

back recesses of their psyches? Reach latent ancestral memories of cave days when humans were potential prey? Indeed, there are those who say their nightmares involved bears before they ever saw one, either in the flesh or in the movies. Unfortunately, these nightmares all too often come true. People perform almost superhuman feats in their fight to survive bear attacks. Jim Mariotte, for instance, was attacked and mauled by a grizzly while carving out a moose head. When playing dead didn't work, he slammed his skinning knife into the attacker's neck. The surprised bear backed off only to charge again, cut his tongue trying to bite at the knife, and got the knife sunk into the same place. By the third charge, Mariotte was on his feet despite chewed buttocks and damaged legs. This time the bear left with the knife still sticking in his neck. "In bear attacks, the human survival instinct is extraordinary," says a doctor who sees the terrible punishment victims of bear attacks live through. "And equally amazing are the heroics and seemingly superhuman efforts of those around the victims." Bear Attacks of the Century gathers together these stories of courage, chronicling the most horrific encounters between bears and people. With expert advice on avoiding attacks and information that may help both species leave an encounter unscathed, this book is required reading for hikers, hunters, campers, or anyone visiting bear country, and those who want to learn more about these sometimes deadly but always fascinating animals.

She was an innocent Mormon girl. He was America's most notorious serial killer. When their paths crossed on a quiet autumn afternoon, he planned to kill her. But this victim had an incredible will to survive and would live to tell her story nearly three decades after he met death in a Florida electric chair. Ted Bundy brutally attacked Rhonda Stapley in a secluded Utah canyon in 1974. She miraculously escaped and hid her dark secret until now. This compelling real story of triumph over tragedy is both shocking and inspiring and told with the true courage of a victim turned survivor. (Foreword by Ann Rule) When she appeared on his show, Dr. Phil McGraw told Rhonda, "This book will save lives."

I nicknamed this tandem 'the union of the perverse and mad'. That says it all... My early childhood is a huge black hole. Every last recollection has vanished into thin air. From the most trivial incidents to the toys that were my companions throughout the time I was learning about life, all has literally disappeared.
