soapmaker, this book explodes the myths about soapmaking and shows you how to make luxurious soap from scratch with the least fuss and bother. With both customary and metric measurements, plus a list of suppliers in five countries, "Smart Soapmaking" is the first truly international book on the craft!   
////////// Anne L. Watson is the first author to have introduced modern techniques of home soapmaking and lotionmaking to book readers. She has made soap under the company name Soap Tree, and before her retirement from professional life, she was a historic preservation architecture consultant. Anne and her husband, Aaron Shepard, live in Friday Harbor, Washington.   
////////// \*\*\*\*\*RECOMMENDED BY THE HANDCRAFTED SOAP & COSMETIC GUILD\*\*\*\*\* "Should become THE book for soapmaking. . . . It's about time someone wrote a book like this. Most are idealistic and inaccurate. This book has a wonderful common sense approach that is SO long overdue. . . . I can recommend it with 100% confidence." -- Susan Kennedy, Oregon Trail Soaps, Rogue River, Oregon "Smart it is . . . . A simple, no-nonsense book that cuts through the curmudgery of stifling soap bibles like no other." -- Shellie Humphries, Harstine Island, Washington "Way overdue. . . . A gift of common sense caution, proven methods, tried-and-true shortcuts, and some excellent recipes as well, for both the professional/experienced soapmaker and the eager beginner." -- Deb Petersen, Shepherd's Soap Co., Shelton, Washington "A great book for beginners, with clear and easy instructions." -- Anne-Marie Faiola, Bramble Berry Inc., Bellingham, Washington "I learned more from Smart Soapmaking than from any other soaping book, and I have read quite a few. . . . It's written with the average person in mind, not a chemistry major. Directions are very simple and easy to understand. It really takes the mystery out of making soap." -- Jackie Pack, Stuart, Virginia "Groundbreaking . . . . Anne L. Watson [is the] universally respected and loved author/crafter/curator of this lost art for thousands of aspiring soapers . . . . Unquestionably the best book with which to begin. To be precise, it's probably the most accessible, most reader-friendly, and most immediately useful container of information a first-time soapmaker could hope to find." -- Wishing Willow (blog)

Shivya Nath quit her corporate job at age twenty-three to travel the world. She gave up her home and the need for a permanent address, sold most of her possessions and embarked on a nomadic journey that has taken her everywhere from remote Himalayan villages to the Amazon rainforests of Ecuador. Along the way, she lived with an indigenous Mayan community in Guatemala, hiked alone in the Ecuadorian Andes, got mugged in Costa Rica, swam across the border from Costa Rica to Panama, slept under a meteor shower in the cracked salt desert of Gujarat and learnt to conquer her deepest fears. With its vivid descriptions, cinematic landscapes, moving encounters and uplifting adventures, *The Shooting Star* is a travel memoir that maps not just the world but the human spirit.

This is the first book published with recipes, methodology and tips on how to make Melt and Pour Soap from Scratch. It is written from the perspective of a Cosmetic Formulator on the production of the popular cosmetic base known as, Melt and Pour Soap. Whether you are a crafter, hobbyist or business owner this book has everything that you need. This book give you guidance on how, as a small home based business, you can follow the regulations, labeling laws and industry standards for selling soap and cosmetics. My

entire journey into the cosmetic industry started with Melt and Pour Soap shortly after I discovered aromatherapy. The roots of our business, Essential Wholesale, all started in December of 1998. Over the years we moved from our home kitchenette to a 600 square foot space, to a 2500 square foot building, to a 10,000 square foot space in a bigger building, and from there we have expanded into 30,000 square feet of that same building. In 2011 our business will be moving to an even larger 58,000 square foot building. As our business expanded we began to focus on natural cosmetics and personal care products. However, I never lost my curiosity and fascination with Melt and Pour Soap. Our relationship with Melt and Pour Soap changed over the years. At first we sold retail customized Melt and Pour Soaps. We then bought and sold the company Critter Soaps. Later we sold thousands of pounds worth of wholesale Melt and Pour Soap base and eventually discontinued selling Melt and Pour Soap because the price kept rising. At the time Melt and Pour Soap was the only cosmetic base we sold that we didn't manufacture ourselves. It simply didn't make sense to wholesale someone else's base when our business model had changed to selling only the bases we manufactured ourselves. It was at this point in our business that I decided it was time to formulate our own Melt and Pour Soap ourselves. It didn't take long to have working formulas, but at that moment we were using up every inch of space in our 30,000 square foot building. We were bursting at the seams and couldn't accommodate the manufacturing and cooling of the Melt and Pour Soap Base in bulk. Our space was so tight we couldn't possibly cool an 8,000 lb batch of Melt and Pour Soap base into multiple 1 lb, 20 lb and 40 lb blocks to sell in bulk. But we got continued requests to manufacture and sell Melt and Pour Soap base. My solution is this book. I decided to share these basic recipes with you to give you the freedom to make your own Melt and Pour base in the quantities that work best for your business. These recipes will teach you the foundational information that you need and give you tips on how to customize your base.

In this comprehensive guide, Susan Miller Cavitch covers everything you need to know to make your own soaps. Learn the basic techniques for crafting oil-, cream-, and vegetable-based soaps, and then start experimenting with your own personalized scents and effects. Cavitch provides tips for making more than 40 different specialty soaps, showing you how to design colorful marbled bars and expertly blend ingredients to create custom fragrances. You'll soon be making luxurious soaps at a fraction of the cost of boutique products. Important Notice Early printings of this book contain a recipe variation in a sidebar note on page 36. As a result of further testing, author Susan Miller Cavitch and Storey Publishing strongly recommend that you do not try this variation. Adding honey when you are combining the sodium hydroxide and water may result in a stronger reaction with more intense heat. The mixture may bubble up quickly and come out of the pot, posing a potential hazard.
