

Hops And Glory

World's Best Ciders is the first book to showcase the world of cider, from its origins as a thirst-quencher for farm workers to its present as a rival to champagne. Travelling from the Old to the New World and teaching us not only how to taste it but how to cook with it, Pete Brown and Bill Bradshaw explore every aspect of this fascinating drink and the people who produce it. Here you'll discover what Johnny Appleseed really planted, find out what the Magners' effect is and learn why perry is a miracle drink. Beginning in the sidrerias of Asturias, Spain, where cider has been part of the culture for thousands of years, the authors then travel north to Normandy and Brittany in France, to the famous cider regions of Somerset, the Three Counties and Wales in the UK and then across the Atlantic, to New England and Quebec where cider is being re-invented, taken out of bars and into restaurants. Over 200 ciders are described in detail, with tasting notes, and illustrated with hundreds of Bill Bradshaw's inspiring and beautiful photographs. This is a story that has never been told. It is a story that will appeal to the novice and the expert alike. This is not a recipe book. It is a database of ingredient information that should assist the home or craft brewer in creating their own recipes in order to attempt the replication of commercial beers. Instructions on how to convert the supplied ingredient information into recipes customised to the brewer's own equipment and technique are provided. This book also provides inspiration to brewers wishing to experiment with different ingredients since it gives an interesting insight into how professional brewers have used them in their own brews. Finally, this book should also be of interest to the discerning beer enthusiast who is curious about what goes into their favourite drink. This second edition provides substantially more data than the well-received first edition.

WINNER OF THE DRINK BOOK AWARD AT THE FORTNUM & MASON FOOD AND DRINK AWARDS 2017. Pete Brown has visited hundreds of pubs across the UK and is uniquely placed to write about pubs that ooze atmosphere, whatever the reason, be it food, people, architecture, location or décor. The best pubs are those that always have a steady trade at any time on any day of the week, and where chat flows back and forth across the bar. They're the places where you want to drink weak beer so you can have several pints and stay longer. Some are grand Victorian palaces, others ancient inns with stunning views across the hills. Some are ale shrines, others gastropubs (though they probably don't call themselves that any more). A precious few are uniquely eccentric, the kinds of places that are just as likely to have terrible reviews on Trip Advisor as great ones, because some people don't realize that the outside toilets, limp sandwiches on the bar and really disturbing full-size mannequin glaring at you from the corner are all part of the charm. This charming collection of 300 pubs explores what makes each one ooze atmosphere, be it food, people, architecture, location or décor, and looks at the quirks of local history as well as different trends and types of pub. Full of pen portraits of punters or publicans, legends, yarns and myths, this entertaining book is the perfect gift for regulars of that well-

loved British institution, the pub.

The original India Pale Ale was pure gold in a glass; a semi-mythical beer specially invented, in the 19th century, to travel halfway around the world, through storms and tropical sunshine, and arrive in perfect condition for a long, cold drink on an Indian verandah. But although you can still buy beers with 'IPA' on the label they are, to be frank, a pale imitation of the original. For the first time in 140 years, a keg of Burton IPA has been brewed with the original recipe for a voyage to India by canal and tall ship, around the Cape of Good Hope; and the man carrying it is the award-winning Pete Brown, Britain's best beer write. Brazilian pirates and Iranian customs officials lie ahead, but will he even make it that far, have fallen in the canal just a few miles out of Burton? And if Pete does make it to the other side of the world with 'Barry' the barrel, one question remains: what will the real IPA taste like? Weaving first-class travel writing with assured comedy,

Hops and Glory is both a rollicking, raucous history of the Raj and a wonderfully entertaining, groundbreaking experiment to recreate the finest beer ever produced.

Welcome to the George Inn near London Bridge; a cosy, wood-pannelled, galleried coaching house a few minutes walk from the Thames. Grab yourself a pint, listen to the chatter of the locals and lean back, resting your head against the wall. And then consider this: who else has rested their head against that wall, over the last 600 years? Chaucer and his fellow pilgrims almost certainly drank in the George on their way out of London to Canterbury. It's fair to say that Shakespeare will have popped in from the nearby Globe for a pint, and we know that Dickens certainly did. Mail carriers changed their horses here, before heading to all four corners of Britain - while sailors drank here before visiting all four corners of the world... The pub, as Pete Brown points out, is the "primordial cell of British life" and in the George he has found the perfect case study. All life is here, from murderers, highwaymen and ladies of the night to gossiping pedlars and hard-working clerks. So sit back and watch as buildings rise and fall over the centuries, and "the beer drinker's Bill Bryson" (TLS) takes us on an entertaining tour through six centuries of history, through the stories of everyone that ever drank in one pub.

Located in the northwest corner of Schoharie County, Sharon was established in 1797 after Palatine German and Dutch families had settled in the area, replacing the Iroquois in the 18th century. Set in rolling hills with magnificent vistas over the Mohawk Valley, the area's mineral springs drew native people and Europeans to bathe in the health-promoting waters. The spa era of grand hotels and wealthy guests gave way to a slow but steady decline around 1900; however, from the early 1990s, the town has enjoyed a renaissance with the arrival of creative artists and entrepreneurs, including The Fabulous Beekman Boys, whose reality television series showcased Sharon, linking past to present. The couple lives in the mansion of prominent early resident William Beekman, the first judge of Schoharie County and the owner of the first mercantile.

Old beat-up trucks, dive bars, gold-rush towns and the epic beauty of the high Sierra Nevadas are the backdrop to this

Henry Ward Beecher, in a sermon shortly before his death, said America was going through a period of disgrace. This was true; for there had come to pass, what the prophetic Lincoln had foretold, that, as the result of the war, monopolies had been enthroned, that had filled the land with corruption and imperilled the liberties of the people. To-day the period of disgrace is worse than then, for the corrupt tree which was then bearing so luxuriant a crop has had several years more in which to develop its fruit-bearing capacity.

Invasions of non-native plants into forests of the Southern United States continue to go unchecked and only partially un-monitored. These infestations increasingly erode forest productivity, hindering forest use and management activities, and degrading diversity and wildlife habitat. Often called non-native, exotic, non-indigenous, alien, or noxious weeds, they occur as trees, shrubs, vines, grasses, ferns, and forbs. This guide provides information on accurate identification of the 56 non-native plants and groups that are currently invading the forests of the 13 Southern States. In addition, it lists other non-native plants of growing concern. Illustrations. This is a print on demand edition of an important, hard-to-find publication.

Hooker, Azzie, Erica and the rest all play cricket in their spare time, but they've never taken it very seriously until now. Kiddo, one of their school teachers, suggests they form an official team and play proper matches - and Glory Gardens C.C. is formed. Hooker, as captain, soon finds out that cricket teams weren't built in a day: some players squabble, some can't catch, and some have tantrums and go home at half-time! So will Glory Gardens go all out for victory . . . or will they be out for a duck?

Taking us through the seasons in England's apple-growing heartlands, this magical book uncovers the stories and folklore of our most familiar fruit. 'An orchard is not a field. It's not a forest or a copse. It couldn't occur naturally; it's definitely cultivated. But an orchard doesn't override the natural order: it enhances it, dresses it up. It demonstrates that man and nature together can - just occasionally - create something more beautiful and (literally) more fruitful than either could alone. The vivid brightness of the laden trees, studded with jewels, stirs some deep race memory and makes the heart leap. Here is bounty, and excitement.'
