* Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. As you read this summary, you will discover that you must be wary of the notion of success as well as the notion of failure. You will also discover : that your identity is built on very precise archetypes; that, during your youth, your definitions of success and failure are conditioned by the example of your parents; that accumulating experience rather than looking for quick success will allow you to assimilate values that will bring you more lasting success; that it is important to be bold and inventive, even after you have succeeded, and even as you get older; that defeat can be an opportunity to reinvent yourself more freely; that it is by transcending both triumph and disaster that you will truly flourish. In 218 BC, Hannibal and his army, after crossing the Alps, arrived in Italy. Over the next year, Hannibal triumphed over Roman armies one after the other, despite having fewer troops. The tactics he devised are legendary and are still studied in military schools today. After this

series of overwhelming victories, it was clear to the Carthaginians, as to the Romans, that the war was coming to an end. Hannibal had demonstrated his superiority in battle, and was considered invincible: he personified success. However, while Hannibal remained in Italy for 14 years, and although he remained undefeated during that time, he never conquered Rome. Moreover, a few decades later, the Romans decided to avenge the affront by wiping Carthage off the map. The story of Hannibal Barca, who had devoted his life to the destruction of Rome, who wanted to avenge Carthage and bring it back to prosperity, is that of a bitter failure. How could such resounding triumphs lead to such a disaster? What lessons can we learn from this well-known figure in history? *Buy now the summary of this book for the modest price of a cup of coffee!

The Romans' destruction of Carthage after the Third Punic War erased any Carthaginian historical record of Hannibal's life. What we know of him comes exclusively from Roman historians who had every interest in minimizing his success, exaggerating his failures, and disparaging his character. The charges leveled against Hannibal include greed, cruelty and atrocity, sexual indulgence, and even cannibalism. But even these sources were forced to grudgingly admit to Hannibal's military genius, if only to make their eventual victory over him appear greater. Yet there is no doubt that Hannibal was the greatest Carthaginian general of the Second Punic War. When he did not defeat them outright, he fought to a standstill the best generals Rome produced, and he sustained his army in the field for sixteen long years without mutiny or desertion. Hannibal was a first-rate tactician, only a somewhat lesser strategist, and the greatest enemy Rome ever faced. When he at last met defeat at the hands of the Roman general Scipio, it was against an experienced officer who had to strengthen and reconfigure the Roman legion and invent mobile tactics in order to succeed. Even so, Scipio's victory at

Abraham Lincoln raved that this series of historical biographies gave him "just that knowledge of past men and events which I need. I have read them with the greatest interest. To them I am indebted for about all the historical knowledge I have."

Considered what we would now call "young adult" literature, this collection, first published between 1848 and 1871, was designed to present a clear, distinct, connected narrative of the lives of the great figures of world history, those people who have been most influential, at least as American author and educator JACOB ABBOTT (1803-1879) saw it from his 19th-century perspective. Wildly popular and republished many times under different collected names, this replica set mimics the 1904 reprint known as the "Makers of History" series. It will delight students of history as well as show the scholar how history telling has changed over the last few centuries. More than 30 other volumes in the series are also available from Cosimo Classics. This volume,

dating from 1849, covers legendary military commander Hannibal (248- c. 183 BC, from the First Punic War through his famous crossing of the Alps to the destruction of Carthage.

Hannibal is “an exciting biography of one of history’s greatest commanders...a thrilling page-turner” (Kirkus Reviews, starred review) about the brilliant general who successfully crossed the Alps with his war elephants and brought Rome to its knees, and who is still regarded today as one of the greatest military strategists in history. Hannibal Barca of Carthage, born 247 BC, was one of the great generals of the ancient world. His father, Hamilcar, imposed Carthaginian rule over much of present-day Spain. After Hamilcar led the Carthaginian forces against Rome in the First Punic War, Hannibal followed in his father’s footsteps. From the time he was a teenager, Hannibal fought against Rome. He is famed for leading Carthage’s army across North Africa, into Spain, along the Mediterranean coast, and then crossing the Alps with his army and war elephants. Hannibal won victories in northern Italy by outmaneuvering his Roman adversaries and defeated a larger Roman army at the battle of Cannae in 216 BC. Unable to force Rome to capitulate, however, he was eventually forced to leave Italy and return to Carthage when a savvy Roman general named Scipio invaded North Africa. Hannibal and Scipio fought an epic battle at Zama, which Hannibal lost. Many Carthaginians blamed Hannibal, who was exiled until his death. Hannibal is still regarded as a military genius. Napoleon, George Patton, and Norman Schwarzkopf, Jr. are only some of the generals who studied and admired him. His strategy and tactics are still taught in military academies. “With wonderful energy...archeologist and historian Patrick Hunt distills his survey of literature about the Second Punic War into a brightly dramatic story that covers virtually every anecdote

Mark Twain has been called the American Cervantes, our Homer, our Tolstoy, our Shakespeare. Ernest Hemingway maintained that "all modern American literature comes from one book by Mark Twain called *Huckleberry Finn*." President Franklin

Delano Roosevelt took the phrase "New Deal" from A Connecticut Yankee in King Arthur's Court. Twain's Gilded Age gave an entire era its name. Twain is everywhere--in ads for Bass Ale, in episodes of "Star Trek," as a greeter in Nevada's Silver Legacy casino. Clearly, the reports of his death have been greatly exaggerated. In *Lighting Out for the Territory*, Twain scholar Shelley Fisher Fishkin blends personal narrative with reflections on history, literature, and popular culture to provide a lively and provocative look at who Mark Twain really was, how he got to be that way, and what we do with his legacy today. Fishkin illuminates the many ways that America has embraced Mark Twain--from the scenes and plots of his novels, to his famous quips, to his bushy-haired, white-suited persona. She reveals that we have constructed a Twain often far removed from the actual writer. For instance, we travel to Hannibal, Missouri, Mark Twain's home town, a locale that in his work is both the embodiment of the innocence of childhood and also an emblem of hypocrisy, barbarity, and moral rot. The author spotlights the fact that Hannibal today attracts hundreds of thousands of tourists and takes in millions yearly, by focusing on Tom Sawyer's boyhood exploits--marble-shoots and white-washed fences--and ignoring Twain's portraits of the darker side of the slave South. The narrative moves back and forth from modern Hannibal to antebellum Hannibal and to Mark Twain's childhood experiences with brutality and slavery. Her exploration of those subjects in his work shows that Tom Sawyer's fence isn't the only thing being white-washed in Hannibal. Fishkin's research yields fresh insights into the

remarkable story of how this child of slaveholders became the author of the most powerful anti-racist novel by an American. Whether lending his name to a pizza parlor in Louisiana, a diner in Jackson Heights, New York, or an asteroid in outer space, whether making cameo appearances on "Cheers" and "Bonanza," or turning up in novels as a detective or a love interest, Mark Twain's presence in contemporary culture is pervasive and intriguing. Fishkin's wide-ranging examination of that presence demonstrates how Twain and his work echo, ripple, and reverberate throughout our society. We learn that Walt Disney was a great fan of Twain's fiction (in fact, "Tom Sawyer's Island" in Disneyland is the only part of the park that Disney himself designed) as is Chuck Jones, who credits the genesis of cartoon character Wile E. Coyote to the comic description of a coyote in *Roughing It*. We learn of Mark Twain impersonators (Hal Holbrook, for instance, has played Twain in some 1,500 performances) and recent movie versions of Twain books, such as *A Million to Juan*. And we discover how Twain's image can be seen in claymation, in animatronics and robotics, in virtual reality, and on any number of home-pages on the Internet. *Lighting Out for the Territory* offers an engrossing look at how Mark Twain's life and work have been cherished, memorialized, exploited, and misunderstood. It offers a wealth of insight into Twain, into his work, and into our nation, both past and present.

In *The War with Hannibal*, Livy (59 BC-AD 17) chronicles the events of the Second Punic War between Rome and Carthage, until the Battle of Zama in 202 BC. He vividly

recreates the immense armies of Hannibal, complete with elephants, crossing the Alps; the panic as they approached the gates of Rome; and the decimation of the Roman army at the Battle of Lake Trasimene. Yet it is also the clash of personalities that fascinates Livy, from great debates in the Senate to the historic meeting between Scipio and Hannibal before the decisive battle. Livy never hesitates to introduce both intense drama and moral lessons into his work, and here he brings a turbulent episode in history powerfully to life.

Hannibal is acknowledged to be one of history's greatest generals, and his crossing of the Alps - complete with elephants - to make war against Rome on its home soil is legendary. But even Hannibal met his match in Scipio, and ultimately Carthage was defeated by the rising power of Rome. In *Hannibal's War*, J. F. Lazenby provides the first scholarly account in English since 1886 solely devoted to the Second Punic War - what some have called the first "world war" for mastery of the Mediterranean world. By closely examining the accounts of Livy and Polybius, supplemented with the fruits of modern research, Lazenby provides a detailed military history of the entire war as it was fought in Italy, Spain, Greece, and North Africa. This edition includes a new preface covering recent research on Hannibal's war against Rome.
