She was the niece of America's Bachelor President and his official hostess in Lancaster, London and Washington. Anyone who met her was instantly enamored. Queen Victoria bestowed upon her the title "Honorary Ambassadors." The Washington press corps proclaimed her "Our Democratic Queen." She was the first White House Hostess to be called "First Lady." Ships were named after her. Songs were written about her. Women dressed like her. She was the most admired woman in the country and established a style of entertaining never before seen in the White House. And only she could get away with beating the Prince of Wales at bowling! Her life was marked by tragedy, yet she lived every day to the fullest. Her legacy lives on in Baltimore and Washington through a pediatric hospital, a school for boys, a museum of art, and a monument to James Buchanan. Thanks to her beauty, charm, and generosity of spirit, America's First Lady will always be Harriet Lane. Electronic version of 2000 text.

Complete with Free CD-rom!!! This new manual is a practical, bedside guide to care of patients in the Paediatric ICU. Paediatric patients are very different than adults, and knowing this difference is never more critical than in the ICU. The fundamentals come first: sepsis, managing fluids and electrolytes, maintaining the airway and assessment of cardiovascular performance. After this, problems are organised by system: neurology, endocrine disorders, and the acute abdomen are a few of the topics covered. Trauma has a separate section, covering injuries to major body systems and injuries caused by burns, accidents, frostbite, lightning strikes and other events. Following this, the manual has three outstanding features: a section on procedures, such as chest tube insertion and subdural taps; a pharmacopoeia, detailing the critical dosing numbers needed for safe, effective therapy; and a section with algorithms, including decision trees from the American Heart Association. In all, few manuals pack as much information, for such an attractive price, as this one.
