REVEALED: – The money-making methods of a medical doctor turned a successful trader Like millions, Dr Vijay Gupta began investing in the stock market hoping to increase his income and wealth. Like millions, he ran into early losses. Unlike others who give up, he taught himself how to make money in the stock market and created his own trading system which has made him consistent profits for more than a decade of market ups and downs. This book reveals his secrets – in his own words: "Actually, there is only one secret — knowledge. An individual trader should not consider himself disadvantaged because of small capital. But if his market knowledge is limited, then he is indeed vulnerable. "I was not satisfied with methods which required too many subjective judgements. I came to realize that to be successful, traders must have a simple mechanical system of trading. "I have made consistent profits over a long period using the mechanical trading system I have revealed in this book. My trading income has now surpassed my income from medical practice. That is what I had aimed for. It has come true. "I believe my trading system is the best. It works for me — and might work for you, too. You can also easily adapt my system to suit you style. That's why I wrote this book . . . so that you too can make

money from trading."

If it's trading, then Steve Ruffley has seen it and done it! Steve Ruffley has been involved in the finance industry for 15 years and is currently chief market strategist and head of education at InterTrader. In his Ruff Guide to Trading, he shows you the markets through his eyes. He reveals how he sees trading as a whole, how he assesses and exploits trading opportunities, and how he thinks about risk. He also describes three of his winning strategies. The focus of the Ruff Guide is intraday trading; everything covered relates to finding and making money from short-term trading opportunities that arise as part of everyday market moves. At the heart of Steve Ruffley's approach is a very simple 80-20 rule for understanding market movement. This is that market moves are 80% technical and 20% fundamental. He explains the fundamental and technical aspects you need to use to get the right balance in your market analysis and shows how to put these into practice with examples from real-life market action. Steve also explains why success at trading first requires you to understand yourself and your fellow traders, and provides guidance to help you gain this understanding. The Ruff Guide is the result of Steve Ruffley's thousands of hours of trading, charting and teaching experience. Pick it up to follow the simple and accessible guidance of someone who has seen and done it all before.
