African-American Slave Medicine offers a critical examination of how African-American slaves medical needs were addressed during the years before and surrounding the Civil War. Drawing upon ex-slave interviews conducted during the 1930s and 1940s by the Works Project Administration (WPA), Dr. Herbert C. Covey inventories many of the herbal, plant, and non-plant remedies used by African-American folk practitioners during slavery. He demonstrates how active the slaves were in their own medical care and the important role faith played in the healing process. This book links each referenced plant or herb to modern scientific evidence to determine its actual worth and effects on the patients. Through his study, Dr. Covey unravels many of the complex social relationships found between the African-American slaves, Whites, folk practitioners, and patients. African-American Slave Medicine is a compelling and captivating read that will appeal to scholars of African-American history and those interested in folk medicine.

Meanwhile, from 2008 through 2013, the Missionary Independent Spiritual Church annual Hoodoo Workshops, attendees who came to receive hands-on training in the practice of conjure and other forms of world folk-magic received hand-out flyers describing the spells, recipes, and methods of practice being taught. Working against conventional scholarship, Hazzard-Donald argues that Hoodoo emerged first in three distinct regions she calls "regional Hoodoo clusters" and that after the turn of the nineteenth century, Hoodoo took on a national rather than regional profile. The first interdisciplinary examination to incorporate a full glossary of Hoodoo culture, *Mojo Workin': The Old African American Hoodoo System* lays out the movement of Hoodoo against a series of watershed changes in the American cultural

landscape. Throughout, Hazzard-Donald distinguishes between "Old tradition Black Belt Hoodoo" and commercially marketed forms that have been controlled, modified, and often fabricated by outsiders; this study focuses on the hidden system operating almost exclusively among African Americans in the Black spiritual underground.

A quick reference guide to 124 different herbs, roots, minerals, and ingredients and how they are used in the Hoodoo tradition.Excerpt: "Almost all seasoned practitioners of magic will tell you that using all natural ingredients is of utmost importance. Artificial fragrances and substances have no place in serious ritual or spiritual practice because they contain zero ?life-force. Herbs, roots, and real essential oils carry with them the heart of the plant they come from, its very essence.This is the very foundation of what is known as 'sympathetic magic.' Sympathetic magic, also known as imitative magic or homeopathic magic, is magic that is based on imitation or correspondence - or both. Imitation is the idea that one thing can represent another thing and, by proxy, stand in its place."

In 1947, when it was first offered for sale, This Amazing Book was a rural herbalist's delight. Published by the strangely obscure Sunrae Products Company in the tiny town of Ogema, Wisconsin, it was marketed via a series of small classified ads in popular do-it-yourself magazines, and gave traditional rootworkers an introduction to the convenience of mail-order supplies. The anonymous author took the secret of his or her identity to the grave, but the data supplied here about down-home treatments with herbs, roots, seeds, and flowers forms the foundation of modern herbal medicine. Now, on the 70th anniversary of its original publication, the Lucky Mojo Curio Company is proud to present a restored and revised edition of this essential text, newly edited by Catherine Yronwode and illustrated with the classic botanical art of F. Schuyler Mathews. Filled with historically valuable medical lore, this beautiful book belongs in every conjure worker's library.
