Ancient codes and a legendary killer lure a young detective into a dark and dangerous world. When a murdered historian is marked with a mysterious code, homicide detective Dee Brentano worries about his colleague – her missing father, Alexandre. FBI special agent J. R. Pierce tells her that Alexandre is wanted for this murder. Desperate to find him first, she discovers that Alexandre has items that several people – including Pierce – would kill to possess. One is a letter attributed to Jack the Ripper. Another is an erotic cryptograph. Dee encounters a potential ally in Detective Gregory Brenner. She's attracted to him, but fears that he's playing her to find her father. She's also drawn to her father's protégé, Scott Bateman, who can decode the Ripper letter's secret message and the symbol on the murdered historian. It's bait for luring supernatural entities. It's also a map to locating her father. Dee must choose her path wisely. One leads to a supernatural lover, the other to an immortal serial killer. Dean Koontz called Ramsland's Ghost: Investigating the Other Side, "The best book of its kind I've ever read," and Publisher's Weekly stated that "Ramsland is a master of foreboding." Whitley Streiber found The Heat Seekers to be a "gem" and said, "Katherine Ramsland is a marvelous novelist, who approaches her subject with chilling, fascinating inner knowledge."

Vald till en av Årets bästa böcker 2013 i Svenska Dagbladet! »Vad Gladwell tänker i dag, tänker vi andra i morgon.« JAN GRADVALL »Roliga och genomtänkta iakttagelser i essäform. En rad analyser som förklarar hur vi tänker, och hur vi i vissa fall tänker helt fel.« LOTTA OLSSON, DN Under det senaste decenniet har Malcolm Gladwell skrivit tre böcker som har förändrat vårt sätt att förstå världen och oss själva: Den tändande gnistan, Blink och Framgångsfaktorn som skapar vinnarna. Hans fjärde bok, som sålt i över en miljon exemplar i USA, samlar de bästa av hans uppmärksammade och inflytelserika artiklar från tidskriften The New Yorker. Vad hunden såg inbjuder till en rad fängslande och oförsägbart lärorika äventyr. Gång på gång vänder Gladwell blicken mot det skenbart triviala eller självklara, och gång på gång öppnar sig nya och överraskande perspektiv. »Bra texter«, skriver Gladwell i sitt förord, »står och faller inte med sin förmåga att övertyga. De står och faller med sin förmåga att engagera dig, få dig att tänka, ge dig en inblick i någon annans huvud.« MALCOLM GLADWELL [född 1963 i Kanada] är journalist på The New Yorker och har varit med på Time Magazines lista över »Världens 100 mest inflytelserika personer«. Han är författare till Den tändande gnistan, Blink och Framgångsfaktorn som skapar vinnarna, vilka samtliga gick in på förstaplatsen på New York Times bestsellerlista. »Vad Malcolm Gladwell än skriver om är det ett sant och lärorikt nöje att läsa hans böcker.« SMÅLANDSPOSTEN »Malcolm Gladwell uppmuntrar sina läsare att tänka en gång till och tänka annorlunda. En del av kapitlen i Vad hunden såg är mästerverk i essäns konst.« STEVEN PINKER, THE NEW YORK TIMES BOOK REVIEW »Ljuvlig läsning rakt igenom.« CRAIG SELIGMAN, BLOOMBERG NEWS

In an age of growing cyber-crime, cyber-terrorism, hacker activism, and with the ever more central role of digital technology, it is inevitable that the computer will increasingly find itself at the heart of criminal activity and criminal investigations. Used as a powerful tool by both criminals and crime fighters, computers are now providing the virtual fingerprints, footprints, and smoking guns in many criminal investigations. The various kinds of jobs available at the local, state, and federal level are detailed, as are the relevant academic and professional requirements and expectations. Also covered are careers in the private sector relating to corporate security and anti-hacking efforts. Detailed discussions of educational pathways, job search strategies, interview techniques, and lifelong learning and career development/advancement are included. Steeped as it is in digital literacy and career preparedness, this power-packed resource also lends itself perfectly to the relevant Common Core curriculum standards for the reading of instructional texts.

Bazându-se în special pe surse primare, cartea de fa?? este o analiz? provocatoare, dar ?i distrug?toare de mituri, care are în centru 33 de criminali în serie din Africa de Sud, Australia, Iran, Marea Britanie, Statele Unite ale Americii etc. Exist? nenum?rate mituri legate de criminalii în serie, printre care c? ace?tia sunt cu to?ii ni?te singuratici disfunc?ionali, c? sunt b?rba?i albi, motiva?i doar de sex, c? to?i c?l?toresc mult ?i ac?ioneaz? într-o zon? extins?, c? nu se pot opri din ucis, c? sunt cu to?ii fie nebuni, fie genii malefice ?i c? î?i doresc s? fie prin?i de poli?ie. Desigur, exist? unii criminali în serie care fac parte din aceste categorii, dar criminalul din Green River era c?s?torit ?i nicidecum un singuratic disfunc?ional; o mul?ime de criminali în serie sunt femei sau non-caucazieni; dr. Harold Shipman în mod sigur nu era motivat de sex în ac?iunile sale; multe crime în serie (precum cele asupra prostituatelor din Ipswich, comise de Steve Wright) au avut loc pe un teritoriu restrâns; „criminalul BTK”, Dennis Rader, s-a oprit din ucis în 1991, dar nu a fost prins decât 14 ani mai târziu. Este posibil ca mul?i criminali în serie s? fie vicleni sau foarte descurc?re?i, dar foarte pu?ini dintre ei sunt cu adev?rat ni?te genii. Fiecare dintre cazurile abordate în această carte este neobi?nuit fie în privin?a modului în care criminalul a s?vâr?it faptele sau ?i-a ales victimele, fie în ceea ce prive?te felul în care a fost prins ?i apoi condamnat sau executat.

Serial Crime, Second Edition, examines serial predatory behavior and is divided into two main parts. Part one deals with behavioral profiling, and covers a variety of critical issues from the history of profiling and the theoretical schools of thought to its treatment in the mainstream media. This updated edition includes new sections on the problems of induction, metacognition in criminal profiling, and investigative relevance. Part two deals more specifically with a number of types of serial crime including stalking, rape, murder, and arson. Chapters on each of these crimes provide definitions and thresholds, and discussions of the offenders, the crime, and its dynamics. Considerations for behavioral profiling and investigations and the development of new paradigms in each area are interwoven throughout. Topics are conceptually and practically related since profiling has typically seen most application in serial crimes and similar investigations. The unique presentation of the book successfully connects the concepts and creates links to criminal

behavior across crimes—murder, sexual assault, and arson—something no other title does. The connection of serial behavior to profiling, the most useful tool in discovering behavior patterns, is also new to the body of literature available and serves to examine the ideal manner in which profiling can be used in conjunction with behavioral science to positively affect criminal investigations. * Provides a theoretical and practical foundation for understanding the motivation and dynamics in a range of serial offenses * Illustrates the promise, purposes and pitfalls of behavioral profiling in the investigation of various serial crimes * Numerous case examples show the real world uses of behavioral profiling in investigations, as well as highlighting a variety of issues in understanding and investigating serial crime

An international secret society of telepathic blood-magic angels come together to destroy what appears to be the reincarnation of Jack the Ripper. This second novel in the Hearts of Darkness series, Track the Ripper takes NYPD detective Dianysus Brentano to London, Glastonbury and Paris as she chases a man who calls himself Jack the Ripper straight into an Internet web that aims to turn followers into killers and control the world. Her resolve to recover what he stole from her attracts allies from among the blood-drinking celestial ma'lakhim. Overwhelmed by their dangerous beauty, Dianysus sets her heart on the leader, Sitri, who has been her secret protector since childhood. But she's unsure if he's equally attracted to her or is exploiting her for his own purpose. Dianysus learns that the mother who'd abandoned her when she was young had been a queen among these creatures. This makes her own blood unique and gives her new skills. When she discovers that the Ripper seeks her blood to complete his conquest, she forms a risky plan. As the ma'lakhim strive to save Paris and London from mass destruction, Dianysus goes to face the Ripper alone. She must trust that her blood-bond with Sitri is true, because otherwise, all is lost.

This book comprehensively discusses 13 infamous cases of serial and non-serial sexual homicide committed around the globe in the past four decades (1974–2010). Offering a psycho-criminological perspective, it analyzes the cases theoretically (i.e., contributing and precipitating factors, and offender typology) and considers the practical implications (i.e., investigative and crime-preventive measures, and social services). The first book to offer a glimpse of this topic from a global perspective, it adopts a unique approach—case background and critical analysis. As such it is a valuable source of reference for scholars, clinicians, and law enforcement practitioners wanting to gain a better understanding of this type of violent offender.

The world is now filled with notorious events and happenings which you never expect to happen. The worst is that, people are the only reasons why such circumstance exists or occurs. The society is composed of different kind of people with various beliefs and philosophies in life. There are some who would abide by the law provided by the government and are guided by the morals in their religious beliefs. However, a number of people who are take different path that are against the law. And the law of humans are now increasing. Killings, murders, and other type of crimes are evident in different parts of the world. Despite having the authorities to take care of the safety and security of people, some hardheaded people still manage to do things according to their own will and perspective. They are even proud of the number of crimes that they have done. This is evident when Dennis Rader made a loud noise as a serial killer for his number of victims and crimes done. He became the notorious Wichita Serial Killer, who managed to keep himself hidden in the eye of the authorities for almost thirty years, while he was able to continue his legacy in killing and murdering. What it takes to be a serial killer? As most sources state, a serial killer refers to the person who murders people with the number up to three or more. This is usually due to the abnormal psychological gratification along with the murders that take place over a month and includes significant break between these months. Even though it is said that the usual motive of a serial killer is psychological gratification, which involve sexual contact towards the victim, the FBI states that the motives could include thrill, anger, attention seeking and financial gain. With all the stated motives, a question left hanging is what was Dennis Rader's motive for his notorious serial killing? Knowing who Dennis Rader is, including his personal life even before his notorious acts will definitely help you to know and understand him better and why he became the person he is today. In relation to this, people are more interested to know what's on the mind of BTK, Dennis Rader, while he was determined to execute such crimes for many years. You'll get to know more as you read further.

This dramatic and compelling, true-crime psychological thriller provides an in-depth, behind-the-scenes narrative of one of the most bizarre and terrible serial killers in U.S. history.

A dramatic and compelling true-crime psychological thriller This incredible story shows how John Douglas tracked and participated in the hunt for one of the most notorious serial killers in U.S. history. For 31 years a man who called himself BTK (Bind, Torture, Kill) terrorized the city of Wichita, Kansas, sexually assaulting and strangling a series of women, taunting the police with frequent communications, and bragging about his crimes to local newspapers and TV stations. After disappearing for nine years, he suddenly reappeared, complaining that no one was paying enough attention to him and claiming that he had committed other crimes for which he had not been given credit. When he was ultimately captured, BTK was shockingly revealed to be Dennis Rader, a 61-year-old married man with two children.

The Philadelphia Experiment was Einsteins experiment in which he had not only discovered, in 1943, the way to make things invisible and transport them at great speeds, but also positively proven scientifically, physically and spiritually that God Almighty exists! He had literally discovered God! That question, Is there a God?, thats been going through peoples minds for so long, discussed on the street corner, talked about on the porch on a hot summers night, is now a proven fact
