

Igcse Physics Revision Guide

This revision guide helps prepare students for the Edexcel IGCSE Physics exam. IGCSEs are becoming increasingly popular with schools and are viewed by many as more rigorous than the standard GCSEs. Can be used in conjunction with the Collins Edexcel IGCSE Student Book for thorough exam preparation.

Matching the IGCSE specification, including CIE, this title includes progress check questions that help monitor and review understanding throughout learning.

This new study guide will help pupils to achieve A* grades in International GCSE Chemistry exams. The book is ideal for revision as it consolidates everything pupils have learnt in Chemistry lessons into one convenient resource. It outlines the various skills required at this level to achieve those top grades and provides practical guidance on how pupils can develop their exam technique. As well as providing questions pupils can answer, the book also gives examples of excellent answers. The book is ideal for pupils wanting to achieve A* grades at International GCSE level. Key Benefits: · Ideal to be used by pupils who are looking to achieve A* grades in International GCSE Chemistry examinations. · Covers all the material needed for Edexcel and the Cambridge International examinations. · Includes helpful tips and advice on how pupils can improve their exam technique so that they can achieve those all important top grades.

"Written specifically for Edexcel's new IGCSE Physics (from 2009) qualification in a clear and engaging style that students will find easy to understand. This book includes a wide range of activities and exercises for self-study, as well as examination style questions and summaries to aid revision."--Publisher's description.

Physics IGCSE IGCSE Physics revision guide that will help you to study and enjoy this fascinating subject!

The only resources designed for the Cambridge IGCSE® Chinese as a First Language syllabus (0509). Take an active approach to first language Chinese with activities that reinforce language learning and expand vocabulary and idioms. The coursebook focuses on building students' reading and writing skills through real Mandarin Chinese texts about different topics, such as Chinese philosophers and sport. It also provides opportunities to develop essential life skills including creative thinking, communication and problem solving. At the end of the course, students should be able to critically analyse literary work written in Chinese and demonstrate a strong writing ability. Suggested answers to the coursebook questions are in the teacher's book.
