Mulford and Comiskey function successfully both as college professors and real-world financial mercenaries. These guys know their balance sheets. The Financial Numbers Game should serve as a survival manual for both serious individual investors and industry pros who study and act upon the interpretation of financial statements. This unique blend of battle-earned scholarship and quality writing is a must-read/must-have reference for serious financial statement analysis." --Bob Acker, Editor/Publisher, The Acker Letter "Wall Street's unforgiving attention to quarterly earnings presents ever increasing pressure on CFOs to manage earnings and expectations.
