Written for church leaders, worship leaders, and songwriters, as well as for those interested in theology, this volume explains why the Trinity matters so much and explores practical ways our worship can be made more Trinitarian. This second edition is fully updated and expanded.

Why do people identify with growing late modern churches – and does identification lead to morally transforming commitments beyond late modern consumerism? This case study presents findings that may inspire both social scientists and theological practitioners to new forms of thinking.

'They must have issues.' So to help them out for a moment: This isn't another one of those 'self-help' manuals. This isn't a book about romance and sex, or feelings and cuddles. This isn't a guidebook offering relationship advice, giving tips on how to find 'love' and 'look after' it. In those senses, this isn't even a book about love. It's a book about life—every part of it. About how it should be lived, how it should be explored, how it should be expressed. This is a book about meaning, about life's trajectories. It's about God. It's about you. It's about them. In that sense, this is all about love. But if I could capture here what I mean by 'love' in that sense, I wouldn't have needed to write a book. "Tristan Sherwin has written a smart and beautiful book showing us that Jesus Christ is the love of God expressed as a human life. This is the life we are called to imitate; this life of love is what we are made for." —Brian Zahnd; Author of *A Farewell To Mars* "Refreshing, authentic, inspiring, and yet practical—Tristan is a breath of fresh air." —Jeff Lucas; Author, Speaker, Broadcaster "Love: Expressed is a work of dirt-under-your-fingers spirituality." —Jonathan Martin; Author of *Prototype*

Popular music has come to play a significant role in the political and cultural history of the Nordic countries. Research on the region's culture has largely followed national narratives created by political and economic institutions, even as cultural life in the region--which spans a large area of northern Europe and the North Atlantic--displays more complex geographies and evolving global dynamics. As the first of its kind, *The Oxford Handbook of Popular Music in the Nordic Countries* offers a series of exemplary studies of music in these transnational dynamics in the specific context of the region's cultures and natural environments, written by the foremost experts in the field. Chapters highlight and challenge music's place in exotic images of the North and in transnational environmentalism, tourism, racism, and media industries. The Handbook illustrates how transnational dynamics evolve and shape musical life and the institutional spheres of policy, education, and research.

The parable in Luke 15:1–7 can be seen from three angles. The dilemma of the shepherd is whether or not to leave the ninety-nine and go in search of the one lost sheep. It may not make sense economically and rationally, but he leaves them anyway and begins his search. The poor sheep has wandered away and is lost—not hopelessly so, but lost. The sheep does have hope, and it rests with the shepherd whose love for her is so vast and so relentless that he won't rest until he finds the sheep. And then there's the ninety-nine. Their attitude and behavior toward the lost sheep is paramount in the story. Will they join in the search? Will they celebrate with the shepherd once the sheep is returned? Or will they criticize and whine about how the shepherd spends all his time searching for the one who is lost? *The One* explores the foundational nature of this parable and how important its implications are for the church and one's own walk with the Lord. The value that God places on the one is life-changing for those who come to understand it. "An intense and powerful vision shared through the lens of author Ronny Russell's personal and professional spiritual journey. Authenticity is found in every paragraph that rings with empowering truth, inspiration, and encouragement for the one. ... I have watched Ronny's journey for decades and found his passion to be deep, contagious, and transformational for the one and the remnant who seek meaning in our fast-paced world filled with churches that often miss the one to preserve the institution. Ronny serves Christ above all and finds hope in God's calling and gifting as a member of the body of Christ. Truly a worthy and engaging read!" —Edward Hammett, author of *Spiritual Leadership in a Secular Age* and *Recovering Hope for Your Church*

There are only two paths: Freedom or Slavery Spirit or Flesh Faith or Law Blessing or Cursing Life or Death Which path are you on? This is Paul's argument in the first letter he ever wrote under the Spirit's inspiration. He wants his readers--then and now--to live in the path of freedom and life. The Galatians had traded salvation by grace alone through faith alone for a "gospel" of works of Law. Paul has some seemingly harsh words for them, because to replace grace with anything else is to destroy the Gospel of Jesus Christ.

Christian Sacred Music in the Americas explores the richness of Christian musical traditions and reflects the distinctive critical perspectives of the Society for Christian Scholarship in Music. This volume, edited by Andrew Shenton and Joanna Smolko, is a follow-up to SCSM's Exploring Christian Song and offers a cross-section of the most current and outstanding scholarship from an international array of writers. The essays survey a broad geographical area and demonstrate the enormous diversity of music-making and scholarship within that area. Contributors utilize interdisciplinary methodologies including media studies, cultural studies, theological studies, and different analytical and ethnographical approaches to music. While there are some studies that focus on a single country, musical figure, or region, this is the first collection to represent the vast range of sacred music in the Americas and the different approaches to studying them in context.

Did you know that Jesus appears ten times (1000%) more in the Old Testament than he does in the New Testament. In fact Jesus the Aleph-Tav appears 9612 times (uninterpreted) in the Old Testament but only 983 times in the New Testament. The Aleph-Tav is comprised of the first and last characters of the Hebrew language, just as the alpha and the omega are the first and last characters of the Greek language. The Aleph-Tav is also the Hebrew character symbol believed to be the signature of Christ found only in the Hebrew Bible, represented by the head of a bull and the sign of a cross. Both character symbols clearly point us to Christ, the Lamb of God who died for humanity on the cross of Calvary. I AM the Aleph-Tav unveils the presence of Jesus in the Old Testament, first by taking a deep dive into the mystery of the Aleph-Tav. Although this symbol appears almost ten thousand times in the Old Testament, it was never interpreted into any other language, and author Samuel Koiki shows how there are parallels between the Old Testament and the statements Jesus made to John in the book of Revelation, where Jesus proclaimed that he was the Alpha and the Omega, the beginning and the end, in a different way, the Aleph-Tav. Was Jesus telling John that he was there all along when the universe was created in Genesis? Perhaps he was telling John that he indeed is the creator, and that it was he who brought forth the miracles in the Old Testament scriptures. Unraveling the mystery of the Aleph-Tav will answer these questions and lead believers to the truth, abundant living, and freedom from sin, oppression, and the lies of the devil.

It is my humblest honor to share the Good Shepherd's heart with you. These parables are an account of my real-life encounters with the Good Shepherd, which are by His divine design, and contain the heavenly jewels of revelation, wisdom and priceless lessons in leadership and stewardship that He has graciously taught me. They take place on the countless prayer walks we have done, walking the beautiful farmland and coastal shores in County Kerry. I pray these accountings will bless you, strengthen you and encourage you as you run to finish the race that is set before you. May you hear the Good Shepherd's voice calling you closer to His bosom, wanting to heal you and restore you!

Bill Johnson, Joyce Meyer, Heidi Baker. The fame of these names is evidence enough that, though the controversies are less intense, the Charismatic Movement is alive and well today. It continues to attract thousands of adherents who find its vision of a supernatural lifestyle uniquely compelling. Now, for the first time, all that is most theologically innovative about the movement is synthesized into five distinct and original ideas. These five brand new theologies have been created, not by theologians, but by practitioners who believed their concepts were inspired by the Spirit: Inner Healing, Shepherding, Word of Faith, Spiritual Warfare, and Signs and Wonders. Plenty of studies have been written by Pentecostal scholars about Pentecostal theology, but these tend to group the very distinct approaches of Charismatics together with Classical Pentecostals. Bold Faith aims to analyze and evaluate the ways in which practitioners within independent Charismatic networks, especially in their Anglo-American expressions, have responded to the challenges of secular modernity.

Gypsy Bags & Traveling Jackets is a journey of faith chronicled in journals spanning twenty-three years. A miniseries of periods, question marks, and exclamation points arranged in patterns of reflections, answers and awestruck moments that reflect not just collections of recorded events but jumbled thoughts in a soul-searching exercise of discovery. These are stories tailored in transparency; stories of faith rewarded, hope rekindled and love poured out in ways unimaginable.

Enthusiasm is desirable, yet dangerous. More than just affective intensity, it entails belief. Combining historical and ethnographic methods, this book explores different styles of religious enthusiasm in Modern Germany, inflected by historical traditions and social milieus, in an effort to understand the modern ambivalence toward this feeling.

Religion today is in competition with the leisure and entertainment industries. Gen Y, the postmodern generation, is open to spirituality; but most of today's young adults have not been born into faith communities where they feel any lasting allegiance. Studies suggest that for the young, belief in God is an optional matter, a virtual consumer choice. As a result, different trends in worship and worship styles are offered by different churches to suit lifestyles, attitudes, and personal taste.

A Moving Faith captures the dynamic shift of Christianity to the South and portrays a global movement that promises prosperity, healing, empowerment, and gender equality by invoking neo-Pentecostal and Charismatic resources. It postulates that neither North America nor Europe is the current center of the Christian faith. The book provides a detailed

overview of how migration of Christians from the South enriches the North, for instance, Pope Francis brings newness, freshness, and the vigor characteristic of the South. While describing Christianity's growth in the South, it suggests that, in fact, there is no center for this global faith. It explores this great move of Christianity by focusing on representative mega churches in South Korea, Brazil, Peru, Ghana, Nigeria, Australia, India, and the Philippines.

Scripting Pentecost explores and develops an analysis of worship and liturgy in Pentecostal and Charismatic traditions. Organized into three main sections, history, theology, and contemporary practice, the first section quarries the historical trajectories of classic Pentecostalism, the Charismatic movement, Third-Wave, and Oneness Pentecostalism. Particular attention is given to the liturgical approaches of some of the earliest leaders, including William J. Seymour, Alexander Boddy, and Aimee Semple McPherson. The second section, constructive theology, offers theological approaches to liturgical studies from Pentecostal and Charismatic perspectives. In this section the Pentecostal and Charismatic tradition is advanced and extended by an interaction with ecumenical sources. The third section, case studies in contemporary worship theology and practice, examines the actual performance of liturgy through selected global case studies chosen to reflect a diversity of ecclesial practice in Africa, Asia, Europe, North America, Latin America and Oceania.

This book is a study of how congregational song developed and has been used in the worship of Western churches in general and specifically churches in the United States. Beginning with the worship of ancient peoples, the Hebrews, and early Christians and continuing to the present, the author examines historically how song has been and is used as an intentional sacred ritual action, like prayer or Scripture reading. Written primarily as an introductory text for college and seminary students, the overall goal is to make a historical journey with the people, events, and ideas from which have evolved the various types of song we have in American worship today. To help readers think more deeply about the material, study questions are given at the end of each chapter.

Congregational music can be an act of praise, a vehicle for theology, an action of embodied community, as well as a means to a divine encounter. This multidisciplinary anthology approaches congregational music as media in the widest sense - as a multivalent communication action with technological, commercial, political, ideological and theological implications, where processes of mediated communication produce shared worlds and beliefs. Bringing together a range of voices, promoting dialogue across a range of disciplines, each author approaches the topic of congregational music from his or her own perspective, facilitating cross-disciplinary connections while also showcasing a diversity of outlooks on the roles that music and media play in Christian experience. The authors break important new ground in understanding the ways that music, media and religious belief and praxis become 'lived theology' in our media age, revealing the rich and diverse ways that people are living, experiencing and negotiating faith and community through music.

Dr. David K. Naugle is widely regarded as a leading thinker in the area of Christian worldview formation. As Distinguished University Professor Emeritus at Dallas Baptist University, he has drawn accolades and admiration. This collection in his honor demonstrates that intellectual pursuits are inherently spiritual, that no area of life is separate from the lordship of Christ, and that true Christian faith is in fact the deep fulfillment of the human experience. On topics ranging from linguistics to gardening and everything in between, these essays represent the depth and breadth of the idea that all goodness is God's goodness, all truth is God's truth, and all beauty is God's beauty.

International apologists present a compelling and inspiring case for how to draw on the resurrection for everyday Christian living.

The title of Dr. Harris' book suggests that life is like a two-sided coin: it can be an Ocean of Love but can also be a Sea of Troubles. The subtitle clarifies this paradox: first, there are many signs of God's reality and activity in the world, and the first section of the book examines ways in which people are aware of God as both a creative and immanent presence in life. The "signs" of God are not philosophical "proofs" but empirical realities accessible to all people. In the second section, the biblical responses to suffering in the world are explored--through both Old and New Testaments. In the third section the writings of two modern apologists, C. S. Lewis and Philip Yancey, are assessed, and then finally there is a chapter of interviews with people who have known suffering in their lives.

During the twentieth century, religion has gone on the market place. Churches and religious groups are forced to 'sell god' in order to be attractive to 'religious consumers'. More and more, religions are seen as 'brands' that have to be recognizable to their members and the general public. What does this do to religion? How do religious groups and believers react? What is the consequence for society as a whole? This book brings together some of the best international specialists from marketing, sociology and economics in order to answer these and similar questions. The interdisciplinary book treats new developments in three fields that have hitherto evolved rather independently: the commoditization of religion, the link between religion and consumer behavior, and the economics of religion. By combining and cross-fertilizing these three fields, the book shows just what happens when religions become brands. In Australian Pentecostal and Charismatic Movements: Arguments from the Margins Rocha, Hutchinson and Openshaw argue that Australia has made and still makes important contributions to the ways in which Pentecostal and Charismatic Christianities have developed worldwide.

This interdisciplinary volume brings together leading writers and thinkers to provide a critique of a broad range of topics related to Hillsong Church. Hillsong is one of the most influential, visible, and (in some circles) controversial religious organizations/movements of the past thirty years. Although it has received significant attention from both the academy and the popular press, the vast majority of the scholarship lacks the scope and nuance necessary to understand the complexity of the movement, or its implications for the social, cultural, political, spiritual, and religious milieus it inhabits. This volume begins to redress this by filling important gaps in knowledge as well as introducing different audiences to new perspectives. In doing so, it enriches our understanding of one of the most influential Christian organizations of the late 20th and early 21st centuries.

Contemporary worship music shapes the way evangelical Christians understand worship itself. Author Monique M. Ingalls argues that participatory worship music performances have brought into being new religious social constellations, or "modes of congregating". Through exploration of five of these modes--concert, conference, church, public, and networked congregations--Singing the Congregation reinvigorates the analytic categories of "congregation" and "congregational music." Drawing from theoretical models in ethnomusicology and congregational studies, Singing the Congregation reconceives the congregation as a fluid, contingent social constellation that is actively performed into being through communal practice--in this case, the musically-structured participatory activity known as "worship."

"Congregational music-making" is thereby recast as a practice capable of weaving together a religious community both inside and outside local institutional churches. Congregational music-making is not only a means of expressing local concerns and constituting the local religious community; it is also a powerful way to identify with far-flung individuals, institutions, and networks that comprise this global religious community. The interactions among the congregations reveal widespread conflicts over religious authority, carrying far-ranging implications for how evangelicals position themselves relative to other groups in North America and beyond.
