ufus Shaw's Book, " Hustling: The Art of Black financial Survival," is a simple, common sense guide on how black business people can survive and even prosper if they know what they are doing. Show, whose first book was "How to be Rich nigger," has two degrees from Southern Methodist University in Dallas. He said his street sense was learned in the predominantly black

section of South Dallas. Using Humor, poetry and a smattering of profanity, Shaw avoids complicated economic formulas. He starts off by defining hustling: .."making something positive happen under difficult circumstances by using a combination of common sense, understanding of human nature, daring and hard work." In his straight forward style, Shaw Discusses such topics as understanding man from a street perspective, business from that same perspective, the educated fool, going broke and investments. The book is quick and easy reading. Shaw Breaks no new ground as he drops numerous jewels on his readers: " Without some form of education you're lost. Racism will you down, but ignorance will knock you out!" or "When money is in hand, pay your bills on time, when money is short, pay in 60 days, when money is shortest, pay something, but never pay nothing." or: "If you're sued, it is not the end of the world. Millions of people have been sued and have judgments pending..but they live everyday, normal lives. There's no "X" marked on their forehead.. Sure, it'll mess up your credit. The minute the bill collectors start calling, your credit was "Screwed." Shaw also devotes a chapter on crime and how it can be a money maker, but not without risks, for black people. There even is a subheading entitled, "Prison University." He does not preach, but he does touch many bases in a fact filled and entertaining 103 page book. Shaw's greatest success in this to me is pulling together a lot of basic wisdom and putting it down in black and white. When the World Was Black: The Untold History of the World's First Civilizations (Volume Two of The Science of Self series) has been published in TWO parts. Why two? Because there are far too many stories that remain untold. We had over 200,000 years of Black history to tell – from the southern tip of Chile to the northernmost isles of Europe – and you can't do that justice in a 300-page book. So there are two parts, each consisting of 360 pages of groundbreaking history, digging deep into the story of all the world's original people. Part One covers the Black origins of all the world's oldest cultures and societies, spanning more than 200,000 years of human history. Part Two tells the stories of the Black men and women who introduced urban civilization to the world over the last 20,000 years, up to the time of European contact. Each part has over 100 helpful maps, graphs, and photos, an 8-page full-color insert in the center, and over 300 footnotes and references for further research. generation will understand and relate to. Each story or essay is framed within the context of a life lesson, each one being of vital importance to the survival, redemption, and ultimate success of our dying Black generation. Both the positive and negative sides of the Black experience are explored in detail, from the lives of infamous drug dealers and pimps to the exploits of Black revolutionaries and activists. In addition, several How To sections outline simple strategies for self-development. Packed with useful information, from the best way to handle confrontations with police, to the continuing relevance of the 1919 race riots, this book has been compared to an urban Encyclopedia Africana. Others have called it a Blueprint for Black Power for a generation struggling with materialism and short attention spans. This book is guaranteed to change the world by changing the way millions of people think and live. In How to Hustle and Win, author Supreme Understanding tells, in often graphic detail, stories like that of the infamous Philadelphia Black Mafia, Harlem's heroin kingpin Frank Lucas, and former gang leader Stanley "Tookie" Williams. In between and throughout these tales, he weaves life lessons and guidance, turning sordid stories of crime and urban despair into an educational experience. Whereas Robert Greene's bestselling 48 Laws of Power used iconic figures from classical history to illustrate the guidelines for personal success, How to

Hustle and Win is filled with the exploits of rappers, gangsters, radicals, and revolutionaries. This is a new kind of Black history book, and its intent is the motivation and achievement of a new kind of reader. Although today's literary market has seen an influx of self-help books attending to a variety of issues, few books have attempted to address the concerns of young Black men, struggling to find direction. It is this group that author Supreme Understanding names as one of most troubled demographics in American society today. On the book's website, the author comments: "Unfortunately, few authors actively target this audience, and those who do are either not speaking their language, or not interested in pushing for change. This is why How to Hustle and Win was written. This book will change the minds of millions of young men of color, and by doing this, it will ultimately change the world." Revolutionary aspirations aside, How to Hustle and Win's groundbreaking concept results in a truly appealing work. Its essays are delivered in short bursts, none of them over four pages long, making it ideal for struggling readers and those with shorter attention spans. At the same time, the book is filled with a wealth of information that would enlighten educated readers equally. In fact, the author juxtaposes his own personal tales of early delinquency and misdirection with his later years of professional success, including obtaining a doctorate

Week bestseller. An entertaining examination of why some ideas stick to people's consciousness and others don't.

Having clear boundaries is essential to a healthy, balanced lifestyle. A boundary is a personal property line that marks those things for which we are responsible. In other words, boundaries define who we are and who we are not. Boundaries impact all areas of our lives: Physical boundaries help us determine who may touch us and under what circumstances -- Mental boundaries give us the freedom to have our own thoughts and opinions -- Emotional boundaries help us to deal with our own emotions and disengage from the harmful, manipulative emotions of others -- Spiritual boundaries help us to distinguish God's will from our own and give us renewed awe for our Creator -- Often, Christians focus so much on being loving and unselfish that they forget their own limits and limitations. When confronted with their lack of boundaries, they ask: - Can I set limits and still be a loving person? - What are legitimate boundaries? - What if someone is upset or hurt by my boundaries? - How do I answer someone who wants my time, love, energy, or money? - Aren't boundaries selfish? - Why do I feel guilty or afraid when I consider setting boundaries? Dr. Henry Cloud and Dr. John Townsend offer biblically-based answers to these and other tough questions, showing us how to set

start looking deeper. Although self-actualization is the highest of all human needs, it is said that only 5% of people ever attain this goal. In the culture of the Nation of Gods and Earths, commonly known as the Five Percent, students are instructed that they must first learn themselves, then their worlds, and then what they must do in order to transform their world for the better. This often intense process has produced thousands of revolutionary thinkers in otherwise desperate environments, where poverty and hopelessness dominate. Until now, few mainstream publications have captured the brilliant yet practical perspectives of these luminary men and women. Knowledge of Self: A Collection of Writings on the Science of Everything in Life presents the thoughts of Five Percenters, both young and old, male and female, from all over the globe, in their own words. Through essays, poems, and even how-to articles, this anthology presents readers with an accurate portrait of what the Five Percent study and teach, as well as sound direction on how to answer timeless questions like: Who am I, and why am I here? Why is there so much injustice in the world, and what can be done about it? Who is God and where on Earth is he? How do I improve myself without losing myself? Why are people of color in the situations they're in? What can we do about the global problems of racism and poverty?
