

Read PDF Html5 Application Development Fundamentals Exam 98 375

focuses more on knowledge and a little less on skills. However, the knowledge areas are all based on MS products so you must know those products inside and out. Questions on the general knowledge are relatively easy. Product and technology specific technical questions, however, are way more difficult. This is why we developed this study product - we focus on those difficult topics that involve difficult technical skills. We want you to be able to answer these difficult questions and secure exam success accordingly.

Software Development Fundamentals EXAM 98-361 covers: Core Programming Object-oriented Programming General Software Development Web Applications Desktop Applications Databases Web Development

Fundamentals EXAM 98-363 covers: Programming web applications Working with data and services Troubleshooting and debugging web applications Working with client-side scripting Configuring and deploying web applications

HTML5 Application Developer Fundamentals EXAM 98-375 covers: Platform fundamentals Manage the state of an application Debug and test Publish an application Build the UI using HTML5 Core CSS concepts Using JavaScript: Update the UI Code animations Access data Code additional HTML5 APIs

These exams have some common elements and we believe that it would be beneficial for you to study them together. We give you knowledge information relevant to the exams specifications. To be able to succeed in the real exams, you'll need to apply your earned knowledge to the question scenarios. This ExamFOCUS book focuses on the more difficult topics

The Microsoft Technology Associate MTA certification is an entry-level certification which serves as a good starting point for students and educators who may eventually progress to the Microsoft Technology Specialist MCTS or higher programs. Simply put, it assesses the foundational knowledge necessary to pursue MCTS, MCITP or MCPD certifications. The certification focuses more on knowledge and a little less on skills. However, the knowledge areas are all based on MS products so you must know those products inside and out. Questions on the general knowledge are relatively easy. Product and technology specific technical questions, however, are way more difficult. This is why we developed this study product - we focus on those difficult topics that involve difficult technical skills. We want you to be able to answer these difficult questions and secure exam success accordingly. Software Development Fundamentals EXAM 98-361 covers:Core ProgrammingObject-oriented ProgrammingGeneral Software DevelopmentWeb ApplicationsDesktop ApplicationsDatabasesWeb Development Fundamentals EXAM 98-363 covers:Programming web applicationsWorking with data and

services Troubleshooting and debugging web applications Working with client-side scripting Configuring and deploying web applications HTML5 Application Developer Fundamentals EXAM 98-375 covers: Platform fundamentals Manage the state of an application Debug and test Publish an application Build the UI using HTML5 Core CSS concepts Using JavaScript: Update the UI Code animations Access data Code additional HTML5 APIs We give you knowledge information relevant to the exams specifications. To be able to succeed in the real exams, you'll need to apply your earned knowledge to the question scenarios. Many of the exam questions are written to be less straight forward. They tend to be framed within the context of short scenarios. The exams are not too difficult. However, coverage is very comprehensive - a wide range of topics are presented in the official topic lists. The exams do not ask you to answer hundreds of questions. In other words, only a small fraction of the official topics will be presented. This Exam FOCUS book focuses on the more difficult topics that will likely make a difference in exam results. The book is NOT intended to guide you through every single official topic. You should therefore use this book together with other reference books for the best possible preparation outcome.

exam 98-383. Drawing on her experience helping thousands of people learn HTML, CSS, and web design, Jennifer Kyrnin guides you from the absolute basics all the way to creating responsive web layouts and beyond. One step at a time, you learn how to create and post HTML to a hosting service; build a basic HTML document; write a CSS style sheet; use internal and external style sheets; build and style HTML text; create HTML5 outlines; adjust fonts and typography; choose and change colors; create CSS3 rounded corners; and even add HTML5 web video and audio. Throughout, Jennifer covers the MTA exam 98-383 objective domains logically and provides opportunities to review and practice fundamental concepts and techniques. Topics are organized into bite-sized, self-contained lessons, so you can learn key HTML and CSS skills quickly and easily. This video course, along with additional study, can help you achieve the hours of instruction and hands-on experience recommended to take the exam and demonstrate your mastery of fundamental HTML and CSS concepts. About the Instructor Jennifer Kyrnin has been teaching HTML, XML, and web design online since 1997. She has built and maintained websites of all sizes, from small, single-page brochure sites to large, million-page database-driven sites for international audiences. She is the author of Sams Teach Yourself HTML5 Mobile Web Application Development in 24 Hours and Sams
