"Contains practice and reinforcement copying masters that cover the material presented in the Language Handbook section of Elements of Literature, First course. The rules cited in the head of each worksheet correspond directly to the grammar, usage, and mechanics rules and instruction covered in the Language Handbook"--Page ix.

Provides interactive versions of: activities in reading and writing; Student edition grammar exercises; Workbook exercises for every chapter; Diagnostic tests and chapter tests for grammar, usage, and mechanics

Elements of Language 2009 provides practical teaching strategies, differentiated instruction, and engaging presentation tools that offer more ways to reach more students than ever before. In partnership with teachers like you, Holt created Elements of Language to provide practical teaching strategies for today's challenging classroom, innovative ways to differentiate instruction, and streamlined technology tools. Designed with your students in mind, this program offers you the flexibility and options to manage your diverse classroom. - Publisher.

The Teacher's Grammar Book, Second Edition introduces the various grammars that inform writing instruction in our schools, and examines methods, strategies, and techniques that constitute best classroom practices for teaching grammar and writing. Designed for students who are preparing to become English or language arts teachers, as well as for credentialed teachers who want an easy-to-use guide to questions of methods, grammar, and teaching, this overview of basic English grammar includes the following major topics: a brief history of grammar, teaching grammar, grammar and writing, traditional grammar, transformational-generative grammar, cognitive grammar, dialects, black English, and Chicano English. New in the reorganized and fully updated Second Edition: \*new chapter giving a brief history of grammar and grammar instruction; \*new chapter on best practices--strategies and techniques that actually work; \*expanded chapter on cognitive grammar--a topic not found in other texts of this nature; \*expanded chapter on dialects; \*summary and evaluation of the minimalist program (Noam Chomsky's most recent revision of transformational-generative grammar)--a topic unique among texts of this kind; and \*reduced discussion of transformational grammar.
