Helen N. Boyle takes an anthropological approach to Quranic schooling in examining the role of Quranic preschools in community life.

For the Muslim faithful, the familiar sound of the Qur'anic recitation is the predominant and most immediate means of contact with the Word of God. Heard day and night, on the street, in taxis, in shops, in mosques, and in homes, the sound of recitation is far more than the pervasive background music of daily life in the Arab world. It is the core of religious devotion, the sanctioning spirit of much cultural and social life, and a valued art form in its own right.

Participation in recitation, as reciter or listener, is itself an act of worship, for the sound is basic to a Muslim's sense of religion and invokes a set of meanings transcending the particular occasion. For the most part, Westerners have approached the Qur'an much as scriptural scholars have studied the Bible, as a collection of written texts. The Art of Reciting the Qur'an aims at redirecting that focus toward a deeper understanding of the Qur'an as a fundamentally oral phenomenon. By examining Muslim attitudes toward the Qur'an, the institutions that regulate its recitation, and performer-audience expectations and interaction, Kristina Nelson, a trained Arabist and musicologist, casts new light on the significance of Qur'anic recitation within the world of Islam. Her landmark work is of importance to all scholars and students of the modern Middle East, as well as ethnomusicologists, anthropologists, linguists, folklorists, and religious scholars.

Violence has always played a part in the religious imagination, from symbols and myths to legendary battles, from colossal wars to the theater of terrorism. The Oxford Handbook of Religion and Violence surveys intersections between religion and violence throughout history and around the world. The forty original essays in this volume include overviews of major religious traditions, showing how violence is justified within the literary and theological foundations of the tradition, how it is used symbolically and in ritual practice, and how social acts of violence and warfare have been justified by religious ideas. The essays also examine patterns and themes relating to religious violence, such as sacrifice and martyrdom, which are explored in cross-disciplinary or regional analyses; and offer major analytic approaches, from literary to social scientific studies. The contributors to this volume--innovative thinkers who are forging new directions in theory and analysis related to religion and violence--provide novel insights into this important field of studies. By mapping out the whole field of religion and violence, The Oxford Handbook of Religion and Violence will prove an authoritative source for students and scholars for years to come.

The book 'Esoteric Islam' discusses the mystical teachings of Quran from the standpoint of ancient mysteries and modern metaphysics. The Quran is considered as the book of divine guidance by Muslims whose main subject constitutes 'man'. From a hermetic standpoint, the Quranic mysteries carry a great deal of connection to the hermetic arts of astrology and alchemy. Here, I have attempted to explain the manner in which symbolism of the hermetic precepts can be used to understand the Quran in its structural designs alongside the principle tenets, so as to define the notions of highest aspirations in men, and to unravel the mystique of this very impressive literature.

The religion of Islam aims to bring happiness to the lives of human beings in this world and the afterlife by providing them with the most suitable lifestyle for the human condition. Allah revealed Islam through Prophet Muhammad (pbuh) giving Muslims two main sources from which to learn their duties and worship: the Quran and Sunnah (the behaviour and words of Prophet Muhammad (pbuh)). In order to worship in the most authentic way, a Muslim must know both the Quran and Sunnah. This book focuses on worship and its relevant topics. To be able to perform sound and healthy worship, a Muslim needs to have an accurate knowledge of the religion. This book explains the evidence for the rulings from the Quran, Sunnah and other sources.

The concept of 'scripture' as written religious text is re-examined, considering orally distributed sacred writings.

This booklet is a collection of Prophetic narrations about the Qur'a'n that are profound and deep in their connotations. The booklet has been entitled, '40 Hadith on the Qur'a'n' - although the number of narrations included in the book far exceed forty in number. However, out of the whole collection, forty Hadith have been specifically numbered highlighting their importance, status and relevance to our times. You are also able to download a free PDF version of this booklet at www.quranproject.org. May Allah [swt] allow us to memorise, benefit and implement the words of the Prophet Muhammad . O Allah, make us of those who are the People of the Qur'a'n, who live by the Qur'a'n, call to the Qur'a'n, judge by the Qur'a'n and who recite it, learn it and ponder over it night and day. O Allah let the Qur'a'n be a Hujjah [proof] in our favour and not against us [ameen].

This book is the very first collection of first-person language learning narratives that offers rich introspective data on the various processes and forces shaping the development and maintenance of multiple languages (seven and more) in a single individual. The writers are twelve multilinguals who have been influenced by quite different contextual factors and who have learned a wide range and combination of dialects and languages from both similar and very different linguistic families. The combinations explored in the narratives include some lesser-known languages that come from under-researched areas, such as the African continent, certain parts of Asia, the Middle East, and Eastern Europe. Also unique are two theoretical chapters which analyze the narrative data against the background of language development research findings within several thematic areas: multiple language learning as a complex dynamic system; the influence of bilingualism/multilingualism on the acquisition of additional languages; cross-linguistic influence; and also emotions, motivation, and identity. The aim of this juxtaposition and analysis is to allow a meaningful comparison of the extent to which etic, researcher-generated, and emic, learner-offered perspectives match or diverge, and to identify new questions that the emic data may add to research agendas. The book is an excellent resource not only for researchers but also for teachers as well as for students of language at the graduate and undergraduate level.

Until now studies of the Qur'anic sciences have either been partial, brief, or sectarian. In the main, such works have more or less ignored the contribution of the great Shia scholars to our understanding of the Qur'anic sciences. This book has been written not only to redress this gap but also to present a new and more balanced view of this important topic. The authors have addressed many more issues than are usually found in a book on Qur'anic sciences, Some of which have not been hitherto unavailable in English. It is hoped that the book will be a useful addition to the material available to undergraduate students who are studying Islam.

This book is a very simple guide which will not only groom the child but also instill in him the spirit of gaining Quranic understanding. The book comprises a summary of the 114 Surahs (chapters) of Quran in a very simple manner. The summary provides understanding of such areas as Islamic knowledge, ideology, practice and character development. The book has been written for the students of hifz (memorisation). Therefore, issues of academic nature have not been touched upon nor is there an explanation of the complete surah (Quranic Chapter). Generally, things are explained in the context of the title of the surah. If there is an incident narrated in the surah, it has been explained for the interest of the students. If there are some directions related to character development those have also been explained. In the end of every surah's summary, the key message of that surah is written. You may call it a summary of the summary or the key lesson. The purpose is that if the student cannot remember the whole summary he at least registers one key message in his mind. Similarly, if I was able to find a hadith describing the excellence of a particular surah, that has also been mentioned - so that the student reads that surah with more interest. Effort has also been made to keep the language as simple as possible. However, the subject matter is from Quran and it was difficult to make its understanding any easier than this. If the respected teachers can narrate and explain the summary of each surah to their students before the hifz of that surah, it can be hoped that the beliefs of these students will be corrected and they will realize the importance of good character and deeds. Since the book has been written for the huffaz, excellence of Quran; excellence of hifz; manners of recitation; importance of understanding Quran; way of doing hifz are some of the topics covered in the beginning. Further, some advice has been given to the teacher and parents of the hafiz. It is hoped that the advice will prove beneficial. The purpose of giving advising all of them is that the hafiz, his teacher and his parents, all realize their respective responsibilities. Consequently the hifz will become easier and its blessings will become evident. Dear readers! Out of all the books written for the huffaz, the style of this book is completely different. It is a totally new effort and every new effort has more chances of errors. If you point out these errors and provide me your valuable feedback you will do me a favor. In need of your prayers, late Muhammad Aslam Sheikhpuri (Who himself memorised the Quran in 11 months)

"Neither as Christians or Jews, nor simply as intellectually responsible individuals," says Hixon, "have members of Western civilization been sensitively educated or even accurately informed about Islam." As tensions between America and the Middle East grow, we should promote cross-cultural understanding, not violence. This new edition, with a new foreword and commentary by Neil Douglas-Klotz, allows the reader to drink from the illuminating fountain of the Holy Qur'an—the foundation of Islamic culture. First published in 1988, Hixon's poetic meditations on over nine-hundred passages from the Qur'an show that they are not relics from the past but exist in a timeless present, communicating as vividly as when they were first uttered. Through clear and accessible language, Hixon illustrates how the teachings of Islam can be applied to contemporary everyday life issues such as love, relationships, justice, work, and self-knowledge. In addition to the selections themselves, the book contains readable, lively introductions to the tradition of Islam, its basic precepts, and what it says about other religions. As the first such work in English to be written by a Muslim, *The Heart of the Qur'an* continues to show that Islam is among the great wisdom traditions of humanity.

An enduring classic work on the etiquette that a Muslim must or should have with regard to handling and reciting the Quran (the Muslim scripture). The second edition of the *Historical Dictionary of Islam* presents a concise overview of Islamic history, religion, philosophy, and Islamic political movements.

This first volume guides the student in a step-wise progression to learn the fundamentals of Quranic grammar. The methodology of this book is different from others in that conversational Arabic and non-Quranic vocabulary are not emphasized. Instead, there is a keen focus on mastering key grammar principles alongside "high-yield" Quranic vocabulary.

Islam scares the West. Militant conservatism and the horrific acts of violent fundamentalists evoke outrage, but the reprehensible few reinforce a longstanding Western stereotype of all Muslims as "incorrigibly fanatical, violent and morally and culturally different." Overlooked is the long history of Muslim intellectual and cultural achievement, and its potential to flower once again. With about 1.5 billion adherents, Islam is the world's fastest growing religion. An understanding of its past glories, present state and future potential has never been more critical. This survey of Muslim intellectual and cultural achievements spans 1,400 years. Chapters fall into three sections: fundamentals of Islamic learning; its growth until the present; and its future direction in the face of anti-intellectual fundamentalism. Arranged chronologically within the sections, chapters begin with an historical overview of the time period they encompass, providing context for the subsequent discussion of key intellectual and cultural achievements within that period. Appendices describe decorative and other arts, the requirements for expertise in Islamic thought, Islamic ethical traditions, and list noteworthy personalities and achievements chronologically. Maps and photographs illustrate the text, which also includes a glossary, notes, a bibliography and an index.

Fourteen centuries of Islamic thought have produced a legacy of interpretive readings of the Qu'ran written almost entirely by men. Now, with *Qu'ran and Woman*, Amina Wadud provides a first interpretive reading by a woman, a reading which validates the female voice in the Qu'ran and brings it out of the shadows. Muslim progressives have long argued that it is not the religion but patriarchal interpretation and implementation of the Qu'ran that have kept women oppressed. For many, the way to reform is the reexamination and reinterpretation of religious texts. *Qu'ran and Woman* contributes a gender inclusive reading to one of the most fundamental disciplines in Islamic thought, Qu'ranic exegesis. Wadud breaks down specific texts and key words which have been used to limit women's public and private role, even to justify violence toward Muslim women, revealing that their original meaning and context defy such interpretations. What her analysis clarifies is the lack of gender bias, precedence, or prejudice in the essential language of the Qur'an. Despite much Qu'ranic evidence about the significance of women, gender reform in Muslim society has been stubbornly resisted. Wadud's reading of the Qu'ran confirms women's equality and constitutes legitimate grounds for contesting the unequal treatment that women have experienced historically and continue to experience legally in Muslim communities. The Qu'ran does not prescribe one timeless and unchanging social structure for men and women, Wadud argues lucidly, affirming that the Qu'ran holds greater possibilities for guiding human society to a more fulfilling and productive mutual collaboration between men and women than as yet attained by Muslims or non-Muslims.
