Together with a list of auxiliary and cooperating societies, their officers, and other data. Booker Prize-winning author John Berger, one of the most widely admired writers of our time, returns us to the captivating play and narrative allure of his previous novels—G. and Pig Earth among them—with a shimmering fiction drawn from chapters of his own life. One hot afternoon in Lisbon, the narrator finds his long-dead mother seated on a park bench. “The dead don’t stay where they are buried,” she tells him. And so begins a remarkable odyssey, told in simple yet gorgeous prose, that carries us from the London Blitz in 1943, to a Polish market, to a Paleolithic cave, to the Ritz Hotel in Madrid. Here Is Where We Meet is a unique literary journey that moves freely through time and space but never loses its foothold in the sensuous present.

Noted scholar Lois Weis first visited the town of "Freeway" in her 1990 book, *Working Class Without Work*. In that book we met the students and teachers of Freeway's high school to understand how these working-class folks made sense of their lives. Now, fifteen years later, Weis has gone back to Freeway for *Class Reunion*. This time her focus is on the now grown-up students who are, for the most part, still working class and now struggling to survive the challenges of the global economy. *Class Reunion* is a rare and valuable longitudinal ethnographic study that provides powerful, provocative

insight into how the lives of these men and women have changed over the last two decades--and what their prospects might be for the future.

"I have read these writings and sometimes they would arrive with comfort, sometimes with a sting, and sometimes humor. But one thing is certain, they always touched my heart." Joan Neal

The Discovery of Islands consists of a series of linked essays in British history, written by one of the world's leading historians of political thought and published over the past three decades. Its purpose is to present British history as that of several nations interacting with - and sometimes seceding from - an imperial state. The commentary presents this history as that of an archipelago, expanding across oceans to the Antipodes. Both New Zealand history and the author's New Zealand heritage inform this vision, presenting British history as oceanic and global, complementing (and occasionally criticising) the presentation of that history as

schoolmaster, a Spanish sculptor who cheats at poker, and Rosa Luxemburg, among other long-gone presences, and John lets us choose to love each of them as much as he still does. This is a unique literary journey in which a writer's life and work are inseparable: a fiction but not a conventional novel, a narration in the author's voice but not a memoir, a portrait that moves freely through time and space but never loses its foothold in the present, a confession that brings with it not regret but a rich deepening of sensual and emotional understanding.
